He is enroute to Washington in connection with the Mexican problem.

Aside from the armistice feature which Carranza refused to consider Mr. Calderon said it was the demands concerning disposal of religious questions and the time when elections should take place which greatly interested the co stitutionalists.

According to the statement of the liberal party leader today, the United States demanded all property of the Catholic murch confiscated by the constitutionalists should be returned to the church that buildings destroyed should be paid for, that priests should be protected and that priets driven from the country should be allowed to return. To this Carranza replied, according to Calderon's

King Peter Turns Servian Throne Over to His Son

BELGRADE, Servia, June 24.-King Peter I of Servia was reported today to have abdicated the throne in favor of his second son, Prince Alexander.

The king left Belgrade in the afternoon for the baths at Vranya, in the southern part of Servis, and a note issued by the official agency in announcing the king's departure did not say he had abdicated, ut confined itself to the statement that his majesty had signed a ukase entrusting W. the government of Servia during his absence from the capital to Crown Prince

A royal proclamation issued shortly afterward was as follows:

'Owing to ill health I am unable to perform my duties, and in accordance Insurgents Wreck Building with with paragraph @ of the Servian constitution I confide the government of Servia to my heir, the Crown Prince Alexander, during my illness."

As it was known that King Peter was seriously ill the first impression caused to the public by the issue of the proclamation was that his majesty actually had abdicated, and there would be little surprise in court circles in Belgrade by

oday's action of the king. King Peter I, who is 70 years old, ascended the Servian throne June 15, 1903, after the murder of King Alexander. King Peter until his ascension led a

ery adventurous life. He studied in witzerland and then went to the French Military academy at St. Cyr. He paricipated in the France-German war as in officer of the foreign legion.

For many years he is said to have engaged in conspiracies against King Milan of Servia, but for forty-five years he himself never set foot on Servian soil until he had been elected king by the Servian Parliament.
