

Monday, the Final Clearing of Remnants

From the Great June Sale of Cotton Goods

An event made possible by the fact that we invoice July 1st. As is our usual custom, we invoice no remnants. There are scores of cotton remnants of Voiles, Crepes, Eponges, Novelty and Floral Voiles.

PRINTED FRENCH VOILE, 6 yards in remnant, 65c quality, for . . . \$1.29	FRENCH RATINE, rose pink, 42-inch wide, \$1.25 quality, remnant for . . . \$2.09
FOULARD NOVELTY, ivory ground with dainty black figure, 6 yards in remnant, for . . . \$1.39	FLORAL VOILE, gray, in dainty figures, 65c quality, remnant . . . \$1.69

NOW THEY MUST GO. We cannot give detail here. The facts and figures below are correct. We mention a few items that you may note the special reductions for Monday:

EMBROIDERED FRENCH VOILE, white ground with beleo figure, \$1.50 quality, 36-inch wide, 5 1/4 yards for . . . \$3.39	EMBROIDERED OREPE, white ground with pink embroidery, \$1.25 quality; 5 yards in remnant for . . . \$2.29
CREPE EPONGE, new wisteria, 42 inches wide, \$1.25 quality, 5 yards in remnant, for . . . \$2.39	FRENCH EPONGE CREPE, new frosted green, \$1.00 quality, 42-inch, 4 1/4 yards in remnant, for . . . \$1.59

Hundreds of Skirt Lengths in Monday's Sale

Every piece in the great sale is of the newest style and suitable for the coming season, at great reductions:

HEATHER SUITING, 85c quality, 2 1/4 yards in remnant, for . . . 98c	FRENCH EPONGE, \$1.75 quality, 2 1/4 yards in remnant, for . . . \$2.19

Cretonnes

A most complete showing of the new cretonnes which are so much in demand for covering cushions, porch furniture, etc. Upwards from 15c a yard.

Thompson Belden & Co.

HOWARD AND SIXTEENTH STREETS

Submarine Boats Are Making Large Warships Archaic

LONDON, June 27.—The recent assertions by Sir Percy Scott that battleships are fast becoming archaic have received wide attention, because it was Sir Percy who did so much toward perfecting the big-gun service of the British dreadnaughts.

The introduction of vessels that swim under water has, says Sir Percy, "entirely done away with the utility of the ships that swim on top of the water, since warships would not dare come within sight of a coast that was adequately protected by submarines. No fleet can hide itself from the aeroplane eye, and the submarines can deliver a deadly attack with in broad daylight."

CHANNEL OF PANAMA CANAL IS NEARLY OPEN

PANAMA, June 27.—Although the rainy season has been on for more than a month, the saturation of the earth has not increased the Cucaracha slide, which the dredges have been racing to overcome. It is estimated that the dirt is now being removed twice as fast as it slides into the channel, and that a level of rest for the slide may soon be reached.

Asthma—Hay Fever

These annoying diseases are again prevalent at this season. Unfortunate sufferers can safely use Warner's Safe Asthma Remedy with splendid results. It is prepared and prescribed for all forms of Asthma, Hay Fever and Stuffy Colds—it soothes and restores at the same time.

Germany Subsidizes Automobile Trucks For Use During War

BERLIN, June 27.—The German military authorities have adopted a novel form of the subsidy principle as a preparation for the next war. Imitating the example of those countries that subsidize steamships in order to convert them into naval vessels in times of war, the German war office has for some time been paying subsidies on heavy automobile trucks, which the army will take over by requisition as soon as a war breaks out.

United States Coal Shippers Invading Markets of Europe

LONDON, June 27.—The success of American coal shippers in securing a large portion of the trade of the Mediterranean and strengthening their hold on that of French and Spanish ports is occasioning considerable misgivings among the colliery and shipowners of South Wales, who formerly held a monopoly of this trade. It has just been announced at Cardiff that the Americans have secured an order for 100,000 tons of coal from the Italian State railways for delivery during the next six months, making a total of 300,000 tons for this year. Formerly the whole supply of these railways was secured from Wales. The Egyptian State railways have also bought more extensively from America this year, diverting in this way some \$2,000,000 from South Wales. American coal cargoes are also finding their way to French and Spanish ports with increasing frequency. The high price of Welsh coal and the cheapening of freights is held responsible for the change. American coal can now be delivered at foreign ports at from 50 cents to \$1 a ton cheaper than the Welsh product. The Welsh collieries are working to their full capacity and are fully booked for this year's crop, but it is the future which the owners fear, for the Italian and Egyptian orders could always be depended upon, whereas the orders now being filled are irregular.

POPULATION OF GREATER BERLIN INCREASES SLOWLY

BERLIN, June 27.—The population of Greater Berlin is growing at a slower rate since the present period of business depression set in. It increased last year by only 50,000, whereas the gain had been 100,000 for 1912, and 110,000 for 1911. Berlin itself actually lost population in 1913 for the first time in very many years. The reduction was about 16,000 whereas the previous rate of gain had been about 16,600 a year. That the change in prosperity was the cause of this movement in population is evident from the fact that the number of concerns in Greater Berlin employing as many as twenty-five persons was reduced in 1913 by 10,000.

NEW SPECIES OF BEAN NAMED FOR GOETHALS

PANAMA, June 27.—Prof. Henry Petter of the Panama Department of Agriculture, has discovered a new species belonging to the natural order Leguminosae, or the bean family, on which he has conferred the name Goethalsia tetralix, to perpetuate the name of the canal builder in botany. Colonel Goethals has had a number of children named after him, but this is his first honor of the botanical order. The leguminosae family, incidentally, knows no limit. Before Prof. Petter's identification of this new member it already numbered upwards of 7,500 species.

Women's Movement In Germany Causes Increase in Suicides

BERLIN, June 27.—The development of the woman's movement in Germany carries with it a remarkable increase in suicides by women. While the ratio of suicides of men remained constant during the twenty years ended with 1912, the number of women suicides increased from 8.3 to 10.5 per 100,000 of the woman population. While there are doubtless many causes for the increase, the chief cause is attributed to the fact that women have gone into workshop and factory, professions, much more extensively than twenty years ago. They have shouldered larger responsibilities and have exposed themselves to greater economic and social dangers. That the cause is largely an economic one is evident from the great increase of woman suicides at Berlin, where nearly forty-eight women take their own lives to every 100 men.

Norfolk Takes One From Columbus

NORFOLK, Neb., June 27.—(Special Telegram)—Norfolk defeated Columbus Saturday afternoon by the score of 8 to 6. Both teams used two pitchers in their second and third. The Drummers hit Iron for six safeties, two of them doubles. They exhibited several double steals which counted for scores. Norfolk relieved Denton in the first of the seventh after Columbus had touched him for five hits, which counted five scores. Cramm's home run in the ninth was a feature.

Buried Egyptian City is Discovered

LONDON, June 27.—Recent exploration in the Nile Valley has resulted in the discovery of a buried Egyptian city, as well preserved as Pompeii, according to Rev. Prof. A. H. Sayce, the famous Egyptologist, in an address at the Royal society. The discovery was made by Prof. Garstang, investigating at Meros. Walla fifteen feet thick surrounded a royal city containing two palaces, public baths, gymnasiums, streets and private dwellings. Trees set in pits lined with brick bordered the streets, and walls, quays and landing stages were built along the river. This city was the center of the iron industry of the time, and the slag from the smelting furnaces show that enough metal was worked there to supply the whole of northern Africa.

DEATH RECORD

Thomas J. Westfall.

Word had reached here of the death of his home in Idaho of Thomas J. Westfall, at the age of 71. He was a driver and raiser of trotting horses, and lived from 1882 to 1902 at his farm a few miles south of here. He leaves a widow, two sons and a brother, H. S. Westfall, who also formerly lived in Pawnee county.

Clancy Reaches Prison.

LEAVENWORTH, Kan., June 27.—Eugene Clancy, of San Francisco, one of the labor leaders convicted in the dynamite conspiracy case, arrived at the Federal prison here late last night. Clancy is the thirteenth to arrive at the prison in two days, and walked to the prison gates alone and asked to enter.

BUTTE TROUBLE MAY BE OVER

Will A. Campbell Tells of the Labor Difficulties in Montana. ASSESSMENTS ARE TOO HIGH. Meyer Leaves Butte and May Not Return—Question is as to Whether He Was Driven from the City.

The Western Federation of Miners is probably making its last stand in Butte, and President Meyer doubtless realizes that the organization is no more in Montana as a per cent as most of his former members in Butte have gone into an independent union, now being recognized by other trade unions, said Will A. Campbell, editor of the Helena Independent, who is in the city for a day en route east.

"Whether Meyer was driven from Butte or not is a question. He probably thought it a dangerous place for him to stay and wanted to talk it over with Governor Stewart. So he headed for Helena, followed not only by his friends but by some not so friendly. Both these elements met the president of the Western Federation in Helena and advised him not to return. At first he said he would, that the protests became so emphatic that he concluded not to return.

"The whole trouble in Butte has been created by the heavy assessments made against the miners carrying on the battles of the Western Federation elsewhere. They paid in \$50,000 for resisting in the fight in Michigan, yet the miners are getting less out of their staunch unionism than any other class in Butte. They receive but \$2.50 per day, which enables such trades as the plumbers, for instance, to get \$12 per day. The Western Federation is a club and the influence which enables other trades to get the highest possible scales, if they are not paid an employer is declared unfair and the tremendous influence of the Western Federation with its 6,000 members in Butte, is thrown against the firm or individual. In the meantime the miner works along in a hazardous occupation on his little \$2.50 a day and has been paying \$12 to \$15 a month in assessments.

Trouble May Be Over.

This condition was found to make trouble. It did not with 90 to 95 per cent of the members of the Western Federation in the new independent union, and not being required to show Western Federation cards to go to work, the trouble is likely over unless the operators take a hand and make a mess of it.

"Helena has no labor trouble, the business there being gold mining and agricultural pursuits. It does not require such a mass of men to mine for gold in the Helena district, hence there are no troubles. The whole Helena valley has become one of the state's greatest agricultural districts and a good class of farmers are coming in from Minnesota, the Dakotas and other states of the middle west."

Mr. Campbell has gathered around him in Helena quite an Omaha colony. W. O. Peakey, formerly of the Omaha corn shows, is in the advertising department; Miss Jane MacMillan, formerly of the Nebraska Telephone company and with Mr. Campbell in the Commercial club public bureau, is treasurer of the Independent Publishing company; Rev. Newman Hall Burdick, pastor of the First Presbyterian church, is pastor of the Presbyterian church in Helena and "religious editor" of the Independent; Glenn M. Campbell and Bert Campbell, formerly of the Potter Printing company, Omaha, are running the job business of the Independent. Dr. L. M. Rheem, formerly of the Western Union, Omaha, is secretary of the Helena Commercial club.

"Omaha ought to come out after more Montana business," said Mr. Campbell. "For a large part of Montana Omaha is as natural a market as St. Paul and Minneapolis. The Billings district belongs to Omaha quite as much as to the Twin Cities, and there is not a district in the west so promising and so prosperous as present as the Yellowstone district of Montana."

SOCIALIST LEADER TO TALK ON WOMAN SUFFRAGE.

J. STITT WILSON.

Salvationists from America Peevish at Reception by Page

LONDON, June 27.—The American ambassador, Dr. Walter Hines Page, came near being charged with lack of patriotism by the 70 American Salvation Army delegates on their official visit to him, but the misunderstanding was cleared by one of the embassy clerks.

The Salvationists made an American patriotic display on this occasion as has been rarely seen in London. Bands played American patriotic tunes, the American colors alternated with the Salvation Army banners and each of the parades waved a small American flag as they marched through Victoria street past the window at which stood Dr. Page. The chief officers then paid a formal call on his excellency. But in the matter of bunting the embassy might as well have been one of the big shops alongside.

"Where is the American flag?" asked one of the officers in a pained tone of one of the clerks. "Our parade was simply ablaze with 'Old Glory,' and there isn't a single flag displayed at the embassy to welcome us. It doesn't look patriotic."

The clerk explained that the flag of the embassy has purely ceremonial duties to perform rather than patriotic or ornamental and is displayed only on instructions from the State department at Washington.

This explanation was passed around and seemed to satisfy the patriotic scruples of the visitors.

On account of the comparatively small quarters American diplomats without large private means necessarily maintain in foreign countries, Dr. Page was unable to invite the Salvationists to his home, and the embassy itself is likewise cramped. A reception in the street would have lacked dignity, so the delegates felt a disappointment in not being able to shake hands with him. They had been rather spoiled on their way over, they said, by Colonel Roosevelt, who fraternized with them, stood in snaphoot groups and answered to the familiar title of "Colonel" and "Teddy."

The American Salvationists, who have been visiting London in parties, speak highly of their courteous treatment by the people.

Straus Brings Many Ideas From Europe

LONDON, June 27.—Simon W. Straus of Chicago, who has been spending six months in Europe conducting investigations as president of the American Society for Thrift, is to take home a number of suggestions.

One of them is the establishment of co-operative societies. He has found that the work done by them in Great Britain is second in extent only to that of the United States Savings Corporation, and that the middleman, who is thus put to productive toil, but give their members a sense of thrift. He found the societies working with great success also in France, Switzerland and Germany.

The use of vacant city lots for gardening by school children is another movement he will try to further. The American cities, most of which are not yet overdeveloped as are some of those in the old world, usually have plenty of vacant lots, left for years in an unsightly condition until building operations are begun. Mr. Straus argues that these be turned into gardens where school children may receive valuable elementary training in thrift.

In a summary of his investigations of thrift in Europe he finds Germany excelling in the economy and efficiency of government, while the Frenchman leads in individual thrift. If the two were combined in the United States, he said, the cost of living would take a big drop and prosperity increase.

BULGARIA MAY HAVE EXHIBIT AT PANAMA SHOW

SOFIA, June 27.—The minister of commerce has named a commission of fifteen members to study the details of Bulgarian participation in the San Francisco fair. A request will soon be made on Parliament by the government for a grant of \$50,000 with which to pay the expense of representation.

Everybody reads Bee Want Ads.

SAILING VESSELS ARE PRACTICALLY OFF SEA

LONDON, June 27.—The special signal "a" before the names of steamers in Lloyd's announcements, has been discontinued as a frank and final recognition of the fact that sailing vessels have been nearly crowded off of the sea. In Lloyd's register of a quarter of a century ago, the sail ships led the steamers by 2,462 to 12,920 in numbers, and 9,486,000 to 7,414,954 as to net tons. This year's register shows that there are now but 659 sailing vessels of 1,200,000 tons, while the steamers have increased to 22,007 of 26,517,000 tons.

Steamer Gothland Reported.

HUGH TOWN, Sicily Island, June 27.—The Belgian steamer Gothland, which went ashore on the Crin Rocks on June 23 while on the way from Montreal to Rotterdam, was refloated today.

WAIT FOR IT!

THE GREATEST MONEY-SAVING OPPORTUNITY OFFERED THE PUBLIC THIS YEAR.

The Novelty Company, 214, 215, 216 N. 16th Street, announces that they will start their 8th annual July Clearing Sale on Wednesday, July 1st, at 8:30 A. M.
