

Receipts From Merchants on This Page Are Valuable

We Are Going to Shut up the "Shop" and Give Ourselves a **HOLIDAY ON THE "FOURTH of JULY"**

We believe we deserve it! And we believe our employes deserve it also. So trust to us to forget business cares on the glorious "Fourth."

But—we can handle YOUR wants BEFORE the "Fourth." Send us your garments as late as FRIDAY morning and we will have them back to you in time for wear on Independence Day. So YOU, TOO, can cast aside cares and have a genuine outing.

And—"rush work" or "no rush work" there is only ONE GRADE of work turned out here—faultless—premier—peerless—unbeatable—inimitable—at prices not a BIT higher than usual.

Pletnam and Jeram.
Palk Akers is a dentist in Chicago. "The time for freakish gowns for women is past," says a fashion journal. In our opinion it never arrived.

The fly has returned. We don't know where he's been all the winter, but it was somewhere where he got nicely rested.
"Burns was a ploughboy and Byron a harrow boy," jestingly remarks an English paper. Correct about George; he was considerable of a rake.

A western paper tells of a collision between a freight train and a heavily loaded passenger. "When a passenger gets in that condition he should keep off the tracks."
The Mexicans are not without some originality. Take the case of a certain Mexican maiden. When her lover grew cold, she gathered all his love letters in a heap, sat in the midst of it, fired it and stoically burned to death upon this unique funeral pyre.—Boston Transcript.

Explained.
Of course it is really impossible to prevent this sort of thing from slipping into print occasionally, but when our esteemed correspondent sends it we feel obliged to raise the embargo. He says: "Judging from the latest reports from the north of Ireland a woman in Ulster carries a gun, and many of the babies are in arms."

ANNOUNCING Another Reduction

ELECTRIC LIGHT RATES ON JULY FIRST

To the Public:

We are pleased to announce that on July 1st, 1914, the primary rate will be reduced from 12 cents to 11 cents per kilo-watt hour.

This reduction of nearly 10 per cent in the lighting rate is in line with our established policy of always giving the greatest service for the least cost.

Only by the perfection of our organization down to the minutest detail, by saving a little here and a little there—perfection which only comes from years of careful study and close application of progressive business principles to our industry—are we able to put before our people this new and inviting schedule.

At this marked decrease in price, the most humble can now enjoy the comforts and blessings of electric light service—the closest rival to nature's daylight rays that has yet been given to man—and by far the cheapest.

CAMEO RINGS

The very latest fashion is a heavy solid gold ring with a fine and perfect cut cameo, possessing artistic beauty and distinct value. A cameo is like a diamond or an old violin—no two alike and each one an individual piece of work free from machine-made suggestions. By direct import from Italy and mounting vast quantities we can offer a perfect line from—

Cuts that print---

There is often all the difference in the world between a cut that shows up well in the engraver's proof and one that shows up well when it is printed. Cuts made for a newspaper have to be made so that they will give good results under the most adverse conditions. For that reason, a newspaper engraving plant produces cuts that the ordinary printer can use and get good results.

If you have some engraving to be done, send us the work and compare both the results and the prices with that of ordinary engraving plants.
