BUTLER WANTS A SHORT DEAL Says One or Two-Year Contract is Much Preferrable to One for

Period of Five Years.

City commissioners will consider the request of the Omaha Rendering and Feed company for a five-year extension of the garbage removal contract, at the meeting in committee of the whole Monday. Commissioner Dan B. Butler has opposed a five-year contract.

"I will not be here to fight a five-year contract, if it should come to a point where fighting would be necessary," said Commissioner Butler, " but I am opposed to a contract for a period of more than two years at the most. A oneyear contract is preferable.

enything less than a five-year contract. they can get or somebody else will step in and assume the contract."

The contract with this feeding company expires within a few weeks and some move is now necessary. The company has been removing the garbage free of charge and feeding it to bogs kept in the Missouri river bottoms.

Commissioner Butler opposed a fiveyear contract when the application was first made nearly a month ago. Commissioner goes to Denver Sunday, to aftend the Elks' convention.

Waldron Fined for Burning Bumps Off Lincoln Highway

The Nebraska state consul for the Lincoln highway, H. B. Waldron, was coming in from his ranch in the western part of the county Wednesday evening and when at about Forty-second and Farnam streets, City Marshal Dunlap of Dundee dropped down in front of him, apparently out of a clear sky and without the usual warning of thunder, Marshal Dunlap then very politely delivered to Mr. Waldron an invitation to appear at 8:30 o'clock Friday morning at the capital of Dundee and there partake of the hospitality of one Raymond M. Grossman, police magistrate for the quiet little burg of Dundee. Mr. Waldron appeared there at the appointed hour and explained to his honor that, in his judgment, the road authorities of Dundee had accomplished considerable for the Lincoln highway, but were somewhat derelict in their duties in that they left a few bumps on that portion of the great transcontinental route and, as state consul, it was his duty to burn them off. The court thereupon informed Mr. Waldron that ordinance No. 203 of the village prohibits the burning off of bumps on the Lincoln highway, especially if the burning takes place in the presence of City Marshal Duniap, and assessed the damage at \$10. Mr. Waldron paid the assessment under protest dron paid the assessment under protest and with the understanding that the court shall invest the amount in Lincoln high-

Arrest of Woman Lays Bare Mixup of Two Families

Wheeler arrested Johanna Jokowski, 1830 Vinten street, Thursday, on a charge of disorderly conduct, little did he reck & that when the case came up in police court his prisoner would be the stormy petrel in the domestic tragedy of two families.

Mrs. Jokowski had finished explaining that her husband, John, had accomplished-

"He ain't your husband, he's my husband," interrupted Mrs. Mary Lurkows-" "'-Little stars represent

turmoll. Lack of space prevents publication of proper number of stars.) When the affair simmered down, the battle was declared a draw by the police magistrate. Mrs., Jokowski was fined \$10 on the disorderly conduct charge, and the bigamy complaints were ignored.

Mrs. Lurkowsku says her husband deserted his family in Poland twenty years ago and came to America, and since married Johanna. Johanna says this is ail

The names used here, and in any other publication, are probably wrong also. No S one interested could be found who could spell their own names properly and the court officials resorted to guess work.

Bank Stock Doubles in Value, as Shown by Recent Sales

Fred Thomas, well known and popular assistant cashier of the Live Stock National bank, has been named a director to succeed A. L. Bergquist, who has disposed of his holdings in the bank. L. M. Lord, who has been cashler for some

time, will also be vice president hereafter. While the exact figure is not given out it is said that Bergquist, the retiring stockholder, sold his stock for something in the neighborhood of \$200 a share. When the bank was organised the stock sold for

\$100, it is asserted. The election of Fred Thomas to the directorate along with his duties as mashier brings out one of the promising young bankers of this section. The added responsibility is looked upon as a distinct compliment to his ability and success in building up the Live Stock National bank. C. F. McGrew, former state and national bank examiner, and leader in the western
