Barbecue to Be Feature of Meet of Republicans

The barbeque and ox roast of the Douglas County Republican league at Florence is a sure thing. At a meeting of the league last night at Baright hall it was definitely decided upon. It is to be held Saturday, August 8. It is to be a big affair and a crowd of thousands is expected. Enough meat will be provided to supply a crowd of this magnitude. The three candidates for governor on the rebublican ticket-John O. Yeiser, Ross L. Hammond and J. H. Kemp-will be in vited to address the gathering. Other ar cakers will be called upon also. Lemonade is to be furnished in great abundance and everything is to be free.

Dr. Harry A. Foster was made chairman of the barbecue committee. Besides Foster, the committee consists of John McArdle, F. S. Tucker, Henry F. Myers, Senator John McFarland and James Walsh of Benson.

James Waish is a veteran in the management of barbecues. Walsh is the man ho twenty years ago managed the great roast at Benson that drew 15,000 people and was an affair long remembered and talked of as a wonderful success.

The Mammota Microbe.

The microbe craze is a good thing," said Dr. Egbert R. Hewittson, the well known highelogist, at a dinner in Atlantic It has cleaned up the world. It has put a lot of diseases on the run. But at the same time, it has its humorous side. I frequently urge my little son to have nothing to do with dogs or cats because they are full of microbes. This morning, however I came on him on the teach playing with a stray monurel. But just as I came up he quitted the mongrei hurriedly.

hurriedly:
"Paga, he said, 'it's true about dogs having microbes. A hig black microbe just jumped out of that dog's coat and lighted on my hand."

The New Gowns.

Gaby Desiys said in New York of the Gaby Desiys said in New York of the 1914 fashions in gowns:

"These revelation gowns, evil as they are—for everyhody says they're evil, so it must be true—these revelation gowns on a beautiful woman are, alas, unquestionably becoming.

"But they're unhandy things, too. A bootmaker showed me the other day a slipper with a tiny purse-pocket hidden in the heel.

in the heel.

"An absolute necessity," he said, 'for the present-day gown affords no chance for the purse's concealment on any other part of the person."
