ARMORY REFERENDUM GOES

Supreme Court Holds Electors Must Vote on Nebraska City Case.

NOT AN "EXPENSE" UNDER LAW

Upkeep of Guard is Part of Cost of Keeping Up State Department, but Building Armory Not in This Class.

(From a Staff Correspondent.) LINCOLN, July 11.—(Special.)—The expense of sustaining the national guard of Nebraska which is a part of the state government, and in one sense a state institution, may not be made the subject of a referendum, but an appropriation to erect a building for a memorial armory is not an "expense" under the meaning of this clause and is not within the exception, and may be made the subject of a referendum.

Such is the opinion of the supreme court in the Nebraska City armory case, wherein the legislature at the last session voted an appropriation of \$50,000 for a memorial armory on the site of Old Fort Kearney in Nebraska City. Petitions have been circulated asking for a vote on the matter with the idea of killing the appropriation. Suit was brought to prevent the secretary of state from placing the proposition on the ballot and the district court of Lancaster county denied the injunction. The supreme court upholds the lower court.

Lower Court Upheld. The judgment of the district court of Douglas county is affirmed in a case brought on appeal by the Consolidated Stone company against the Union Pacific railroad company on a judgment secured by the latter for breach of contract regarding material used in the railway company's new building in Omaha. There was considerable controversy over the quality of stone used and payment was withheld. A line was filed on the building which the lower court disallowed.

Tight Clothes for Men This Autumn; New Dances Reason

ATLANTIC CITY, N. J., July 11.—American men who profess to follow fashion's decree will wear suits of the English or form-fitting models this fall and winter, according to the standards approved today at the opening session of the National Association of Manufacturing Clothiers' and Designers' convention. The opinion of all the delegates was unanimous in approving of the form-fitting styles, and their decrees are accepted without question by most of the leading clothing manufacturers.

Overcoats will have the "French back" and will be double-breasted, button-through variety. The balmain, so popular last season, also was approved, and with slight modifications, will be again worn this fall. Coats are to be single-breasted, cut in very snugly at the waist line, and just a trifle shorter than last season, with soft-roll lapels and three buttons. Trousers are to be shapely and of medium width. Several of the delegates were of the opinion that the popularity of the new dance was responsible for the demand for form-fitting clothing.

Clay Court Tourney Opens at Cincinnati

CINCINNATI, O., July 11.—The fifth annual clay court tennis championship tourney of the United States opened here today with A. Fottrell and Nat Brown, both of California, and J. J. The latter game was in the second round, both Brown and Baker having drawn byes in the opening round. The other matches of the opening round, part of which was played today, were all between local players and are as follows: Middleton De Camp defeated Howard Cordes, 1-6, 7-5, 8-4.

WAR DECLARED ON THE DOGS

Amendment to Present Ordinance Dealing with Canines.

NO MORE RUNNING AT LARGE

Must Be Kept in Confinement Whether Muzzled or Not—Some Councilmen for \$10 License Fee.

City Solicitor Schneider was engaged yesterday in drafting an amendment to the dog license ordinance from which when approved by the council will prohibit dogs running at large and requiring dogs when taken upon the streets to be muzzled. The proposition of limiting the muzzling period to the hot weather months was discussed, but the decision was reached to make it cover every day in the year. The ordinance will be presented at the meeting of the city council next Monday night, and will probably be passed under suspension of the rules.

The ordinance may be further amended, providing for an increase of the amount of the dog tax. Some of the members of the council favor as high as \$10 a year and more stringent penalties for neglecting to pay.

It is asserted there are between 10,000 and 20,000 dogs in Council Bluffs and not 1,000 license tags have been issued in any year. The owners evade payment of the \$1 license now required by many kinds

their probable sequence in order to arrive at a solution of the difficulty. "We have come to the conclusion that Mr. Tuftenes was mistaken if he supposed there was any intention on the part of the Empress to pass port to port, or that it, in fact, by its lights manifested the intention of doing so, but it appears to be a mistake which would have been of no consequence if both ships had subsequently kept their courses.

Fog Envelopes Both.

"Shortly after the ships came into the position of green to green, as claimed by Captain Kendall, or red to red, as claimed by Mr. Tuftenes, the fog shut them out from each other, and it is while they were both enveloped in this fog that the course of one or the other was changed and the collision brought about. Therefore, the question as to who is to blame resolves itself into a simple issue, namely, which ship changed its course during the fog.

There is in our opinion no ground for saying that the course of the Empress of Ireland was ever changed in the sense that the wheel was willfully moved, but as the hearing proceeded another explanation was propounded, namely, that the vessel changed its course, not by reason of any willful alterations of its wheel, but in consequence of some uncontrollable movement.

"This, it was suggested, might have

Christian Science Practitioner Loses Before High Court

NEW YORK, July 11.—Commercialized use of Christian Science teaching was held by the appellate division of the supreme court today to be illegal.

The conviction in a lower court of Willis Vernon Cole, for practicing medicine without a license when he accepted fees for Christian Science treatment, was sustained. The higher court, in its opinion, answered in the negative its premises.

Is the commercialized use of prayer for the avowed purpose of treating all persons seeking cure for all kinds of bodily ills the practice of the religious tenets of a church?

Cole, formerly a sculptor and a poet, testified at his trial that his practice brought him an annual income of \$6,000; that he had never studied medicine; that he never solicited fees, but accepted those offered him.

RESOLUTE IS ELIMINATED

Vanitie Defeats Defiance by Margin of Seconds.

FOURTH RACE CALLED MONDAY

Heavy Fog Obscures Finish of the Contest and Renders Yachts Invisible to the Spectators.

NEWPORT, R. I., July 11.—Better navigation in a thick fog enabled the Vanitie and Defiance completely to eliminate the Resolute in the third trial race called off here today, the Vanitie getting credit for its first victory over the two rivals while the Defiance had the satisfaction of losing only by seconds.

The Resolute, after leading for nearly the entire distance missed the finishing buoy and was searching for it when the two other yachts, sailing a perfect course, captured the principal honors of the day. The Vanitie was three minutes and ten seconds ahead of the Defiance at the finish in elapsed time, but its time allowance cut it to a bare nineteen seconds in corrected time. The fourth race will be sailed Monday.

A heavy fog obscured the finish of the race and rendered the yachts invisible to spectators.

Third trial race by New York Yacht club, sailed off Newport; start 11:45; wind southwest by south, four knots at start, eight knots at finish. Weather hazy at start, thick fog at finish. Course fifteen miles to windward and return. Sea rolling. Tide ebb.

	Start	Finish
Vanitie	11:45:19	4:30:30
Defiance	11:45:56	4:30:28
Resolute	11:47:00	4:31:00
	Elapsed	Corrected
Vanitie	4:30:30	4:30:30
Defiance	4:30:30	4:30:30
Resolute	4:30:30	4:30:30

Vanitie wins by nineteen seconds, corrected time.
