GRAIN AND PRODUCE MARKET

Selling Character of Wheat Better Than That of Buying.

ELEVATOR MEN NOT ALARMED

Both Owners and Farmers in the Spring Wheat Country Not a Bit Anxious as to Possible Losses from Any Cause.

OMAHA, July 18, 1914.

side.

In the spring wheat country the country elevator concerns as well as the farmers do not seem to be alarmed by possible losses from any cause as the receipts at Minneapolis and Iruluth yesterday were 191 cars, against 155 a week ago and 161 a year ago. This freer movement failed to lead one to believe that the holders of the grain in the northwest are at all anxious ever croplosses.

northwest are at all anxious over croplosses.

Corn ruled quite irregular and unsettled. The market was inclined to follow the price changes in wheat, and it was heavy the greater part of the day, but during the latter part it firmed up. September ruled relatively firmer than the December, there being less swilling pressure in the former and possibly more covering by scattered shorts. There were fewer complaints received of drouth as a result of the good rains throughout the corn belt cast of the river.

The decline of 'go in cats showed that market was an independent one, as it refused to follow prices in either wheat or corn. Rains may possibly delay harvesting conditions in some localities.

Hogs were higher at the yards and the run in the west was small. The advance in provisions was led by ribs and pork and the market closed firm. Cash trade in meats was fairly good and there was a commission house demand for September pork. Packers were credited with selling lard and October ribs. Considerable product came out on the market in the way of profit taking.

Wheat unchanged to 'go higher.

Corn unchanged to lower.

Clearances were: Wheat and flour equal to S0,000 hushels; corn, 40,000 hushels; costs, 75,000 hushels.

Elverpool close: Wheat, 'gd to 'gd higher; corn, 'dd to 'lyd higher.

to 502,000 hushels; corn, so,000 hushels, corts, 75,000 hushels.
Liverpool close: Wheat, ½d to ½d higher.
Primary wheat receipts were 2,459,000 hushels, and shipments 1,156,000 hushels and shipments of 1,518,000 hushels and shipments of 500,000 hushels last year.
Primary corn receipts were 422,000 hushels and shipments 556,000 hushels, against receipts of 301,000 hushels and shipments of 87,000 hushels last year.
Primary oats receipts were 615,000 hushels and shipments of 515,000 hushels last year.
CARLOT RECEIPTS.

Primary outs receipts were 68.000 busiles and shopments of 81.000 busiles and shoppents of 81.

48%c. The outcome in provisions ranged from unchanged to a loss of loc.

Doubt whether any further spread of black rust would occur dominated the wheat pit from the start. Some crop experts even ventured the opinion that if atmospheric conditions. atmospheric consilions remains; auspicious, the impairment of the yield of spring wheat taken as a whole, would not prove to be of a perious character. Disappointing cables and liberal acceptance of bids sent from here to the country tended further to descent the country tended to the co try tended further to depress the market Bullish percentages in the Canadian government crop report led only to a slight temporary unturn in which takes The effect was more than offset by the prosaffect was more than offset by the pros-pect of a decided enlargement of the somestic visible supply total on Monday. Corn weakened with wheat and as a result of beneficial rains said to have fallen in parts of Kansas and Oklaborna. Generally cooler temperatures acted also in favor of the bears. A sharp advance at Liverpool due to the belief that the bulk of the outstanding Argentine sur-plus was unnorchantable, had little ef-fect or any influence on prices in Chicago. Fivo movement of the new crop held buyers of oats in check. Provisions opened firm, but developed

Provisions opened firm, but developed weakness before the close. There was considerable realizing by longs. Chicago future prices:

STOCKS AND BONDS.

While there were further advances of istract in the Chicago wheat market yesterday, the buying on a report credited to Dairymple, the "bonanza" wheat farmer of the northwest, the selling was considered of a better character that the buying.

George M. LeCount, who is in the spring wheat country in the interest of Piniey Barrell & Co., wired that house that it would be advisable to act with caution on the more sensational black rust reports sent out of the spring wheat country, as some of them were far from actual conditions existing there.

Many of the reports received from the northwest, and which referred to black rust, said that with a change to favorable weather conditions there is less change for the advancement of the plague. There are fow buying orders, accompanying the black rust reports, which led many in the trade, especially the making new commitments on the buying side.

In the spring wheat country the country the country and the print of the spring wheat country the country and the surface of the surface of the surface of the plague. There are fow buying orders, accompanying the black rust reports, which led many in the trade, especially the making new commitments on the buying side.

CATTLE—The yards were practically bare of cattle today and for the week re-cteipts have been very light. At the same time there has been about the usual de-

day. The early trade was rather dull, as is usual on a down market, but conditions all indicated a weaker trade, and it was not long before quite a number of strings had been cashed in at figures that were just about a nickel lower than yesterday's average. As the forenoon advanced, however, a live killing demand strengthened up the trade, and towards the close quite a number of sales were made that looked fully steady. In fact, there were practically as many hogs soid steady as there were at the earlier prices, and the general market did not look to be over a shade lower.

All the early arrivais had been cleaned up by 9:30 or a little after, and as the

All the early arrivais had been cleaned up by 9:30 or a little after, and as the market had closed lively, and all buyers yeers still in the yards, it looked as though the seventsen cars, which did not get in until hearly 10 o'clock, would sell fully as well as any other time. After the hogs had arrived, however, and it came to a show-down, it developed that only one buyer really wanted the hogs, and as there were only two killers bidding at all, the extreme close was rather a fixtle. That is, a few of the hogs on the fair to good order sold at fully steady prices, but the majority of them looked weak, and some of the more common ones were hard to seil, even at the early morning prices, which were around be lower than yesterday's market. On the whole, the early trade can be quoted as steady to 5c lower than yesterday's average, while the last sales were weak, and as a general thing right at a nickel lower than yesterday. At a late hour there were a few loads left, on which packers were bidding as like lower, and on one or two instances.

At a late hour there were a few loads left, on which packers were bidding no loc lower, and on one or two instances no offers were being made.

Bulk of the sales landed at \$8.70g8.75. With a sprinkling as high as \$8.80, and a few at \$8.50, the top. On the whole, the week's market has been fairly satisfactory to the selling interests, and in splite of today's slight break are 20025c higher than the close of last week. A new top for the year was set this week, the high price going to \$8.90, on two days. No. Av. Sh. Pr. No. Av. Sh. Fr. Av. Sh. Pr. No. Av. Sh. Pr. 301 . 866 87 . . . 309 40 8 1216
