WASHINGTON, July E. - Secretary Bryan, encouraged by his latest dispatch from Special Agent Carothers, today issued this statement

"Carothers, special representative of the State department, telegraphed from El Paso that he considers as unfounded all rumors of another break between Villa and Carranas. Also states border situation is much improved."

A delegate authorized by Provisional President Carbajal to negotiate for terms of peace with General Carranza was due to leave Vera Cruz today for Tampico. Within two or three days an ar-nistics suspending heatilities throughout Mexico is expected. Carranza already has notifled the State department he will agree. Messages from Provisional President

Carbajal to that effect were shown today by his personal representative, Jose Castellot, to Secretary Bryan. Mr. Castellot said the reports from

Mexico City to the effect that an armiatice already had been signed were premature, but with the arrival of the Carbajal delegates at Carranza's headquarters such a truce would be made

Word was received from General Carranza by his agents here that he intended to spend but a few days in Tampico, returning then to Saltillo. He wired that he had ordered General Gonzales and bis forces at San Luis Potosi to proceed at once to Queretaro to form a junction with the forces of General Obregon. No mention was made of orders to Villa, but a brigade has occupied Agua Calientes. Carranza's telegrams spoke of the occupation of that city by constitutionalists, but did not say who was in com-

## FIGHT IN ST. PETERSBURG

Five Workmen Killed 'in Street Clash with Cossacks.

GENERAL STRIKE IS SPREADING

Hundre dand Twenty Thousand Men Are Idle in Capital-Attempt to Destroy the Water Works.

ST. PETERSBURG, July 21-At least five striking workmen were killed and eight seriously wounded during the fighting in the streets of St. Petersburg between strikers and Cossacks, which continued throughout the night and ceased nly at dawn this morning. Three police officials also are known to have been severely injured

The figures quoted are official, but it is generally understood that the casualties as it is thought they concealed a number

of their dead and wounded. Official returns of the number of men who have guit work give the total of 120. 000 in the city itself. These include the street car employes, but do not comprise a large number of skilled laborers in the building and other trades.

Troops Destroy Barricades. Men carrying red flags spent the night marching and singing revolutionary songs in the outlying open spaces of the capital while in the Viborg district they cut down telegraph poles and upset a number of vans, with which they constructed barricades across the streets, from the shelter of which they stoned the police and Cossacks. The mob is also accused of having fired some revolver shots. The strikers, however, eventually dispersed, and the barricades were destroyed, but only after the police and soldiers had been subjected to hot attacks with volleys of atones in four different parts of the city and had fired volleys from their revolvers in return.

At an early hour this morning the strikers attempted to set fire to the Samson bridge leading across the river to the Viborg district, and they also tried to destroy the neighboring water works, but a strong detachment of police arrived in time to prevent it.
