HUERTA GRANTS NOT RECOGNIZED BY REBEL CHIEF

Sale of Lower California Tract for Half Cent an Acre Will Not Stand.
HALF MILLION DOLLARS PAID
Leading Bankers of the World Notified of Decision of General Carranza.
WORK FOR FEDERAL TROOPS
They Will Be Distributed Over Country Repairing Tracks
THIS WILL KEEP THEM APART
Pasqual Orozco Has Abandoned Independent Revolutionary Movement and Will Go to Canada.

TAMPICO, Mex., July 26.—(Via Laredo, Tex., July 27.)—General Carranza today indicated that he will stand by the decree he issued early in the revolution regarding financial transactions made by Huerta. His attention today was called to a report that just before resigning and leaving the country, Huerta received \$500,000 from the Rothschilds, giving in return a grant of a vast area in Lower California at a nominal price of 1 cent an acre. Carranza declared no such grant of public lands would be recognized and recalled that leading bankers of the world had been so notified.

It was reported here today that Sir Christopher Cradock, British admiral, on his visit to Carranza, demanded all concessions made by Huerta to Lord Cowdray and other British citizens, be ratified by constitutionalists, and that Carranza returned a positive refusal.

Foreign consuls paid another visit to Carranza early today, in which a discussion of prospects took place. Carranza told them there should be no apprehension on their part of wholesale reprisals from the constitutionalists on those who aided Huerta.

As fast as the federal soldiers are disarmed, Carranza plans to distribute them throughout the country to repair the railroad tracks. He hopes thus to give employment and also to scatter them so there will be little danger of their mobilization against him, in case of a counter revolution.

Fighting Near Vera Cruz.
VERA CRUZ, July 27.—Reports from various points along the railroad from Vera Cruz to Mexico City indicate that the constitutionalists are not ready to cease fighting. A skirmish occurred at Soledad, where a small federal garrison made a successful resistance.

The federal commander at Orizaba, some distance nearer the capital, refused to grant the demand of a constitutionalist officer that his men be given an hour in which to sack the city in return for placing them under the command of a federal officer. The steamship Buena Vista, with many political refugees from Mexico City, sailed today for Europe by way of New York.

ONE DEATH AND ONE ILLNESS FROM HEAT

Boarding House Roomer Succumbs and Bank Clerk Goes to Hospital for Treatment.
THIRD HOTTEST OF THE SEASON
Monday a Scorching with Temperature in Nineties
NO RELIEF IN SIGHT
Forecaster Walsh Predicts Fair Weather, with No Changes.
HOT IN OTHER PARTS OF STATE
Temperature at Hartington Reaches Hundred and Five Degrees, While Fairbury Is Second in List.

One death and one illness is the casualty record of the heat wave of Sunday and Monday.
Ben Helmstray, 1039 Douglas street, who was stricken with heat prostration Sunday afternoon, died Monday afternoon. He was attended by police surgeons, but his heart weakened and he steadily grew worse till the end. Nothing is known of his relatives. He made his home in lodging houses.

Andrew Nesbit, clerk at the Omaha National bank, was overcome by heat and taken to a local hospital for treatment. The attending physicians do not consider his case serious. Nesbit lives at 312 South Twenty-fifth street.

At 2 yesterday afternoon the official thermometer on the top of the federal building registered 97 degrees, the third highest mark the mercury has reached this year. On two other occasions only did Omaha swelter in higher temperatures this year. On July 11 the thermometer reached 96 degrees and on July 12 it reached 100 degrees.

Forecaster L. A. Walsh predicts that the weather will remain fair with no important change in temperature. He promises no relief from the heat wave despite the fact that there were several showers throughout the state Sunday and Sunday night.

Omaha was far from the hottest point in the state Sunday. In fact it was relatively cool. While the heat and humidity was oppressive the maximum temperature was but 96 degrees, while the maximum average from seventeen government stations out in the state was two degrees higher.

CITY OF DUBLIN IN FERMENT

Night of Excitement Follows Fight with Troops.
FOUR KILLED, MANY WOUNDED
Mob Attacked Soldiers Who Were Returning from Attempt to Seize Arms Landed at Howth—Mob Surrounds Barracks.
BULLETIN.
DUBLIN, July 27.—Serious rioting was begun here tonight. The city is in a state of intense excitement. The authorities fear that it will be necessary to call on the military, which will mean much bloodshed.

DUBLIN, Ireland, July 27.—The city of Dublin and greater part of Catholic Ireland was today in a state of the greatest excitement over yesterday's conflict between the regular troops of the British army and the Irish Nationalists which resulted in the killing of four persons and the wounding of many others, forty of whom were in hospitals today in a serious condition.

Day had dawned before the police succeeded in dispersing the crowds marching through the streets singing patriotic songs and looking for soldiers of the second battalion of the king's own Scottish borderers on whom to inflict vengeance for the fatal events of yesterday when the borderers were ordered out to prevent the landing of arms and ammunition for the Irish Nationalist volunteers.

The crowd, finding that the soldiers had been ordered to remain in barracks, attacked the royal barracks, where the borderers are stationed and clamored for the soldiers to come out. Finally the mob kicked down a gate of the barracks and fired a couple of shots, on which bugles were sounded, the police came on the scene and the crowd was dispersed.

The Nationalist leaders take the most serious view of the affair and will demand reparation from the government. The landing of arms yesterday for the Nationalists was carried out in a more daring manner than similar feats achieved by the Ulster Unionist volunteers as it was effected in daylight. The yacht from which the arms and ammunition were brought ashore already had landed 2,500 rifles and 125,000 rounds of ammunition at isolated points along the coast and these had been successfully distributed by motor cars among the Nationalist volunteers. Yesterday's attempt was undertaken to show that the Nationalists could do what the Ulster Unionists had done.

At Howth, 2,500 rifles and 100,000 rounds of ammunition were landed under the eyes of the police, the telegraph wires having been cut to prevent communication with Dublin. Automobiles carried off 1,500 of the rifles and all the ammunition and a body of Nationalist volunteers then started for Dublin with 1,000 rifles, but no ammunition.

STATE CONVENTIONS TODAY

Republicans and Progressives at Lincoln, and Demos at Columbus.
BULL MOOSER THREATENING
May Embrace National Prohibition in Platform—Equal Suffrage is Expected to Pop Up in Various Camps.

Conventions of the republican, democratic and progressive parties meet today, the first and latter at Lincoln, and the demos at Columbus. Several hundred Omahans will attend the three gatherings as delegates or visitors.

A number went yesterday in autos, or left by train early in the day to be present at preliminary meetings. The main groups of those who will attend the three conventions will go on trains this morning.

Advance reports from Columbus seem to indicate that the early debaters there are all carrying shovels to use in burying their time-worn war hatchets, and that the only difficulty so far lies in the disagreement as to just how said hatchets are to be replaced with olive branches.

Every delegate offers a guaranteed recipe for the much-needed harmony, and insists that every other delegate's recipe won't work, so prospects are good for a hot disagreement over how to get what they all know they lack. They have a caucus scheduled for this morning, when they will try to clear up the difficulties.

Threaten Prohibition.
Bull moosers are threatening to embrace national prohibition as a party plank, while that hobby of the bearded leader of some of the democrats seems to have no following among the latter, since "Wilyum Jennings" moved his grape juice canteen from Lincoln to Washington.

AUSTRIA CHARGES BAD FAITH
Note Says Serbia's Reply is Filled with Spirit of Dishonesty.
CONTAINS MANY RESERVATIONS
Offer to Submit Dispute to Arbitration Held to Show that Serbia Knows Answer is Not Satisfactory.

VIENNA, Austria, July 27.—A communication issued by the Austro-Hungarian foreign office today sets forth the Austrian view of the Serbian reply to Austria's note demanding the cessation of the Pan-Serbian agitation and the punishment of those concerned in the assassination at Sarajevo of Archduke Francis Ferdinand and his consort. The communication also gives the reasons for Austria's dissatisfaction with Serbia's reply. It follows:

"The object of the Serbian note is to create the false impression that the Serbian government is prepared in great measure to comply with our demands.

"As a matter of fact, however, Serbia's note is filled with the spirit of dishonesty, which clearly tells it is not the Serbian government is not seriously determined to put an end to the culpable tolerance it hitherto has extended to intrigues against the Austro-Hungarian monarchy.

EYDTKUNNEN, Germany, July 27.—Shots were fired this morning by a Cossack patrol across the German frontier on the alleged ground that an attempt was being made to cross the border at a wrong place.

Germany says that the group fired on by the Russians were army officers. Much feeling has been caused by the incident.

Communications Proposal.
BERLIN, July 27.—Sir Edward Goschen, British ambassador at Berlin, called at the foreign office today and communicated Great Britain's proposals for mediation.

Germany, it is understood, expressed an unwillingness to offer any suggestions to Austria to abandon or alter its policy toward Serbia.

The hope was expressed that Serbia would be brought to see the advisability of complying with the Austrian demands. At the same time the hope also was expressed at the German foreign office that Austria in this case would pass over the failure of Serbia to make a satisfactory answer last Saturday.

Naturalization Papers Bought and Sold in St. Louis

ST. LOUIS, July 27.—Investigation into an alleged traffic in naturalization papers was begun here today by the board of election commissioners. The inquiry resulted from the affirmation of one Assyrian that he had purchased the naturalization papers of a fellow countryman who had returned to his native land, and the statement by another that it was common practice in the Syrian colony to buy or borrow citizenship papers.

The commissionaries estimated that at least 400 Syrians, most of them employed by the city, were registered under naturalization papers not their own. The traffic, it appears, has been carried on for the double purpose of obtaining municipal jobs for the holders of the papers and rendering them eligible to vote.

Arguments in the Caillaux Murder Case Start Tuesday

PARIS, July 27.—Testimony in the trial of Mme. Henriette Caillaux for the murder of Gaston Calmette, editor of the Figaro, was completed today. Counsel for the prosecution and defense will sum up tomorrow.

While Henri Bernstein, the playwright, was giving his deposition today, the applause and hooting caused such an uproar that Judge Albanel had the court cleared and suspended the sittings. The playwright abandoned all semblance of courtesy, addressing the former premier and husband of the prisoner as "Caillaux," without any prefix.

Villa Will Move His Army Toward Capital

EL PASO, July 27.—Indications today were that General Villa was preparing to move his entire army toward Mexico City, leaving only local garrisons in the territory he dominates. It previously had been understood that the northern constitutionalist leader would participate in the mobilization above the national capital with only 5,000 men.

Reports received at Chihuahua City where Villa is quartered said the eastern and western divisions were mobilizing large numbers of men to the south. This was said to account for Villa's delay in moving south, and the extensive recruiting of men throughout his division. General Angeles, deposed by General Carranza as his war secretary, but now serving with Villa as chief of artillery, was expected here today. His presence on the border was unexplained.

Saving Friction

Any means of saving friction makes for energy and power.
National manufacturers are turning more and more towards newspaper advertising because it eliminates waste motion in distribution.
They find the newspaper not only reaches the consumer but it directly influences the local dealer.
The retailer knows when he sees an advertisement in his home paper that there will be inquiries at his store.
He acts accordingly and all friction is eliminated from the process of distribution.
Manufacturers interested in knowing the most efficient way to use newspapers are invited to address the Bureau of Advertising American Newspaper Publishers Association, World Building, New York.
