

SCHOOL AND COLLEGE WORK

Progress of Booker Washington's Noted Tuskegee Institute.

EXPENSE TALLIES WITH INCOME

Budget of News from State Normal Schools and Other Nearby Points of Learning—Educational Notes.

The report of Booker T. Washington, principal of the Tuskegee Institute of Tuskegee, Ala., for the year ending May 31 has been sent to the trustees of that institute. The report is arranged in an attractive pamphlet.

In his report Washington calls attention to the fact that ever since he adopted the budget system the institute has not only lived within the budget, but has underspent it by \$5314. The expenditure for the year 1912-1913 calls for \$20,000 less than that of last year.

"This result has been brought about by close searching into every corner of the institution, but not without weakening our work in several particulars, and, for the summer at least, embarrassing a number of our teachers," the pamphlet reads: "It is, nevertheless, felt that the net result will be helpful.

It is believed that some portion of this reduction is made possible by reason of our being able to produce on the farm a larger quantity of grain, hay, etc., that we have heretofore had to pay out cash for. The school has grown this year enough oats to feed all the horses and mules used in connection with our operations. As stated in a former report, it seems wise to pursue the policy of increasing income for current expenses, and reducing operating expenses until the one is able to take care of the other."

In speaking of the year's enrollment it is stated that during the last year 1,618 men and women from thirty-three states and sixteen foreign countries have been in attendance. "We have also had an enrollment at the children's house, or training school, of 219 pupils, and an enrollment last summer of 300 teachers in the summer school for teachers. Besides that we have had an average attendance of 352 persons in the winter farmer's short course. Leaving out the short course students we have had a total attendance of 2,187 men, women and children, whom we have instructed and helped."

The financial report shows a deficiency of \$18,996.34, owing, according to the pamphlet, to lack of income for current expenses and for new buildings and equipment. The institute has received many gifts from negroes. One legacy of \$10,000 from the estate of Mr. Ann Maria Fisher of Brooklyn, N. Y., is the largest single negro donation.

During the last year \$2,544 has been contributed by negroes to the college. Several of them were for \$100 each. Others were for \$50, \$25, \$20 and \$5, with the majority of the offerings \$1. This list includes negroes from thirty-seven states, the District of Columbia and the Philippine Islands.

FREMONT COLLEGE.

Class Activities in the Various Departments.

President Clemmons was called to address the Commercial club at Arlington last Tuesday evening. The occasion being the annual club banquet.

The debaters of the various sections, which convene every Saturday morning, grow more eloquent and logical as the year advances. Live issues constitute their themes and much time is given to research; also the parliamentary law class is one of most practical value and always popular in attendance.

Miss Eva Mixer, supervisor of the training department of the college, will give a paper at the primary section of the State Teachers' association which convenes in Omaha November 5, 6 and 7. Her subject will be the "Montessori system" which she will illustrate with the Montessori equipment.

Dr. F. M. Slason lectured at the Star Literary last Saturday evening. He chose for his subject "Between the Plow Handles," which was an appeal for hard work along lines in which one would succeed.

New students are entering the commercial department each week and the old students are putting practical inspiration in their work. At the business meeting last week it was voted to put the business magazine "system" in the library. A number of students in this department, realizing the need of clear cut expression in business, have added to their course by entering the elocutionary department and many of their faces are in the front ranks of the Oratorical club. Mr. Joseph Grady of Spalding and Mr. Leo Fanning of Mitchem are among the new ones entering the department.

The pharmacy department is the largest in the history of the school. Mr. H. F. Brandt has been elected class president and the demonstration last Wednesday morning was of an unusual high order. The address by the president was full of inspiration as was also that of Mr. Carl Garrett. The male quartet, which is always a signal for applause, furnished some splendid music, while the orchestra under the direction of Mr. J. W. Swihart did itself proud.

A number of the faculty and students will attend some of the meetings at the State Teachers' association, which convenes in Omaha November 5, 6 and 7.

PERU STATE NORMAL.

Kindergarten Students Take Practical Lessons in Butter Making.

A fall bulletin of the school has just been completed. It emphasizes more especially the industrial courses of the school.

A special rapid calculation class has been organized by Prof. Howie.

The German class has recently been supplied with the new German composition book by Paul Bacon. Mr. Bacon has been in Germany for the last two years, working on it.

President D. W. Hayes was invited to give a lecture before the Saunders county teachers at Wahoo last Saturday. While there he was the guest of Superintendent and Mrs. Walton. Prof. Walton formerly taught under Mr. Hayes in the Alliance Junior normal.

The kindergarten pupils under the superintendence of Miss Lou Hosmer last week went through all the processes of making butter. The little fellows brought milk and after the cream had raked went through the processes of skimming and churning. They later took a trip to the nearby dairy, where they talked of and observed cows, calves,

barns, hay and farm life in general. Later they sang milkmaid songs and represented other farm life by means of motion drills.

The Lincoln-Peru club was entertained at the state farm last Saturday by Miss Loomis, who is head of the domestic economy department of the state university. Miss Loomis is a graduate of the normal class of 1906.

CHADRON STATE NORMAL.

Members of State Board Supervise Work on New Descriptive.

Colonel Majors, Mr. Tooley and Mr. Caviness visited Chadron State Normal school on Monday when they supervised the beginning of the work of the dormitory, visited classes and attended chapel. The faculty and students were favored by talks from the visitors at the chapel exercises, wherein each gentleman expressed his interest in the growth and development of the school and his pleasure in the work being accomplished now with inadequate building and equipment.

Prof. Paul R. Beeler of the University of Florida, new athletic coach, arrived Wednesday morning, coming direct from the university, where he has been assistant coach of the foot ball team and of other field athletics.

The regular meeting of der Verein Germania was held Tuesday afternoon in the class room of the sponsor, Miss Steckelberg. Plans were discussed for the work of the year. It was decided that the members should converse in German at the meetings of the club and conduct all exercises in that language. The following officers were elected for the year: Keith Lemington, president; Jessie Washburn, vice president; Katherine Wresenbeck, secretary; Wesley Sparks, treasurer. Last Saturday the faculty of the State Normal school were delightfully entertained by Mr. and Mrs. Hays at their home in Crawford. In the afternoon the Commercial club took the whole party out to Fort Robinson in automobiles. Here they were shown around through the barracks and stables by Colonel Stickle.

WAYNE STATE NORMAL.

Plans for New Central Building Are Nearly Completed.

Miss Belle McGee has been enjoying a visit from her father, I. L. McGee of Farley, Ia.

Architect J. H. Craddock of Omaha will be in Wayne on Monday, October 13, in order to complete plans for the new central building.

A good attendance and a good program are reported of the meeting of the Crescent Literary society, held in the chapel last Friday evening.

New registrations this week are: Della R. Abbott, Crawford; Thos. A. Anderson, Niobrara; Lottie M. Pichel, Niobrara.

Friends at the Normal have received invitations to the marriage of two former students of the school, John Thome and Miss Katherine Bonertz of Hartington, Neb.

Unusual interest is being shown in the chorus work under the direction of Prof. Coleman. A cantata, entitled, "The Rosemaiden," by Cowen, will be rendered in the near future.

A game of foot ball between the Normal and Sioux City High school is scheduled to take place next Saturday on the Normal gridiron. This will be the first game of the season played on the Wayne field.

KEARNEY STATE NORMAL.

Activities of Class Organizations Bear Fruit.

Considerable activity is manifested on the part of the students relative to the various organizations. On Wednesday afternoon the Latin club, under the direction of Miss Gardner, gave a reception to the new members of the club. The dramatic, under the direction of Miss Bothwell, gave a reception to the new members of this club in the evening. Refreshments were served on these occasions. The clubs are well patronized this year.

Mr. Bush, conference evangelist of the Methodist church, was a pleasant caller Wednesday morning and gave a very

interesting address to the students at convocation.

The Young Men's Christian association abandoned its afternoon meeting on Thursday and gave a feed in the evening. A large number of men were present and Prof. Neale gave one of his interesting talks.

Considerable activity is manifested by the Young Women's Christian association in the matter of Bible mission study. Several classes are already organized and in operation. Miss Stanley has a class in the study of missions in China. Miss Jennings has a class in mission study in South America. Prof. Anderson has regular Bible study one evening each week.

President Thomas will deliver an address on "Citizenship" at the state Christian Endeavor convention, Sunday, October 20.

HASTINGS COLLEGE.

Contributions to the Museum Being Put in Place.

Prof. Kent continues to be busy arranging the museum collection that continues to arrive. The college was fortunate in being able last spring to secure for a term of years the Brooking collection of natural science specimens and now have it installed in the basement of the Science building, where it is on exhibition to the public and available to our students for study purposes. This collection numbers hundreds of specimens from all parts of the globe and consists of Indian relics, crania, fossils, petrifactions, minerals, corals, sea shells, birds' eggs and nests and mounted specimens of birds, animals and reptiles. It is especially complete in relics of the mound builders, cliff dwellers and ancient Indian tribes, most of which have been obtained by Mr. Brooking by personal exploration.

Our faculty have been taking turns leading chapel. Profs. Cunningham, Ferguson, Fisher and Kent have recently led. Prof. Fuhr gave a couple of musical selections which were much appreciated.

The Young Men's Christian association had an unusually good meeting Thursday led by one of our new students, G. W. Rosenlof.

Roland Scott, who was tutored in a practice game of foot ball some time since, is getting along very well and is in his classes again.

Prof. Fuhr, director of the college conservatory of music, is organizing a large chorus choir. He will have entire charge of the music of the Methodist church this year and will use the chorus choir in the evening. He is planning to give several cantatas.

Mrs. Logsdon, dean of women of the college, has organized the classes in physical culture for women. These meet twice a week at present.

DOANE COLLEGE.

The students of Doane college have elected Charles Ashton Love, Jr., as yell leader for the coming season. Ash is especially suited for this position. He has plenty of go and will make an ideal leader. He called his first meeting Monday evening in the college, to work up a spirit to go with the team on their trip to Omaha Saturday. He also has been having small meetings in the parlors at Gaylord hall. It is reported that he also will have a large band to attend all games on the home field.

The Gaylord hall girls were at home to the delegates attending the missionary convention held at Crete during the week. The women were transported from the church to the college library in automobiles, from which they were shown about the college campus and then to Gaylord hall, where they were served to punch and afterwards taken back to the church.

The Doane Debating association met Thursday and voted to accept the question, proposed by Cotner for the triangular debate which occurs early in the winter.

EDUCATIONAL NOTES.

It is interesting to note that all the large universities report record-breaking enrollments of students. Columbia has over 10,000, Cornell 5,000, Penn over 5,000 and Harvard, Yale, Princeton and others very large classes.

Dr. Josef Schumpeter, LL. D., professor of political economy in the University of

Mother! the Child Is Costive, Bilious

Don't hesitate! A laxative is necessary if tongue is coated, breath bad or stomach sour.

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look! Mother! see if tongue is coated. This is a sure sign that it's little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomachache, diarrhoea, sore throat, full of cold, give teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without crying, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 25-cent bottle of "California Syrup of Figs;" then see that it is made by the "California Fig Syrup Company." Don't be fooled!

Chambers' Academy of Dancing will open season 1913-14 for lessons and classwork, October 7th, 1913.

Applications for enrollment in classes can be made now by calling D-1871. New entrance on 25th Street. Roller Skating will begin October 14th. Entrance on Farnam Street.

Gras, Austria, has been named as the Austrian exchange professor for the winter semester of 1913-14 at Columbia university. He is a graduate of the University of Vienna in 1908.

Boys in a fresh air school in Buffalo, N. Y., prune the orchard trees on the school grounds, grow catalpa trees for future transplanting, study bird whistles and notes as they hear them in the orchard and incidentally acquire a valuable insight into the main principles of forestry.

To what extent public school teaching has been turned over to women, is illustrated by the fact that at the normal school in Washington, D. C., for the first time in ten years a boy has been enrolled. The last one who graduated in 1903, revolted and joined the army, in which he is now a lieutenant.

Mrs. Ella Piagg Young has not impaired her popularity by declaring that Chicago school teachers have become the best dressed teachers in the country. It is entirely due, she says, to the study of art in the schools, and the effect upon the school children and their parents is also marked; the impossible color combinations formerly common are disappearing.

TRAVELERS TO ENTERTAIN NATIONAL DIRECTORS

The Travelers' Protective association will entertain the national officers at Omaha Monday evening, November 13, at the Paxton hotel. National Directors W. O. Hudson of New Orleans and J. J. Morarty of Quincy, Ill., and George E. Beegerow of Omaha, also T. E. Logan, national secretary and treasurer, of St. Louis, all will spend Monday and Tuesday in Omaha in a membership campaign. Wednesday and Thursday they will go to Lincoln and Friday will be spent at Grand Island, while they will also spend Saturday at Hastings, helping the local post there in a campaign for new membership. The reception will be held at the Paxton hotel at 8 o'clock by Post A. of Omaha. All traveling men in the city have been invited.

A Bloody Affair is lung hemorrhage. Stop it, and cure weak lungs, coughs and colds, with Dr. King's New Discovery. 50c and \$1.00. For sale by your druggist.—Advertisement.

If Coffee Don't Agree Use POSTUM

A prominent Philadelphia physician says:
"If, on discontinuing coffee, you feel tired, languid, and 'out of sorts,' the coffee had better be forever discontinued, for you are on the verge of inebrity."

Thousands of people have taken warning and proved that coffee was the cause of their headaches, biliousness and nervousness.

A great many former coffee drinkers, feeling the need of a hot drink with meals, now use

POSTUM

A rich, nourishing food-drink, with a delightful flavour much resembling high-grade Java. Postum is made from prime whole wheat, and a small percent of New Orleans molasses. Contains no caffeine or any other drug.

Postum comes in two forms.

Regular Postum requires fifteen to twenty minutes boiling to bring out the rich flavour and food value.

Instant Postum requires no boiling, but is made instantly by stirring a teaspoonful of the soluble powder in a cup of hot water and adding cream and sugar to taste.

Drink it instead of Coffee.
