

MEN PRIME NEED OF CHURCH

So Asserts J. E. McAfee at the Presbyterian Synod. MODERATOR STONE'S ADDRESS Man Whose Election at Atlanta Was a Rebuke to Ecclesiastical Politics Makes the Key Address.

MODERATOR OF PRESBYTERIAN ASSEMBLY IN OMAHA.

JOHN TIMOTHY STONE.

Joseph Ernest McAfee of New York, secretary of the home mission board of the Presbyterian church, told the synod of Nebraska at North church that there were today 2,000 of the 3,000 churches of this denomination in America without pastors and that 2,500 of them stand with closed doors on a given Sunday. "The prime need is for men," he declared. He said the leadership in the home mission churches was deficient as leadership, though personal qualities were high. He attributed this deficiency largely to the transitory character of the pastorate. The average home mission pastor, he said, was less than two years. He told of a home missionary who had been on his field seven years and was the senior pastor there, where the personnel of pastorate had undergone four changes in his period. "Last year," said Mr. McAfee, "we lost by death and other causes 27 Presbyterian preachers. We ordained 25 to take their places, and so it goes. I say the crying need is for men to man the church of Christ and push forward under efficient and large leadership this great enterprise of home missions."

"Church on its job," was a slogan Mr. McAfee said had been adopted by the forward home mission agencies. Unity of action, both as to spirit and execution, was the impelling force. And the need next to that of men, he said, was organization.

Mr. McAfee's address followed the report of Rev. Nathaniel McMillin, chairman of the committee of home missions and Sabbath school work in Nebraska, which both showed was a leader among the states. The New York man highly commended the report and work here. Rev. W. H. Kearns, synodical superintendent, and Rev. R. H. Houseman, educational superintendent, also made important reports that evoked flattering comments. Nebraska's Leader. Dr. McMillin's report showed Nebraska gaining ground in all its missionary agencies and that it devotes more money per child for Sunday school work than any other state. It recommended a sweeping evangelistic campaign this autumn and winter throughout the state. The chief feature of this report was to recommend a continuance of the home mission policies pursued in Nebraska under the present regime and also the continuance of the field leadership of Rev. W. H. Kearns. The synod now has that report, which, with the matter of synodical college, form the crux of interest in this session. Both are on the docket for disposition this afternoon. It was freely predicted that the opposition to the home mission policy would not be vigorous, but that the college question would entail a sharp contest. Bellevue's friends are extremely anxious for equal recognition with Hastings.

Moderator Stone Talks. Dr. John Timothy Stone, moderator of the general assembly, addressed the synod last night. He is making the rounds of several western synods. Dr. Stone is pastor of the large Fourth Presbyterian church of Chicago, a young, vigorous man of magnetic force, who goes by the title of "a man's man." His election as moderator at Atlanta last May, it is recalled, was spontaneous, and after the pews were set for one of four other men. Without Dr. Stone's knowledge, a protest against "ecclesiastical politics" arose and culminated in his nomination. He protested, but was elected.

If Backache or Kidneys Bother

East less meat, also take glass of Salts before eating breakfast.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, arch, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, distension, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. East less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it is no longer a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble. -Advertisement.

Adams Succeeds McBride as Surveyor

Louis E. Adams, deputy county surveyor in the office of the late George McBride, has been selected to succeed Mr. McBride as county surveyor by the Board of County Commissioners. An informal decision made by the members of the board will be confirmed by the appointment of Mr. Adams Saturday. The new county surveyor will serve the unexpired portion of Mr. McBride's term, which, by the elimination of an election this fall was lengthened one year from the present date. Mr. Adams has borne a considerable part of the work of the office recently on account of the illness of Mr. McBride and it was partly owing to a desire to pay Mr. McBride the compliment of continuing his methods of administration of the office that the board promptly named Mr. Adams to succeed his chief, although claims of a number of other candidates were urged by their friends. Mr. Adams is an Omaha boy who has made good, having lived in this city nearly all his life. His home is at 339 Seward street. No announcement, has been made as to who will be deputy surveyor.

Hastings President and Alumni Meet

President R. B. Cronk and twenty alumni of Hastings college, who are attending the Presbyterian synod in Omaha, met at a dinner at the Young Men's Christian association and laid plans for a big homecoming at the college next spring. "We are rapidly going forward at Hastings," said President Cronk, "and are now turning our minds to the important matter of deepening the college spirit—the alma mater feeling—among our former students and alumni. We expect a good time next spring and other good times growing out of it." Dr. Cronk said completion of a new \$200,000 endowment fund and the net increase of 40 per cent in student enrollment were big incentives to interest among all friends of the college.

BELLEVUE Y. M. C. A. SELECTS SPEAKERS FOR ITS COURSE

One of the important factors in student life at Bellevue college is the Young Men's Christian association. It is a local chapter of the national organization, affiliated with it in all things. However, it is conducted entirely by the students, bringing the Christian idea of living more forcibly to them than would be possible in any other way. The speakers chosen by the cabinet for the fall term are as follows: September 18, Raymond Jones; September 25, Coach Throw; October 2, Denton Cleveland; October 9, Orrie Webb; October 16, conference report; October 23, Dr. Stookey; November 6, Otto Brandt; November 13, Mr. Orchard of the Council Bluffs Nonpariel; November 20, Paul Ohman.

BELLEVUE GIRLS NOW HAVE SPINSTERS' CLUB

A new organization has been started at Bellevue college which has caused much comment about the hill. It is a society among young ladies of Fontenelle hall, designated as the spinsters' club. The requirements for admission are that the applicant must be unmarried, but must have had at least one bona fide proposal of marriage. The membership has not been disclosed as yet, and great curiosity is shown by the uninitiated, the boys especially. It is supposed to be an outgrowth of a Rotation club started some time ago by the boys.

Fixing the Blame. "Auntie, what's the matter with a young girl were you very pretty?" "Yes, my child, very pretty." "Were you popular?" "Oh, yes, very popular. I was the belle of the neighborhood." "Didn't any young men ever come to call on you?" "Oh, yes, my dear, lots of them." "Then, Auntie, why is it that you never married?" "Nobody ever proposed to me, my dear." "Why not?" "I don't know, but I've often thought it must have been the high coat of living that scared the young men off in those days." -Detroit Free Press.

Sensational Clothing Purchase

Bringing the Year's Biggest Clothing Values to You at the Very Beginning of the Season Entire Surplus Stock of Levi & Markowitz, Manufacturers, 720 Broadway, New York

It would be absolutely impossible for any store buyer to go into regular market and buy clothes of this quality to sell at the prices we offer them to you Saturday. We secured them at a big concession because the maker was anxious to sell at once. The difference in price is all in YOUR favor.

Many a man who feels that he does not want to spend very much for a suit or overcoat, hesitates at buying when he takes a look at the "cheap" garments. That is where this sale is different. There is nothing below standard about these clothes but the prices. They look well, feel well and wear well!

If You Are Interested In a Saving of From \$2.50 to \$10.00 On Your Overcoat or Suit—Attend This Sale

DIETZ REFUSES TO SELL OUT

This May Force an Issue as to the Water Board's Power.
HOWELL WOULD FORCE SALE
Has Had Appraisers Fix Value, but Dietz Has an Offer of \$700 More an Acre—Dietz Says He Will Fight in Court.

By refusing to sell a section of the old Griffin farm at Forty-second and Grover streets to the metropolitan water district for a reservoir site Gould Dietz has challenged General Manager R. Beecher Howell to a test of the water board's power of eminent domain, a question which would ultimately involve the constitutionality of the metropolitan water district law. General Manager Howell had his appraisers fix a value on the property at Forty-second and Grover streets. Basing his proposal on the report of these appraisers Howell made an offer to Dietz, ignoring the fact that C. N. Dietz has proposed to purchase the property at a price \$700 an acre above Howell's figure. Dietz told the general manager he would not sell at any price. This reservoir would be located in the middle of the Dietz land, and Dietz says he not only does not desire a reservoir there, but has no inclination to sell his property. He told the water board boss

ACTED BEYOND AUTHORITY

So Declares Judge Baker in Reference to Judge Foster.
SHOULD ACT WITHIN THE LAW
Police Department Objects to Manner in Which Prisoners Are Treated While Waiting a Chance to Appeal.
City Corporation Counsel Ben S. Baker, in a written opinion submitted to Chief of Police Henry W. Dunn today, holds that Police Judge Charles Foster acted without legal authority when he instructed a police sergeant to incarcerate Edward Bexton, a druggist, in the "bull pen" at the city jail pending the preparation of an appeal bond.

COAL DRIVER INJURED AND HORSE KILLED BY BOX CAR

Joe Byrnes, coal driver for A. L. Bergquist, 2517 Q street, was injured about the back Thursday afternoon at Twenty-seventh and L streets as the result of a collision with a box car. Byrnes was backing his team out of the coal yard when the box car is said to have come flying down the track, killing one of the horses and throwing the driver to the ground. Byrnes was sent home. Cascarets make you feel buoy; they immediately cleanse and sweeten the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and

BEYOND JAIL

Informing the judge declared that the appearance bond held good until commitment was issued. The appeal bond would have been prepared before such commitment was issued, the latter usually being issued after court adjourns. Chief Dunn said: "This department does not want to get into any row with the police judge, but it is time we had some assurance that respectable and established citizens would be given the privilege to which they are entitled by law. Bexton was convicted of selling cocaine. Whether he sold it or not he was ready to give bond and there was no just reason why he should have

MIGHT HAVE BEEN WORSE

A young woman from the west was making a visit to an old resort town. One morning while driving with her host she said: "What is the diet of all these people?" "Fish, mostly," responded the man. "Why," spoke the waterer, "I thought fish was a brain food. These are really the most unintelligent looking people I ever saw." "Well," replied the host, "just think of what they would look like if they didn't eat fish!"—Harper's Weekly.
