Banquet for Metcalf on Monday Evening

All of the arrangements for the ban-quet to be tendered Thomas D. Metsalf, president of the Commercial club, on Monday evening have been completed, and a brilliant gathering of somewhere between sixty and 100 of the business and professional men of the city will be present.

Mr. Metcalf will make a detailed repart of his observations and perhaps some of his experiences during his recent tours through Europe as a member of the party of American business men who sought the opportunity to secure better knowledge of old world business methods by getting first hand information.

Mr. Metcalf wrote a number of letters from abroad, and his verbal account of his trip is experted to be even more entertaining. The banquet will be apread at the Grand hotel. More than sixty reservations at the tables have already been listed by Secretary Mitchell of the Commercial club and the belief is that the number will reach at least 100. It is the wish of the club that the largest possible number of the members hear Mr. Matcalf's talk, confident that it will only be interesting and instructive. will arouse deeper interest in the work of the club during the winter sea-

Beautiful New Auburn Now on Exhibit Here

Come See 1914's Startling Motor Car Value — It Is on Display Now. Each Year Some Manufacturer Brings Out the "Season's Best Buy"—a New Advance-ment in Value Giving. He Sets the Pace by Producing a New Value-Standard. Buyers Who Overlook the Year's Value - Sensation Do Not Get All That Their Money Can Purchase. So Do Not Buy Any Automobile Without First Inspecting This.

COR NOW we present 1914's new standard of motor car value—a large, beautiful, superbly finished automobile of 120-inch wheel base. It has all the roominess of high priced cars. It is fully equipped with every comfort, convenience and feature motorists can want.

You can buy no more brilliant beauty in any car. For our body design constitutes the blended lines adopted by two famous European cars for 1914. Men were sent to study styles. And in this car they offer the latest

Is not this 1914 s biggest surprise in walues?

Observe This

Striking Beauty

NOTE, in this new car, the handsome sweep of the "stream" lines. Note how they slope from the radiator to the back of the car. See the graceful sweep of the cowl, how it rakishly slants from the hood to the base of the windshield. Please observe also how the flush sides and broad back of the car emphasize its general distinctiveness.

All this is the very latest in design. Europe has always dictated motor car styles. America, usually two years afterward, has invari-ably followed. But in the new Auburn "40" we present the accepted European vogue of aday. That is one reason this is 1914's start-ling motor car value.

2559 Farnam Street

Left Drive **Center Control**

THE left hand drive gives the convenience of alighting direct onto the curb. It is unnecessary to face oncoming cars in stepping into the street when alighting. Center control, with the levers out of the way, is another 1914 Auburn feature.

Electrically Self-Cranking

Electric Lighted

AT no extra cost the new Auburn "40" is electrically self-cranked ; it is electric lighted. It is also equipped with an electric horn. Our electric self-cranking system spins the motor. That ends a motor car fault, that of revolving the motor too slowly to secure combustion

Fully Equipped-No Extras To Buy

THERE have been big-value cars that I need extras to complete them. With the New Auburn "40" there is nothing you could buy to more completely equip it.

AUBURN AUTO CO., "OMAHA"

Omaha, Neb.

W. T. HAUSE and C. O. WILSON

DISTRIBUTORS FOR NEBRASKA AND MONTANA- AGENTS WANTED.

Note some of the other costly features we include in this big car:

Rain Vision Ventilating Windshield 36x4 Tires; Demountable Rims Full Floating Rear Axle Cowi Dash

Cowi Dash Turkish Type Upholstery — Finest of Leathers Wide Doers (with Concealed Hinges) as on 1914 European Cars Dustproof En Bloc T Head Motor Extra Roomy Tonneau — 29 Inches Foot Room Tire Irons with Extra Demountable Rim

This is the Auburn Automobile Company's 14th successful year manufacturing automobiles. They have never created an unsuccessful model.

Now On Exhibit

COME see these two cars at our showrooms. The visit will show you the startling motor car value of 1914. Then gauge all cars you are considering by this new standard of value.

Models. "40" - 5-passenger, \$1496; 6-passenger, \$1590; "45"---(6 - cylinder) 5 - passenger, \$2000; 6-passenger, \$2100 (all fully equipped).
