Dry Cleaning Adds Life To Soiled Clothes

More clothes are worn out by SOIL than by WEAR.

Dirt, grease and germs, if allowed to remain in your garments will soon rot the fibre and you wonder why they wear out so quickly.

Dry cleaning removes it all from the sheerest silk dress to the heaviest overcoat without the least injury to fibre, color or trimming.

Every garment that is properly dry cleaned and pressed will wear enough longer to more than pay for the cleaning. Hundreds of people in Omaha and vicinity have proven this to be true and now send their clothes to the cleaner as regularly as they send out their laundry. With the largest and best equipped plant in the state, and sixteen years experience back of us we should do good work. We think we do. Try us.
