DAWSON, N. M., Oct. 24 .- The first government rescue car reached here shortly after 8 o'clock this morning. The crews were hurriedly equipped with helmets and sent into Stag Canon mine No. 2 in search of helmet men James Lurdi and William Polsa, believed to have been killed by polsonous gases, after an accident that caused them to remove their

After a considerable time under ground the crew had been unable to reach the eighteenth chamber.

Because of the increasing presence of the government rescuers, confident that no more men are alive, have changed their method of attack and devoted their entire energies to directing air currents

to drive out the polsonous gases. The probable death list, with the fatal accident to the two helmet men, was increased to 263 today and at noon the number of men rescued alive remained at twenty-three.

This action confused their rescuers, who, frightened by the continued fall of debris and hampered by their thirty-eight pound equipment, also tractor. derked off their beimets and ran into the entry off the eighteenth room. There they were overcome by poisonous gases, but members of the other divisions of the crew finally brought them to the surface alive. Walter Kerr, one of the rescued men, had not recovered consciousness several hours later, but Roy Simpleman, his companion, told of the harrowing experlences which, in the opinion of rescue leaders, probably caused the death of

This probable fatality and the terrors of the face of the mine, which is so thickly infested with poisonous gases so affected the helmet men that J. C. a central bank under government control, was reported today to have the endoreament of three democratio senators and five republicans, a majority of the enate committee.

Senator Reed, one of the democrats reported in favor of the Vanderlip plan, sought a conference with President Wilson on the subject.

The president's position is that the Vanderlip plan is a radical departure from the regional reserve system of banks proposed in the house bill and he expressed his intention to oppose any such measure.

Committee Resumes Work With the government central plan proposed by Frank A. Vanderilp. available as an amendment to the administration bill, the senate banking committee hurried along its hearings today. expecting to formally end examination of witnesses tomorrow.

The committee will begin the consideration of the bill in executive session Monday.

H. Parker Willis of New York, who acted as export for the house committee in the preparation of the administration bill, was the principal witness today." He defended the measure generally.

The committee will consider in execu tive session hundreds of changes proposed, many of a material nature.
