

RESCUED FROM WHIRLPOOL

Detroit Man in Motor Boat Caught Below Niagara Falls.

HELD IN VORTEX FOUR HOURS

Makes Trip Through Rapids from Canadian Side to Furnish Subject for Moving Picture Film.

NIAGARA FALLS, N. Y., Oct. 24.—Peter W. Langard of Detroit was rescued tonight after having been four hours in the grasp of the whirlpool below Niagara Falls in a small motorboat.

Langard made the trip through the whirlpool rapids from the Maid of the Mist landing on the Canadian side to the whirlpool to furnish a subject for a moving picture film. The trip had been made several times before without mishap.

Langard navigated the rapids safely, but when he swung into the whirlpool driftwood clogged the propeller of his boat and he was powerless to bring the craft out of the vortex.

For nearly three hours he endeavored to clear the propeller by leaning over the stern of the boat. The prow of the little craft was sucked down into the whirling waters and the stern was lifted high into the air. To the hundreds that lined both shores at dusk it seemed that Langard must lose his life. When darkness closed in over the gorge headlights were taken from trolley cars along the Canadian side and in their glare the crowds watched Langard's fight for life.

Shortly before 8 o'clock Fred Preston of Niagara Falls, Ont., volunteered to swim out with a life line attached to his waist. Langard, by this time exhausted, lay still in the bottom of the boat, which bobbed around in the vortex like a cork.

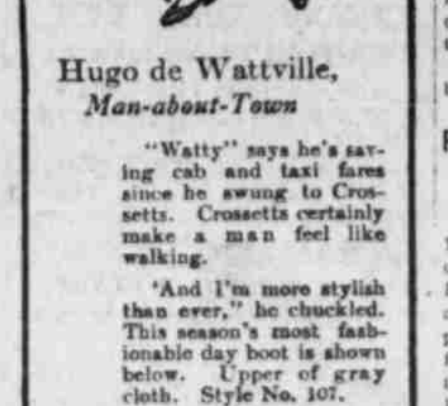

Half way out Preston's life line became entangled in driftwood and he was compelled to return to shore. On the second attempt he reached the side of the boat. He was afraid to climb into the craft, which was half filled with water. Clinging to the side of the boat he called out to the rescuers on shore to pull. The boat finally was maneuvered out of the danger zone and slowly drawn ashore.

Widow Gets Large Verdict in Court. (From a Staff Correspondent.) LINCOLN, Oct. 24.—(Special)—The second case tried in this state under the law which regulates the manner of providing safety appliances for locomotives has just been concluded in the district court of Lancaster county, resulting in a judgment for the plaintiff in the sum of \$30,000. The case arose in which Ella Huxol, administratrix of the estate of her husband, Fred Huxol, sued the Union Pacific Railroad company for the death of her husband, which occurred January 1, 1911. Huxol was an engineer in the employ of the company and in crossing the switching yards of the company during a storm one night was struck by a switch engine and killed. He was on his way to take charge of his engine and it is claimed that the switch engine was not provided with proper appliances for warning the engineer of its approach, as called for by the federal law. The case was tried before Judge James Crograve and has occupied ten days, being the most bitterly fought of any case in the same court for many years. Senator Walter Hoagland of North Platte, W. B. O'Connell of Lincoln and Hallock Hove of Omaha appeared for the prosecution, while the railroad company was represented by Edson Rich, Ed C. Brode of Lincoln, W. F. Miles of Sidney and Attorney Scandrett of Omaha. Speeders Arrested. PLATTSMOUTH, Neb., Oct. 24.—(Special)—The county attorney has taken steps to have the speed law of the state enforced in this county by filing a complaint in court against Earl Vial and John Hansen of Nebraska for speeding with their motorcycles.
