

WANT ARCHITECTS LICENSED

State Association of Iowa Goes on Record in This Regard.

FARMERS PURSUE THIEVES

Quickly Form posse and surround. Harness Sneaks in Des Moines, Making Capture After Gun Play.

(From a Staff Correspondent.)

DES MOINES, Oct. 24.—(Special Telegram)—Iowa architects, in session today, are in favor of legislation requiring architects to secure a license before a state board after examination. The matter has been discussed for years and it is expected a bill for a board of that kind will be introduced.

Harness Thieves Taken.

A posse of farmers, members of the Mutual Protective association having headquarters in the country east of this city, followed two men into the city today and captured them after a hot gun play, and they will be tried for theft of a harness from a farmer. Within a few minutes after the theft was discovered the farmers in the association were all notified by telephone and they formed a posse which followed tracks of the men into the city and they were surrounded in a barn. They broke away, but after an exchange of shots gave up.

Meeting of Railway Commissioners.

Members of the Iowa Railway commission are preparing to go to Washington next week to attend the national convention of commissioners. Chairman Clifford Thorne of Iowa is vice president of the organization and chairman of an important committee to make a report on the leading matters to be considered in that of the work on the valuation of railroad property under the direction of the Interstate Commerce commission. Western people interested in the valuation matter say they are well pleased with the fact that Judge Prouty is to become head of the valuation board.

Utility Questions in City Politics.

Two public utility questions have suddenly been forced into city politics. The refusal of the street car owners to consider in any way the tentative franchise prepared by the city administration forces the street car question into the campaign for election of members next year. It is believed the street car company has deliberately chosen to do this rather than accept a franchise which gives the city some control over the operation of the line and a limit on the profits. The city water works issue is also in politics and the city council is now figuring on a date for a special election to determine whether or not the bonds shall be issued for the purpose of the same.

Attorney General is Interested.

Attorney General Conson has been taking a hand in the investigation of the alleged trust of plumbers in Iowa and will send his assistant, H. E. Sampson, to Sioux City to take a hand in the case there. The federal grand jury has taken action looking to a breaking up of the trust and the state authorities have been at work on the same task. It is expected that there will be a thorough airing of this and some other trusts in Iowa.

Candidates for State Auditor.

A big flock of candidates for the republican nomination for state auditor has appeared on the horizon, including the following: Joe F. Wall, Ringold county; Joseph Byrnes, Blackhawk county; C. Bailey Ellis, Monona county; Frank R. Shaw, Polk county; F. M. Hopkins, Guthrie county; F. F. Jones, Mills county, and Frank R. Shaw, Tama county. Byrnes, Wall and Ellis are all now employees of the office of state auditor.

Cent Upholds One Law.

The supreme court today upheld the law in regard to indeterminate sentences. One William McKinnon, a convict at Fort Madison, had been committed until lawfully released. He claims he should have been given a definite term, as in this form the parole board has no authority and the governor cannot interfere, but the supreme court holds that the parole board has authority over his case.

Many Decisions Filed.

The supreme court today filed forty-three opinions, the accumulation of several weeks, since the court went to work under the new rules. But few of them were of any importance. The following were filed:

A. E. McCall et al against Beaver Creek Coal Mining company et al, appellant, Dallas county, Judge L. N. Hayes; suit to cancel mining lease and quiet title. Affirmed; opinion by Justice Preston.

Resurrection Not Mentioned in New Creed; Storm Breaks

KANSAS CITY, Mo., Oct. 24.—The storm that has been brewing over the proposed constitution and change of doctrine, as recommended by the commission of nineteen at the National Council of Congregational churches, broke to-night at a public hearing of the commission's recommendations. In the debate the declaration of doctrine was described as "colorless," "spineless" and "ecclesiastically sophisticated." Exception was taken to the omission from the declaration of doctrine of references to the resurrection of Christ. Similar exceptions were taken in regard to the omission of any reference to the "sacrifice" of Christ in His death on the cross. The demand was made repeatedly that the declaration of doctrine be more "definite and vigorous."

JUDGE LOBINGIER TO GIVE LECTURES ON ROMAN LAW

(From a Staff Correspondent.) WASHINGTON, Oct. 24.—(Special Telegram)—Judge C. R. Lobingier today accepted an invitation from Dean Hartings of the University of Nebraska law school to deliver a series of lectures upon Roman law in Lincoln before the law students and attorneys of Lincoln. The date of the lectures will probably be between November 1 and 15. Later in the month the judge will deliver the same series in Berkeley, Cal., at the request of university authorities there. He expects to return to his post in the Philippines sailing from San Francisco about December 5.

Gets No Verdict for False Death Tidings

Mrs. Amanda Carlberg, 574, North Twenty-first street, who on July 21, 1911, received a telegram which informed her that her 11-year-old daughter, Hazel, had "died at 4 o'clock this morning," and made preparations for a funeral which were interrupted by the arrival of the girl, failed to secure a verdict from the Western Union Telegraph company at the hands of a jury in Judge Leslie's district court. The message was sent by Mrs. L. L. Bell from Dillon, Mont., and Mrs. Bell insists that she told the operator to send a message that "Hazel C. Carlberg left at 4 o'clock this morning." The jury found for the defendant.

Culls from the Wire

Democrats, republicans and progressives of the house are going to present a wedding gift next month to Miss Jessie Wilson, the president's daughter. A resolution was unanimously adopted at yesterday's session of the convention of Textile Workers of America, at Philadelphia, demanding a uniform scale of

wages for all textile workers throughout the country.

Senators Borah of Idaho and Cummins of Iowa were added yesterday to the list of members of congress who are to speak for the republican party in the Maryland, New Jersey and Massachusetts state campaigns within the next few days. No re-indictment of Thomas E. Watson, the Georgia editor, and one-time presidential candidate, was contained in the report of the federal grand jury at Augusta yesterday when presented to the court. It was reported that the jury voted not to re-indict by a very close margin.

Ira W. Fisher, who recently accused an Atlanta merchant of Mary Phagan's murder, was indicted yesterday by a Whitfield county grand jury at Dalton, Ga., for the murder five years ago of Dug Steele, his brother-in-law. Fisher now is in jail at Atlanta, charged with criminal libel.

Taking of depositions for use in the trial of the government's suit against the Bell telephone companies of the Pacific states to force the defendant corporations to sell competing systems they have absorbed was begun at Seattle yesterday by Constantine J. Smyth, special assistant to the attorney general.

Frederick E. Small, president of the Brooklyn-Artizona Mining company, and A. Calvin Cruchet, treasurer of the American Security corporation, were acquitted in the federal court at Boston yesterday on a charge of fraudulent use of the mails in connection with the sale of Brooklyn-Artizona mining stocks.

The "graceful abandonment" of the Monroe doctrine by the United States was advocated by Homer Clyde Runtz, resident bishop of Buenos Aires, Argen

tina, of the Methodist Episcopal church in an address before the city club at St. Louis yesterday. Bishop Clyde is attending the annual fall meeting of the Methodist bishops.

An interesting feature of Colonel Roosevelt's visit to Rio Janeiro was his inspection yesterday of the Oswaldo Cruz Institute of Pathology and Bacteriology. He was shown through the laboratories for which he expressed his admiration, and acquired some information on the use of quinine in connection with his expedition into the interior of Brazil.

A truck bearing printing outfits, stamps, dies and other materials, used in manufacturing money, was wheeled before a jury in federal court at New York yesterday, when Ernest A. Muret was placed on trial on a charge of counterfeiting. Muret was indicted on this charge with Hans Schmidt, the German priest who confessed slaying Anna Amuller.

Deploring the "waste of lives through lack of direction into work and lack of training for work," Secretary Redfield of the Department of Commerce, before the National Society for the Promotion of Industrial Education at Grand Rapids, Mich., yesterday, voiced a message of hope that the efforts of the society would increase education fitting men for those vocations in life to which they are best suited.

Secretary of State William Jennings Bryan predicted that the Owen-Glass currency bill would pass the senate with a larger majority than the Underwood tariff measure in a speech at Camden, N. J., last night in the interest of the candidacy of Governor James F. Fielder. He told the audience that the national

administration looked to New Jersey to give a vote of confidence in President Wilson.

The steamer Centennial, which left Muroran, Japan, six years ago for San Francisco with a cargo of sulphur and was never heard from again, is reported to be fast in the ice of Sagabian island, (Oshoto) sea, Siberia. A Russian expedition bound through the Okhotsk sea discovered the missing vessel with lifeboats gone, the name partly obliterated and its iron work corroded. There was no sign of a human being on the ship.

President Wilson's treatment of the Philippines problem was both approved and condemned last night at the conference of Friends of the Indians and Other Dependent Peoples at Lake Mohonk, N. J. Their views expressed varied from advocacy of perpetual American control to belief in immediate independence. The dominant opinion favored making the Philippines independent, but not until a generation more has been devoted to teaching them how to govern themselves.

One great railroad system has been furnishing drinking water to its passengers, which the experts of the public health service have pronounced, after bacteriological examination, to be nothing less than "diluted sewage." Surgeon General Blue reported yesterday to Assistant Secretary Newton of the Treasury department that an investigation disclosed that the railroad company has been filling the water tanks of its passenger coaches at a supply 50 yards down stream from the sewage outlet of a large eastern city. An examination disclosed more than 8000 bacteria in each teaspoonful of water.
