#### Pamphlet Pretends to Explain Ritualist Murder Symbols

KIEV. Russia, Oct. 28.-A striking pamphlet, pretending to explain the alleged cabalistic significance of the groups of wounds on the head of Roy Yushinsky, for whose murder Mendel Beilles is on trial here, was distributed broadcast in Kiev and vicinity today. Its intention was to influence the proceedings of the court and to impress witnesses.

The writer, applying what he described as the "Celestial alphabet of the Jews," interprets these "constellations" as sacrificial exhortions.

## Your Salary

In these days of the high cost of living or the cost of high living, however you may regard it, there is one central purposa that guides you, if you are a normal, careful person. That is the idea of economy, of making every dollar do its full stint of work.

You may be sure of doing your utmost along this line if you will pay attention to the many opportunities for advantageous buying announced in our advertising columns. There is practically nothing that you buy that is not advertised. And by studying the advertisements you may inform yourself at all times on the subject of what to buy, where and at what price

to buy it. The careless person rarely buys the right thing and usually gets less for his money than one who goes about his business with his eyes open and his wits sharpened.
