MUST COURT ACCEPT CASE?

County Superintendent of Cedar County Thinks Must.

PETITION WAS THROWN OUT

County Judge Bryant Declines to File Action to Enforce Law Relative to Juvenile Labor, Holding it Invalid.

(From a Staff Correspondent.) LINCOLN, Oct. 30.—(Special.)—Two cases were filed on appeal in the office of the clerk of the supreme court this morning.

William E. Miller, county superintendent of Cedar county, appeals from a ruling of County Judge Wilbur F. Bryant of the same county. Miller sets out in his appeal that Leo Tatro, a boy 13 years of age, was being kept out of school by his father, Medro Tatro, and compelled to work at hard manual labor to the detriment of the boy's future welfare and he invoked the aid of Judge Bryant to enforce the law relative to juvenile labor. The judge refused to accept the papers or the fee tendered in the case, claiming that the juvenile law was unconstitutional and therefore the papers could not be filed. Miller appeals on the grounds that it is not the province of a county judge to refuse papers on unconstitutional grounds.

Saloonists Appeal.

Joseph Wolf and Charles Day, two saloon keepers at Long Pine, appeal from a judgment secured in the Brown county district court by Lyle Edwin Roach through his mother, Angela A. Roach, on account of the death of John F. Roach, father of the child, who was killed by a Northwestern train near Long Pine July 4, 1911. Mrs. Roach set out in her petition that her husband had secured sufficient liquor from the defendants to make him drunk and in that condition he had been killed by the train. The child was born May 11, 1912, after the death of the husband, and the court held that the child was entitled to what might naturally be due him from his father for support until he was of age. The suit was for \$10,000. The Lion Bonding company was on the bond of the defendants and a party to the suit.

MANY SCALES FOUND DEFECTIVE BY INSPECTORS

(From a Staff Correspondent.) LINCOLN, Oct. 30.—(Special.)—The first reports sent in by the deputy inspectors in the weights and measures department of the pure food commission have been received by Commissioner Harman, and in connection with them the inspectors report that as a general thing those they visit are well pleased with the law and anxious to have their scales and measures tested.

The first scales to be condemned, strange as it may seem, were those owned by the state at the Lincoln insane asylum. They were wagon scales which have been in use twenty years and were found to be forty pounds short on a thousand.

An oil and gas pump at Beatrice was found short seven cubic inches to the gallon. The pump was condemned. One platform scale, a measuring pump and two measures were condemned at Kearney. Wagon scales at the penitentiary were found a little off and readjusted.

In the two days 233 inspections were made, covering thirty-five different places. The fees connected with the examination of scales and measures are charged as follows: Platform scales of 5,000 or more, \$1.50; movable platform scales of 300 pounds or more, 50 cents; less than that amount, 25 cents; dormant scales, \$1.00; railroad track scales, \$2.50; sealing or marking every beam, 10 cents; for sealing and marking measures of extension, 10 cents per yard, but not to exceed 50 cents for one measure; liquid or dry measures, 10 cents; weights, 5 cents; automatic slot machines, \$1.

GERING MAN AT HEAD IRRIGATION ASSOCIATION

BRIDGEPORT, Neb., Oct. 30.—(Special Telegram.)—The Nebraska State Irrigation Association closed its three days' session here today, endorsing a proposed amendment to the constitution providing for a state board of irrigation composed of three competent men to be appointed by the governor and confirmed by the senate.

Officers for the year were elected as follows: President, C. W. Gardner Gering; first vice president, W. J. Scott; second vice president, H. P. Andrews; Callaway; secretary, J. E. Leblang; Bridgeport; treasurer, J. T. Whitehead, Mitchell.

The executive committee was requested to change the time of meeting from the last of October to the first week in December.

DEATH RECORD

Pioneer of Ohiowa. OHIOVA, Neb., Oct. 30.—(Special.)—Margaret Cobban was born May 13, 1857, in Maryland, Scotland, moved to Canada in 1886, was married at London, Canada, in 1890, and moved to Nebraska in 1891, where she lived until 1911, when she moved to St. Francis, Kan. She died October 24, 1913, at Mount Bridges, Ont., while on a visit to her former home. The body was received here Tuesday, the funeral being held Saturday. Interment was in the Ohiowa cemetery. The deceased formerly was a resident of this place.

Gilbert Hoch. FAIRBURY, Neb., Oct. 30.—(Special.)—The funeral services of Gilbert Hoch, the Rock Island conductor who met his death by falling from a stepladder and breaking his neck while removing window screens from his home, was held at his home, Rev. R. N. Orrill of the Methodist Episcopal church officiating. The Order of Railway Conductors had charge of the services. He is survived by his mother, his widow and little son. The body was sent to Andrews, Ind., for burial.

Mrs. Edward Burkhardt. FAIRBURY, Neb., Oct. 30.—After an illness of several years, Mrs. Edward Burkhardt passed away yesterday at her home five miles northwest of this city. Mrs. Burkhardt is survived by two sons and her husband. The funeral services will be held at the Methodist Episcopal church in Fairbury, Friday afternoon, Rev. R. N. Orrill officiating. The body will be buried in the Fairbury cemetery.

Expert Declares Move University Out to the Farm

(From a Staff Correspondent.) LINCOLN, Oct. 30.—(Special.)—The opinion of Dr. A. C. True, director of the office of experiment stations at Washington, who has been checking up the Nebraska station here during the last few days, ought to be worth something to people who have possibly not had a chance to study the proposition of university removal from both locations. Prof. True has no sentimental relations to the university which might warp his opinions, but they come from one who has been in a position to judge of the merits of the divided campus as compared with the consolidated, and his opinion, published in a Lincoln paper adverse to removal, ought to have considerable weight in favor of the consolidation.

Dr. True says emphatically that the two schools, the agricultural and the college, should be on one campus, and as the farm cannot come to the city, under his reasoning the college should go to the farm. He says: "I have not had time to look over the plans presented, but I am certain of one thing and that is that the entire university should be placed on one campus. It is better for the university, better for the students and better for the public. The tendency toward consolidating the entire university in one plant is very strong in every part of the country at present. As a man interested especially in agricultural education, I would urge it strongly upon the people of Nebraska."

Dr. True was asked if there was any danger that the agricultural department would be overshadowed by the other colleges. "Not in the slightest," he said, with emphasis. "The fact is that the agricultural end of your university will grow so fast that it will be the main institution, and the other colleges will benefit from nearness to it. It is a mistake to say that the agricultural students all come from the farms. An increasing proportion of them come from the cities and towns. In England agricultural education is coming forward very rapidly, and now one of the large interests of Cambridge university. In Nebraska your agricultural college will be so large eventually that it will be much better for the other colleges if they can be near enough to serve the agricultural students with the special subjects they need to make them all-around men."

Dr. True says emphatically that the two schools, the agricultural and the college, should be on one campus, and as the farm cannot come to the city, under his reasoning the college should go to the farm. TEN THOUSAND FIRE LOSS AT HARTINGTON

HARTINGTON, Neb., Oct. 30.—(Special Telegram.)—What proved to be a disastrous fire broke out in the J. G. Beste drug and jewelry store at 11 o'clock this morning and raged for two hours before the fire department gained control. The fire broke out in the rear basement of the store and was of unknown origin. On account of the location of the building little opportunity was given effectively to combat the flames, which spread to the store above. The total loss to stock will amount to

about \$10,000, partly covered by insurance. The entire store will be remodeled as soon as possible.

Boy is Injured.

FAIRBURY, Neb., Oct. 30.—(Special.)—Antone Stolling, a 13-year-old lad living at the little town of Endicott, six miles southeast of this place, sustained injuries in a fall while squirrel hunting that will probably prove fatal.

Injured While at Work.

FAIRBURY, Neb., Oct. 30.—(Special.)—C. E. Thomas, a machinist helper in the locomotive shops at this place, came in contact with a blast of a gasoline burner and sustained painful injuries, which will confine him to his home for some time.

BUSCH WILL CREATE TRUST

Practically Entire Estate Goes to Widow and Children.

WORTH ABOUT FIFTY MILLIONS

Income of Each of Eight Heirs Amounts to More Than Thousand a Day—A. A. Busch to Manage Business.

ST. LOUIS, Oct. 30.—Each of the heirs of the estate of Adolphus Busch, who, according to the will filed here late yesterday, are to have shares of the trust into which the estate is to be formed, will have an annual income of \$75,000 a share, or more than \$1,000 a day.

The son, August A. Busch, who succeeds his father in the management of the vast properties, is to have two shares of the trust. He is required to make provision, however, for his invalid brother, Carl.

According to a high officer of the estate, who made the figures known today, the income of the estate is estimated at \$5,000,000, which is a 6 per cent return on a valuation of \$50,000,000. The heirs are the widow and the seven children.

The fact that a codicil was attached to the will a little more than a year ago, exempting Lieutenant Edward Scharew, the husband of Wilhelmine Busch, from a fourth interest in his wife's share of the estate, should be die before him, was explained today by a member of the family. The codicil was added, it was stated, not because Adolphus Busch resented the marriage of his daughter to the German lieutenant, but because the laws of Germany provide that a husband and wife shall share equally in any estate either shall inherit, and that the original provision, giving him a fourth interest in the estate, should be survive his wife, will be invalid in Germany.

Executors and Trustees. The provision of the will for three executors and three trustees was explained by attorneys today as follows: The executors, Mrs. Lilly Busch, Edward A. Faust and Charles Nagel, will have full power to make the \$100,000 in

charitable bequests and the personal bequests, amounting to \$25,000, and to provide an income for the widow, not exceeding \$50,000 a year.

After the deductions are made, the trustees, Mrs. Busch, August A. Busch and Charles Nagel, will administer the trust estate, subject, however, to certain provisions that make August A. Busch supreme in the management of the brewery, the Manufacturers railway, the American Bottle company and the Busch-Suizer Brothers Diesel Engine company.

If a vacancy occurs among the trustees, Faust is to fill it, and if there is one among the executors, August A. Busch is to fill it. If only one trustee remains, the St. Louis Union Trust company is to become trustee. By these requirements provision is made for the administration of the estate in all details by persons who were intimately associated with Adolphus Busch. The only person named as trustee or executor who is not a member of the Busch family by blood or by marriage, is Charles Nagel, former secretary of commerce and labor, who was the personal counsel of Adolphus Busch and who drew the will.

FIVE TRUE BILLS SENT IN BY FEDERAL JURORS

(From a Staff Correspondent.) LINCOLN, Oct. 30.—(Special.)—The federal grand jury closed its session here yesterday, and while there had been rumors there would be several white slave cases before it, only one resulted from the deliberations. Five true bills were found in the total sitting.

William Lundberg is charged with enticing Effie Lowell from Lincoln to Paxton, Ill., for immoral purposes about June 16 of this year.

A. M. Walters of Blue Hill is charged with mailing objectionable matter from the postoffice at that place to N. Shamp at Hastings last July.

Walter Martin and George Brown are charged with having opened a shipment of interstate goods near Dorchester, sent to a Fairbury firm from Cleveland, O., and taking therefrom seven women's cloaks.

Two clerks in the Lincoln postoffice were also bound over for abstracting money from letters.

CROXONE SAVES ELDERLY PEOPLE FROM KIDNEY AND BLADDER MISERIES

Sleep Disturbing Bladder Weaknesses, Backache, Stiff Joints, Rheumatic Pains Disappear After Few Doses are Taken

While people along in years are naturally more subject to weak kidneys, they can easily avoid the tortures of backache and rheumatism, and be saved the annoyance of getting up at night with disagreeable bladder disorders. Croxone relieves these conditions by promptly reaching the cause and making the kidneys filter the blood and sift out the poisonous acids and waste matter that cause these troubles. It soaks right in and cleans out the stopped up, inactive kidneys, dissolves and drives out the uric acid and other poisonous impurities that lodge in the joints and muscles and cause rheumatism. It neutralizes the urine so it no longer irritates the bladder, overcomes unnecessary breaking of sleep and helps the kidneys and bladder regain health and strength. It matters not how long you have suffered, how old you are, or what else you have used. It is practically impossible to take Croxone without results. It starts to work the minute you take it—the first time you use it. An original package of Croxone costs but a trifle, and all druggists are authorized to return the purchase price if it fails in a single case.—Advertisement.
