The fact how develops that England is short of breadstiffs, that the importers of the "tight little isle" have stood out as buyers too long in an endeavor to force holders in their prices. Shorts were on the buying side of the wheat market in it the big English market yesterday and there was an investment demand as well. This buying, with rather light offerings caused further price gains of Advances were made in country are becoming uneasy because of the fact that while the continent is getting all the heat needed and is drawing about 75 per cent of the weekly world's shipments, only about 55 per cont finds its way to the English market way to the English market less that the takings on English account were of large proportions. It as given out yesterday and while the safety the continuent is getting all the heat needed and is drawing about 75 per cent of the takings on English account were of large proportions. It as given out yesterday and while the conditions in India and Argentine. This was not the case, however, as the Busnos Ayres market opened unchanged yesterday and while the conditions in light to advance were made in corn yesterday and while the conditions in anything but alarming, although the yield will be short. Cash wheat was given out yesterday and while the conditions in anything but alarming, although the yield will be short. Cash wheat was given out yesterday and while the conditions in anything but alarming, although the yield will be short. Cash wheat was given out yesterday and while the conditions to advance were made in corn yesterday and while the market could not be called independently strong, as the strength in wheat was reflected in all the railbuence, kets, there was a connective were concerns, men who have been on the built side off and on during the long

# NEW YORK STOCK MARKET

Little Accomplished by Day's Trading in Stocks.

CALL MONEY AT A HIGH FIGURE

Bonds Irregular and Weakness Shown in Various Old Established Lines, While Some of the Newer Issues Higher.

NEW YORK, Oct. 30.—So far as net results go today's trading in stocks accomplished little. The market offered resistance to accumulating bearish influences and during the forenoon the record of prices showed small gains among the representative shares. Later in the day the list gave way, and at the close the speculative favorites were well under yesterday's final quotations.

The day's news was unfavorable. Call money advanced to 6% per cent, the highest figure in months. Such a movement is not unseasonable, this being the height of the crop moving season.

Time money was little changed and western banks lent sixty and ninety-day funds here at 4% per cent. Another 11,00,000 gold was engaged for export to Canada. NEW YORK, Oct. 30 .- So far as net re-

Reports of banking troubles in Berlin, the break in the London copper metal market and a poor statement for September by Southern Pacific were other bearlsh influences of the day. Southern Pacific reported a decrease in net of nearly \$500,000. Various reports were oir-culated in an effort to show that the country's relations with Mexico were being strained to the breaking point, but in the absence of authoritative news the street paid little attention.

Bonds were irregular. Weakness showed in various old established lines, while some of the newer issues were higher. New Haven convertibles went to a new low level at 10%. Total sales, par value, \$2,500,000.

United States bonds were unchanged on call.
