

FREED OF MANN ACT CHARGE

Jury Acquits Actor Transporting Girl from Another State.

DELIBERATES FIVE MINUTES

Accused Man's Counsel Emphasizes Claim No Attempt Made to Use Woman for Commercial Purpose.

BALTIMORE, Md., Oct. 31.—Grover C. Rosenthal, an actor of New York, charged with violation of the Mann white slave act, was acquitted today in the federal district court. The jury deliberated only five minutes.

Rosenthal, whose wife and child were in court, was charged with bringing Margaret Helbig from Philadelphia to this city for immoral purposes. He said he and the young woman were on the stage together and registered at boarding houses as husband and wife, but his attorney, in his argument, laid stress on the claim that there had been no attempt on the part of the accused to use the girl for commercial purposes.

In his charge to the jury, Judge Rose held that the defendant had violated the Mann act, as he construed it, if the jury believed beyond a reasonable doubt, "that one of the purposes he had in mind when he brought this girl into the state of Maryland was to continue relations that had existed between them while together elsewhere. The character of the girl and her past life are not to be considered in determining the question of the case."

ALL DOGS IN VILLAGE OF DUNDEE ORDERED TIED

The Board of Health of Dundee is making energetic efforts to execute all dogs in the village that are suffering with the germs of rabies. Recently Veterinarians Hall, Young and Morris discovered that the pet dog owned by Judge W. W. Shabauh was suffering from the disease and he was killed. Another dog who was suffering in the same manner escaped, and it is known that the two dogs had bitten several other dogs. The village board of health ordered all dogs to be tied and Marshal Trethlock is patrolling the village for dogs that are not tied.

THREE OMAHA FAMILIES AT EXCELSIOR SPRINGS

The Haversticks, the Kellys and the Guilds are the only Omaha people at the Elms hotel at Excelsior Springs, Mo., where they are spending a few weeks' vacation. They were the club that they are having lots of fun, drinking lots of water, and doing lots of visiting. The group consists of Mr. and Mrs. G. E. Haverstick, Mr. and Mrs. George H. Kelly and Mr. and Mrs. John M. Guild.

Burlington Likely to Use Oil Fuel for Passenger Engines

Oil burning locomotives on the lines of the Northwestern west of the Missouri river have proven such a success that other roads of the central west are taking notice of the fact. It is likely that before the end of another year all of the Burlington passenger train engines operating on the Nebraska and Wyoming lines will be converted into oil burners.

Already the Burlington is figuring on the cost of making the changes from coal to oil burners, and in the event the expense is not too great the work of converting the machines is expected to begin very shortly.

Burlington people conclude that now they have one of their Wyoming lines into the Casper oil fields they can transport the oil fuel at actual cost and thereby effect a considerable saving in the expense of train operations.

Carpenter's Friends Bestow Loving Cup

H. E. Carpenter, manager of the Millard hotel, has been connected with the Miller interests here for only ten months, but in that time he made such firm friends of the men under him that when he left the service last night an enormous loving cup was given him.

The presentation speech was made by J. D. Thompson, clerk. Mr. Carpenter will leave Omaha on November 1 for Morris, Ill., where he will remain a few weeks and then go to Milwaukee, where he has an attractive offer. A large Chicago hotel has an option on Mr. Carpenter's services and he will go there also to look the proposition over.

For over thirty-one years he has been engaged in the hotel business, and most of this time was spent in Chicago and Louisville, Ky. He was also connected with the commissary department of the Rock Island for a long time. W. B. Miller, son of Rome Miller, will succeed him.

UNIVERSITY OF OMAHA IS THE CORRECT NAME

Because of the large number of people calling and referring to the University of Omaha as the "Omaha university," the students at the University of Omaha have been asked to call the attention of their friends to refer to the school as the University of Omaha. Several years ago such a plan was started at the University of Chicago, which ended with marked success. The school was incorporated as the University of Omaha, and to speak of the school as Omaha university is not correct. It is hoped by the faculty that in a short time people will speak of the school by its correct name.

Land Goes Farther in France Than Here

Dr. F. W. Leavitt of the Plymouth Congregational church gave a lecture Thursday night at the University of Omaha on "Life in France." Recently, while on a trip to France, Dr. Leavitt took a large number of pictures and studied the economic conditions of the country as a whole. In his lecture Dr. Leavitt brought out the thrift and the industrious way in which the French people cultivated the land. It takes eight times as much land to support an American family as it does a French family, said Dr. Leavitt, due chiefly to the fact that the French use intensive farming. Stereoscopic views were used to illustrate the lecture. The life in the large French cities was also commented upon by Dr. Leavitt.

Those present were: "Bunny" Manger, Frank Russell, Charles Sadler, Joseph Lehman, Eddie Peters, Bert Lang and Fred Shorter.

OMAHA YOUTH HELPS TO KEEP PEACE AT TRINIDAD

The parents of Barton Nash, former Omaha High school foot ball star, are very much worried over their son's safety, who is at the front in Trinidad, Colo., with the state militia. The troops are guarding the mining property at that place and keeping peace generally while the strike is on.

Young Nash is studying dentistry at the University of Denver, and has won considerable fame as a foot ball player at the Colorado metropolis in the last two years. He was forbidden, however, to participate in the game any longer by his parents, and to supply the deficiency for excitement he joined the state troops. His parents are Mr. and Mrs. John Nash of Dundee.

THE BIGGEST, BRIGHTEST, BUSTLING SATURDAY OF ALL THE YEAR is the FIRST SATURDAY in NOVEMBER

Barring the Saturday before Christmas—when weather conditions are right—the statement we started out with is true. **AND THERE'S A REASON.** There is a general feeling that Summer, which in this latitude lingers long in Autumn's lap, has flitted, and so people prepare for the days "When icicles hang from the roof." Mrs. and Miss Cobb have spent many years of their lives in the candy and catering business. **MRS. COBB** may be a little delicate about telling how long, so we won't ask her. That's the test after all. **NO FAIL CANDY TO MAKE PALE PEOPLE.**

SOME SATURDAY SPECIALS—Butterscotch wafers. Our assurance, the best creamery butter only used.
