About a year ago Trout was hurled over a fence into a cabbage patch when his motorcycle collided with a cat. At that time his left arm was fractured. Trout has advertised his business by using as a delivery wagon a two-wheeled top buggy hitched to a motorcycle.

MORRISTOWN, N. J., Nov. 4.—Two drunken prisoners, with a riot gun and 1,000 rounds of ammunition, held high carnival at the Morris county jail here from midnight until dawn today, terrorizing other inmates, riddling the keeper's office with bullets and, falling in their plot for a wholesale jail delivery only because they drank too much liquor after escaping from their cells.

The prisoners, Eugene Sampson and John Burns, were placed last night in the hospital ward with several other prisoners, charged like themselves with minor offenses. They picked the lock of a door which leads into the keeper's office. On entering the office they broke open a desk and procured a bottle of liquor and drank it. Next they broke into a store room and obtained a riot gun and ammunition. Returning to the hospital ward they closed the door and began firing through it. As each shell contained a number of bullets, the keeper's office was riddled.

At daylight, when deputies and inmates entered the jail, they found the keepers in a state of terror. Burns and Sampson were asleep.

In 239 scattered election districts of a total of 1,700, Mitchell had 4,611 plurality over McCall, a ratio which would indicate a certain victory. The New York Sun, which supported McCall in the bitter campaign waged by the fusion forces against Tammany, has conceded Mitchell's election. Fur Month

This month is the most important fur month because any day may be severely cold and warm garments must be in readiness.

The question of furs for the winter is not a difficult one to the woman who can, without thought of price, go out and buy what happens to strike her fancy. If she regrets her purchase later on she can buy something else.

To the thrifty woman, however, there are problems of quality, style, price and durability to be considered more carefully in buying fur garments than in buying almost any other articles of dress. Then, too, there is the possibility of making over slightly worn pieces, or of combining some new fur with the old.

All of these points need careful thought. Many hints and suggestions may easily be obtained by reading the advertising columns of The Bee and, more than likely, the most satisfactory solution to your problem will be found there.
