

Nebraska BOARD AFTER SALARY LIST Says Doctor Draws it While Not in the State.

AFTER DR. LORD AND DR. ORR Says Lord Drew Salary at Orthopedic Hospital While Absent and Dr. Orr Treats Private Cases in State Institution.

(From a Staff Correspondent.)
LINCOLN, Neb., Nov. 6.—(Special Telegram.)—The State Board of Control is camping on the trail of Dr. J. P. Lord of Omaha, chief surgeon of the State Orthopedic hospital at Lincoln, alleging that the doctor drew two months' salary from the state when he was absent this summer in Europe and was not on the job. The doctor receives as chief surgeon \$2,000 a year, which would make \$222.94 for the two months he was away. They claim that he only visits the hospital twice a month when he is not away and they feel that he ought to come often.

They are also looking sidewise at Dr. H. W. Orr, superintendent of the same hospital, whom they claim, with Dr. Lord, takes private cases to the hospital and operates on them, taking the fee and giving the state nothing.

Governor Morehead says the case is out of his jurisdiction. Dr. Orr receives \$1,800 a year with his living expenses, but also attends to a private practice.

New Bank at Sutton. Frank W. Sloan made application to the State Banking board today for a charter to start a new state bank at Sutton to be known as the State Bank of Sutton, with a capital of \$25,000.

This city will have many "Papa's Diapiesin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too. Nebraska. Large Eagle Killed When Attacks Man

FAIRBURY, Neb., Nov. 6.—(Special.)—Earl Seachord, a Rock Island employe of this city, while hunting on Rose creek, several miles south of Fairbury, was attacked by a large American eagle yesterday and escaped injury only by shooting it with a double-barreled shotgun as it swooped down on him and his companion.

Mr. Seachord and his companion were hunting rabbits in a cornfield near the timber on Rose creek and they happened to see a large bird of some description sitting on the limb of one of the trees. They decided to go over toward the tree and take a shot at it for fun. Mr. Seachord was in the lead and was armed with a double-barreled shotgun and when about seventy-five yards from the tree the bird raised from its perch and swooped down at them. It proved to be a large American eagle and carried a young pig in its talons.

Mr. Seachord took careful aim as it swooped down at him and let it have the contents of both barrels. His aim was good and the eagle fell screaming to the ground. It was still alive, however, and it was necessary for Mr. Seachord to club it to death with his shotgun.

The eagle measured seventeen feet from tip to tip and was an unusually fine specimen of his kind. Mr. Seachord severed the wings from its body and brought them to Fairbury for a keepsake of his experience. The eagle had stolen the pig from a nearby farm yard. This is one of the largest American eagles ever seen or killed in this part of Nebraska.

MADISON ASKS FOR BETTER TRAIN SERVICE

MADISON, Neb., Nov. 6.—(Special.)—Several days ago a petition signed by practically all the business men of Madison and many of the farmers tributary to Madison, asking the Union Pacific Railroad company for better railroad accommodations, particularly in the matter of passenger service, the result of which was that a representative of the Union Pacific met with a large number of the representative citizens at the council chamber to consider the matter definitely. After full discussion it was the wish of the meeting that an extra train be given connecting with the Grand Island local at Columbus at 7:11 a. m., and returning to Norfolk in time to make connection with midday trains leaving that point for Sioux City, Bonesteel and west and east on the main line of the Northwestern. If you knew these player-pianos they would not last till Saturday

WHEN we infer that these player-pianos would be sold before Saturday, if you **but knew them**, we do not have in mind your having a knowledge of the player-pianos themselves: That is, a knowledge of the woods and felts and strings and keys and all their physical parts.

But we have in mind what **you can accomplish with them**.

If **you knew** the ease with which you could play these player-pianos; if **you knew** the real pleasure and satisfaction you would get out of one;

If **you knew**, that seated at one of these player-pianos, you could within a **single week**, get better results than the average piano student can upon a piano, after years of practice;

If **you knew**, Mr. Business Man, that with one of these player-pianos you could get completely away from the grind and worries of business;

If **you knew** that you could play all your favorite tunes;

If **you knew** that the whole world of music would be opened to you;

If **you knew** that over eighteen thousand of the world's best musical compositions were available for your playing;

If **you knew** that you could master the musical works of the greatest composers;

If **you knew** that in your player-piano there was solace for every mood and music for every occasion—we say, if **you knew** these things, then there would a single one of these player-pianos left by Saturday.

You would bring in the **five dollar** initial payment necessary to secure one, tomorrow morning. Yes, you would sit **right down now** and send in the five dollars by letter, advising us to hold one for you until you could come in and make your selection. These player-pianos cannot be replaced by anything you can put in your home, that will give you so much pleasure and satisfaction. Dozens of persons have told us this.

Through this Co-operation Sale, you can purchase one of these player-pianos at a saving of **one hundred and fifty-five dollars**; think of that. You can buy one for three hundred and ninety-five dollars **now**, while the usual price here in this city and all over the country, is five hundred and fifty dollars.

It will be delivered at once; just as soon as you make your selection and pay your initial payment of five dollars.

Your regular payments are then **only two dollars** a week.

By these easiest of easy terms you thus have 195 weeks to pay the balance of three hundred and ninety dollars, and when this amount is paid, **you are through**.

There are no dues, or interest, or extras, or bonus to be paid **afterwards**—to run the price up forty or fifty dollars more.

The whole plan upon which you obtain one of these player-pianos is big, broad and liberal.

You do not take a single chance. Every possible risk has been eliminated.

They are guaranteed without reserve. You can exchange within a year. Your unpaid payments will be cancelled in event of your death, and you have a month's time to try it in your home with the privilege of "calling the deal off" and getting your money back.

With all these privileges and liberalities and safeguards in mind, we want to ask you a fair question. Can you afford **not** to put one of these instruments in your home in view of their infinite source of pleasure and entertainment to every member of the family?
