I Am Going to Enjoy This Meal For I Have a Supply of Stuart's Tablets in My Vest Pocket.

Stuart's Dyspepsia Tablets are nothing more than a concentrated form of the natural secretions which the stomach employs in digesting food. And Stuart's Dyspepsia Tablets merely step in when the stomach is too tired or too sluggish to perform its functions properly and supply a sufficient quantity of these digestive ferments to digest completely all food, under either acid or alkaline conditions, in the stomach.

It has long been known that the various digestive ferments could be produced as artificially in the laboratory as in the stomach, but Stuart's Dyspepsia Tablets are the first attempt outside of certain hospitals to utilize these discoveries for the benefit of sufferers from indigestion and kindred complaints.

The perfect freedom to eat what you please and as much as you please which Stuart's Dyspepsia Tablets gives, has won thousands of friends who make it a constant, vest pocket companion. Join today the vast army of people who have declared their independence of stomach troubles. You can get a 50c box of Stuart's Dyspepsia Tablets from any druggist.
