Nebraska. Nebraskans Take Prominent Part in Conservation Meet

(From a Staff Correspondent) WASHINGTON, Nov. 19.—(Special Telegram.)—George Coupland, regent of the University of Nebraska, was named vice president for Nebraska of the Conservation congress by the Nebraska delegates today.

Admission E. Sheldon of the legislative reference bureau, will serve on the resolutions committee. Mr. Sheldon said tonight that Nebraska primarily had little water power to develop and that as yet he did not know what he would advocate in the way of resolutions.

The Nebraska delegates registered thus far are: Chancellor Avery of the university; A. E. Sheldon, George N. Lamb, H. P. Letton of Lincoln, Regent Coupland, Dr. G. E. Condra and Representative Kinkead.

Chancellor Avery and Regent Coupland spent several days in New York inspecting university buildings and grounds at Columbia and the University of New York City, to secure ideas helpful to the proposed university extension.

A short visit was also made at Princeton university. Dr. Avery left for Lincoln tonight. Others of the Nebraskans will remain for the conservation meetings.

LOOTER OF PRIVATE CAR GIVEN TERM IN PRISON

FAIRBURY, Neb., Nov. 19.—(Special.)—An unusual scene took place in the district court at this place last evening when Claude Smith, alias Craig Day, threw himself on the mercy of the court and asked Judge L. M. Pemberton to give him another show to make a man out of himself, just as the judge was about to pass sentence on him for robbing the private car of Division Superintendent A. W. Kelso of this place, October 14.

Smith, in company with his accomplice, whom the police were unable to apprehend, broke into Mr. Kelso's car and took a valuable suit case and other articles, aggregating \$75. They escaped to Omaha. While trying to dispose of the stolen articles at a pawn shop Smith was arrested. He was taken into custody and pleaded guilty to the charges preferred against him before Judge C. C. Boyle. Judge Pemberton gave him an indeterminate sentence of one to ten years at hard labor in the penitentiary at Lincoln.

Smith had been released from the Missouri penitentiary at Jefferson City, September 4, 1912, for burglary committed in St. Louis in May, 1912.

Nebraska. Franklin Eliminated in County Seat Vote

BLOOMINGTON, Neb., Nov. 9.—(Special Telegram.)—The town of Franklin was eliminated from further right to representation in the county seat fight in Franklin county by today's voting. The vote for preference stood: Bloomington, 891; Macon, 895; Franklin, 781.

Bloomington to win out definitely would have had to receive a two-fifths vote, which it failed to do. Under the law, however, if no one of the opposing towns receives a three-fifths vote, the lowest of the opposing towns drops out. The fight will now be squarely between Bloomington and Macon at the next special election to be called.

FRANKLIN, Neb., Nov. 9.—(Special Telegram.)—Under the election held today for county seat of Franklin county, this city's aspirations for location of the county seat were dashed. The fight has developed a surprising strength for Macon, and it is not at all unlikely that many of Franklin's votes will be cast for that city in the final test. Bloomington is the present county seat.

TWENTY-FOUR HOUR SERVICE AT WYMORE

WYMORE, Neb., Nov. 19.—(Special.)—Citizens of Wymore to the number of about 200, in a mass meeting at the armory last night, declared themselves as favoring the operation of the city's electric light plant on a twenty-four-hour basis, with the addition of another engine and dynamo at an early date. The plant has been running on a twelve-hour service basis for a month past, but citizens have failed to patronize it. The meeting last night was called by the mayor and council to find public sentiment regarding the operation of the plant. Nearly 100 pledged themselves to patronize the city plant as soon as it is giving twenty-four-hour service, and they further pledged themselves to pay the city rates now charged, even if competing companies should offer lower rates.
