Evaporation After Watering.

An apt term to describe the shrinkage of watered securities is used by the Saturday Evening Post when it r. This Day in Omaha refers to them as "evaporating stocks," and for illustration cites the traversing a territory which has been Thirty Years Ago—
The funeral of the late John B. DetThe funeral of the late John B. Detexample of a certain western railroad evaporated to one-third of previous quotations.

A still more striking illustration upon some of the moving causes, in preceded evaporation for the Frisco was apparently poured in at the top syndicates, which, in turn, emptied resignation he had sent in to become into the pockets of officers or highup employes of the road and their ground floor partners.

It is this kind of watering that has put stocks in bad with investors to railroads, honestly financed and efficiently managed, along with those that have been culpable offenders. The worst part of it is that the evaporation seldom hits the ones responsible for the watering. If we heed the lesson, however, there will be no more watering after evaporation.

Early Shopping and Mailing.

The incessant campaign for early Christmas shopping has not gone on all these years without some results, and yet the postal service feels the setting effects of a serious congestion every year. The men who handle the mail are buried under avalanches of belated Santa Claus matter for days, having to work desperately hard and Twenty Years Agoput in a great deal of overtime in trying to keep up with their task, This year, unless the people remember to mail their early shopping presents early, the postal man's burden is apt to be heavier than ever be-Cincinnati held a James Whitcomb facility afforded in the parcel post.

No Labor Party Yet.

The time has not come for the launching by labor men of a distinct political party of their own, as the rejection of such a proposal by the American Federation of Labor's decisive vote of 193 to 15 attests. The remarkable progress of the cause of day and country, at least, the interests of the workingman may safely things.
