

I Would Not Be Like That Again

Learn How to Gain 30 Pounds in 30 Days and Build Your Body As It Should Be Built.

60 Cent Package FREE
There is no use denying the truth. The man or woman who has a plump, well-fed, smiling appearance always gets along better than the skinny people.

Protons is a natural builder of firm, hard, come-to-stay flesh. It adds nature in building better flesh and it does its work swiftly without any harmful effects. Thirty pounds in 30 days is not an unknown gain to some thin men and women. The regular \$1.00 size of Protons is for sale by all druggists, or will be mailed direct, upon receipt of price. A guarantee goes in every package. Your money back if not satisfied. The new Protons justifies us from now on, in making this guarantee. The Protons Company, 567 Protons Bldg., Detroit, Michigan, will send to any one a free 60 cent package of Protons, if they will enclose 10¢ in stamps or silver to help cover postage. They will also send with it full instructions and their book on "Why You Are Thin." The regular \$1.00 sized Protons is for sale in Omaha by Sherman & McConnell Drug Co., 102 S. 16th St.; Owl Drug Co., 24 S. 16th St.; Beaton Drug Co., 121 Farnam St.; Loyd Pharmacy, 307 N. 16th St.; Bell Drug Co., 116 Farnam St. No free packages from druggists.

WOMAN IN FAINT ROBBED

Looses Nearly Thousand Dollars on Northwestern Train.
MONEY TAKEN FROM PERSON
Lyle Crabtree, Who Shot Captain Raymond at St. Louis, Has Been Released as Harmless from Hospital for Insane.
(From a Staff Correspondent.)
DES MOINES, Ia., Nov. 22.—(Special Telegram.)—It developed today that Mrs. Charles Dodge, wife of a contractor, was robbed in a peculiar manner when on a Northwestern train enroute from Ames. She was taken ill just as she was entering the train and fainted. She had collected at Marshalltown for her husband and she had with her in bills.
A number of the passengers offered her assistance when she fainted, but after she recovered she found the money was gone.
Crabtree Freed.
His attorney here has received word that Lyle Crabtree, formerly corporal in the United States army, who killed Captain John Raymond at Fort Des Moines four years ago, and later was sent to prison, but was adjudged insane, has been released from the hospital at Washington as harmless.
The Interstate Commerce commission was notified today by the Iowa commission, on behalf of the shippers of Iowa, that the railroads, in filing certain rate schedules, have ignored entirely the orders of the commission relative to rearrangement of the rates between Iowa points and the east. In a letter to the Interstate Commerce commission, Chairman Thorne indicates that the railroad companies are in contempt of court for what they have done or attempted, and demand is made for a conference of shippers and carriers before the interstate commission in Chicago at an early date to have the matter presented in full. This is the outcome of an investigation of the rate schedules as filed by the railroads purporting to carry out the order made last June for elimination of the old rate of making rates based on a combination of the local. In the letter illustrations are given of the effect of the new schedule which would place rates in Iowa at a disadvantage as against Chicago and St. Louis, so that shipments from the east transhipped west the Iowa jobber would have to pay very much higher rates than if he was located in some city outside of the state.
"So long as the railroads continue to frame rates for Iowa cities and from the east, and to and from the west, on the principle of the combination of the local in both directions, just so long will the industrial development of Iowa be hampered and retarded by an unnatural, artificial burden placed upon us by the railroads," declares Mr. Thorne in his letter to Commissioner Harlan.
The Iowa shippers found that, in fact, in making the new schedules instead of distributing the spread between the two rivers equitably across the state zones, the carriers simply took the old method of combining the local and adding 12 cents in each case, resulting in a discrimination exactly like that which last June the Interstate Commerce commission ordered should come to an end.

Rivers and Harbors Delegates.
List of delegates from Iowa to the National Rivers and Harbors Congress at Washington, D. C., December 3, 4 and 5, appointed by the governor:
Scott Bradford, Storm Lake; A. C. Miller, Des Moines; W. E. Holmes, Sioux City; George W. Kootz, Iowa City; B. F. Price, Fort Dodge; W. C. Cross, Burlington; A. S. Seaman, Clinton; W. J. Brown, Dubuque; B. R. Walker, Des Moines; J. C. Norwood, Davenport; John Downes, Fort Madison; John De Mar, Des Moines; Ed E. Beane, Burlington; E. B. Goldthwait, Boone, and John DeWitt, Keokuk.

Controversy Over Sale.
The pharmacy commission of Iowa put some blocks in the way of the big steel and wire trust, and failure to reach an agreement terminated in a plan to have the whole matter submitted to the attorney general for decision. The controversy came when the commission directed

that the American Steel and Wire company should desist from marketing its by-product, sulphate of iron, through dealers other than druggists. This product is sold to be mixed with salt and coal to feed swine as a remedy for hog cholera. Great virtues are claimed for it as a medicine, and farmers are buying it liberally. A big trade has been built up in Iowa. But the druggists insist that it is a domestic remedy, as defined by law and does not come under the list of drugs. A conference was held in the rooms of the pharmacy commission, at which appeared the general manager of the big company, their chemist and lawyer; but the pharmacy commission refused to budge. They all agreed, however, that the matter would be submitted to the attorney general as to the meaning of the law.
Congressman Has Fever.
It is now stated that Congressman I. E. Pepper of Muscatine, is suffering from typhoid fever. He came home a short time ago and was taken ill on the train, but not until in the last few days was it apparent he had the fever. He returned for the special purpose of consulting with democratic friends as to a possible candidacy on his part for the democratic nomination for United States senator next year.
Drake Homecoming.
Students of Drake university from all over the state, and the graduates of the institution, in large numbers, will visit there tomorrow evening in the evening, following the football game with Ames. There will be a big Drake banquet at the Masonic temple. This is to be one of the biggest college homecomings of the year.

Inoculations Treated as Insane.
Under decision of the district court in the case involving the status of the inebriate hospital at Knoxville it is necessary that the Board of Control treat the inmates of the hospital the same as insane and to bring them under the same laws as for the insane. In fact the institution at Knoxville was established as a part of the insane hospitals to care for the department which had been instituted before to care for those made insane and irresponsible by liquor or drugs. In view of this status of the institution all the attacks made by an inmate on the laws prevailing fall to the ground, for the insane management as a part of the insane department affords all protection to persons named. The members of the Board of Control are well pleased with the court decision, which fully upholds them and will permit them to continue to exercise proper control over the inmates at Knoxville.

Fecular Oil Damage Case.
The Standard Oil company has appealed to the supreme court from a judgment in Harrison county under peculiar circumstances. Some years ago the wife and three children of Leo J. Chapman were burned to death because of kerosene in which gasoline had been mixed. He secured judgment and collected \$1,500 from the firm at "Piqua," which sold the oil. The firm then sued the Standard Oil company and got a verdict for \$112 to reimburse it for the other damage suit. The company claims that the oil was tested and was all right when delivered and that as a matter of fact the mixing of the gasoline with the kerosene occurred after a part of the barrel of oil had been sold and was the fault of the merchants and not of the oil company.

Rate Question Recedes Large.
It was fourteen days after the railroad commission and the shippers representing central and eastern Iowa cities that the rate problem before the Interstate Commerce commission is a larger one than they had at first supposed. A strong protest will go to the commission against the rates as proposed by the railroads and an effort will be made to have the commission uphold the rate schedule of rates applicable to Iowa.

SIX-FOR-QUARTER CASE UP

Omaha Street Railway Company Before Rail Board.
INSIST PEOPLE NOT OBJECTING
G. W. Wattles and John E. Webster Declare Complainant Davis Does Not Represent People of Omaha.
(From a Staff Correspondent.)
LINCOLN, Nov. 22.—(Special.)—A sort of preliminary hearing was had before the State Railway commission this morning in the matter of the complaint of Representative James Davis against the Omaha & Council Bluffs Street Railway company to compel the latter to put into effect a six-for-a-quarter rate to all points on that road in Omaha and adjoining towns.
John L. Webster and President Wattles of the car company appeared for the street car people, but notwithstanding it was said the people of Omaha were anxious for the new rate, nobody but Mr. Davis appeared for the purpose of making a showing in favor of the proposed reduction.
Mr. Webster called the attention of the commission to the fact that the complaint filed by Mr. Davis made no specific charges and only in a general way asked for a rate of six tickets for a quarter. He said there was nothing in the complaint for the company to answer and did opinion and the law to show that there must be some specific charge or complaint made in order that the company would have something to make an answer to.
No Charge Made.
"There is absolutely no charge made in the complaint," said Mr. Webster. "They simply ask for the new rate, but do not attempt to show why. In the company making too much money or what is the reason we must make the rate? It will make some kind of a showing in their complaint, then we will know what to answer to and what grounds to take in making the answer."
President Wattles said that previous to the organization of the State Railway commission the company had considered that the city council of Omaha had authority over the company, but since the commission came into power they considered that all matters of rates were under the jurisdiction of the commission. The socialists of Omaha and the Mr. Wattles, have resorted to the initiative to give the people of the city a chance to vote on a proposition of seven fares for a quarter and he did not think the proposition should be complicated any farther by a complaint of this kind. He said that the company would contest in the courts the right of the people of Omaha to make a price on something they had to pay for themselves and find out who had authority over rates.
"A few days ago," said Mr. Wattles, "the matter came up of an increase in the pay of our employees and we made the increase. We have just contracted for twenty-five new cars of the very latest pattern for the Dodge street line and we expect in the spring to complete a line to the southwest part of the city. We do not consider everything we can do for the public good service and the best equipment and we do not believe that the people have any right to cripple our efficiency by reducing our income."
Mr. Davis said that he did not want to be compelled to ask for a physical valuation on the Omaha street railway. He thought the complaint filed by himself was sufficient, but if he had to do it he would call for a physical valuation and would show that the company was bonded greater per mile than any other street railway in the world.
In closing the hearing Mr. Webster said that Mr. Davis did not represent the people of Omaha in this matter. "Are the people of Omaha represented here by anybody?" asked the attorney as he looked around the room and saw nobody but Mr. Davis contesting for the new rate. "Are the people of Omaha here?" No. And with the statement that the company would challenge the right of the city to reduce rates, he closed his argument.

Auditor Howard Back from Missouri
(From a Staff Correspondent.)
LINCOLN, Nov. 22.—(Special Telegram.)—Auditor Howard returned this morning from Kansas City, where he was called to act in an advisory way with the insurance commission of Missouri in the matter of merging the Pacific Insurance company with the Pioneer Insurance company. Both companies are large stock companies and their merger was an important one.
While there he attended the nineteenth annual banquet of the Kansas City Commercial club and was present when Secretary of the Navy Daniels was entertained.
Union Dedicates New School Building
UNION, Neb., Nov. 22.—(Special Telegram.)—The new school building in this village was dedicated with appropriate exercises today. Prof. E. E. York, principal of the school, was master of ceremonies and State Superintendent J. E. Delsell delivered the address. William Balfour, an aged violinist, assisted with the program.

SEARCH FOR BODY OF MAN IN COVERED CANAL
ATLANTIC CITY, N. J., Nov. 22.—A hundred men today searched for the body of Edgely Bowers, 21 years old, who last night was drawn into the covered drainage canal that parallels the western side of the city from the inlet to Chelsea.
Long after he was drawn into the big conduit Bowers' cries were heard and men in boats risked their lives by entering the canal in the hope of reaching him alive. After an all-night search hope was given up that he would be saved. Bowers fell overboard at the intake of the canal and was swept into it by the receding tide.

SPEDING U. S. MAIL CARS KILL MANY PEDESTRIANS
NEW YORK, Nov. 22.—The right of the United States government to operate its mail trucks in city streets regardless of speed restrictions that may be prescribed by the board of alderman, was defended today by Joseph Stewart, second assistant postmaster general, before the aldermanic committee appointed to consider an ordinance withdrawing the mail trucks from the class of vehicles now exempt from speed control. Fourteen persons have been killed here this year by mail carrying automobiles.

HOW WOULD YOU LIKE TO RAID THIS JOINT?
CALCUTTA, Nov. 22.—A police raid on a suspected house in Calcutta today led to the arrest of four men and the discovery of a bomb factory. A quantity of correspondence found in the building is believed to be a clue to the inner circles of anarchist conspiracy, which resulted in many recent outrages, including the attempt to kill the viceroy with a bomb at Delhi last December.

Agents for Brewers Fined at Mason City
MASON CITY, Ia., Nov. 22.—(Special.)—Three of the four representatives of the brewers were found guilty of soliciting and selling liquor in Mason City. A. R. Noonan and R. A. Kruger were each fined \$5, and James Stevenson, who seemed to be a minor offender, was fined \$3. J. C. Darrow, cousin of Clarence R. Darrow of Chicago, the labor defender, was found not guilty.
These men were tried before Mayor John Stanton and their act was violating a city ordinance of soliciting without license. An appeal was taken to the district court. The attorneys for the defendants did not attack the validity of the ordinance, as was expected. The appeal bond was fixed at \$200 for each of the defendants.
Eighteen witnesses were examined, in all and considerable damaging evidence was secured against several other representatives of breweries who were not in custody, and whom the police are now trying to locate. The citizens interested in the prosecution of this case are satisfied that this procedure will have a salutary effect.

WOMAN'S BLOODY CLOTHING FOUND IN CAR OF LUMBER
CHICAGO, Nov. 22.—Indications that a murder may have been committed were discovered at Aurora today when a carload of lumber from Washington was being unloaded. Workmen found a woman's bloodstained undershirt, a school reader with the inscription "Elsie Helva Day, Springfield, Ore.," and an empty revolver. Blood was spattered about the car. The school book, a Huss' German reader, also bore the name, Dr. H. A. Day, Colville, Wash.
The car was shipped from South Bend, Wash., September 25, by the South Bend Mills and Transportation company. It passed through Springfield, Ore., a day or two later.
The Aurora police have telegraphed the chiefs of police of Colville, Wash., and Springfield, Ore.
Other names in the book, apparently friends of the owner, were: Charles Mantz, Colville, Wash.; Alfred Lover, Des Moines, Ia.; Alfred Love, Spokane,

Garnett Surprises Burglars at Work; Lands Them in Jail
After surprising two burglars about to begin operation in the house where he lives, H. Garnett, 1926 Georgia avenue, held the men at the point of a gun while he telephoned headquarters for assistance. Garnett, who occupies rooms on the first floor of the boarding house run by Mrs. E. A. Steinbeck, was preparing for bed about 10 o'clock when he heard men moving up the stairway just outside his door.
One of the men at Garnett's dictation switched on the electric lights. Still covering them with his gun, he backed to the telephone in the hall and telephoned the police.
Officers Puzanowski, Armstrong, Buford, Woods and Rooney were dispatched to the scene where they entered the house

Moving Pictures on Lincoln Highway
A battery of moving picture men came to the city from the west last night and early this morning go east, en route to New York. The members of the party started from San Francisco two months ago and in automobiles have traveled by easy stages across the country, making moving pictures of scenes on and along the Lincoln highway. They will continue their work at least as far as Chicago. The pictures made by the Lincoln Highway boosters will be shown in the moving picture theaters of the country for the purpose of advertising the route.

Take Salts if Your Back Hurts Says Drugs Excite the Kidneys
Salts harmless to flush Kidneys and neutralize uric acid, thus ending Bladder trouble.
When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 800 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.
This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness. Mad Salts is inexpensive; cannot injure and makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, no doubt you will wonder what became of your kidney trouble and backache.—Advertisement.
