ACTRESS COMMITS SUICIDE IN PHILADELPHIA HOTEL

PHILADELPHIA, Nov. 25.—Maida Dupree, a vaudeville actress, who registered at a hotel as "Betty Daily" of New York, committed suicide last night by taking poison, after she had left a note addressed to George Le Maire, an actor, to call up the room on the telephone. The authorities are of the opinion she was the daughter of a New York physician.

Le Maire told the police he met the girl seven months ago in a music hall in London. Among the girl's effects was jewelry valued at about \$2,000 and two pawn tickets for jewelry pledged in New York for \$1,575.

PARTY CONFERENCE ON BILL

Will Attempt to Unite Democratic Leaders Behind Measure.

HITCHCOCK FOR AGREEMENT

Owen Announces He Will Ask Senate to Work Until Six O'clock Each Night and Hurry Money Legislation.

WASHINGTON, Nov. 25.—The currency system took an unexpected turn in the senate today when democratic leaders decided to summon a party conference at once to dispose of the points of difference and to attempt to unite party members behind a bill that would have the support of President Wilson.

The conference will begin at 11 o'clock tomorrow. It was said by democratic managers tonight that its conclusions would not be binding, but that it was expected the democrats would be able to agree upon vital features of the bill and unite upon amendments to the pending bill which could be accepted by the president.

The second day's debate upon the big reform measure was notable for the absence of any show of ill feeling between the advocates of the different currency plans represented by the Owen and Hitchcock bills. Senator Hitchcock held the senate for more than an hour with his speech in support of the bill agreed upon by himself and the five republicans of the senate committee.

Remarks of Hitchcock.

His remarks were characterized by recognition of the efforts of the president, the house and the democratic wing of the senate committee and expressed the hope that the senate would find it possible to unite upon a satisfactory form of the currency bill.

The decision to bring democrats together for a party conference was the result of talks between the president and party leaders in the senate. It was determined that before the debate proceeded further members of the party should discuss the two bills behind closed doors and reach as full an agreement as possible upon the features of the legislation which split the senate committee.

Senator Owen announced early in the day that he would ask the senate to work until 6 o'clock each night and to consider the currency measure at all times when special orders did not prevent.

Senator Shafroth, one of the democratic committee members who helped in the preparation of the Owen bill, followed Senator Hitchcock with a comprehensive explanation of the problems confronted in trying to change the currency system of the country and an endorsement of the principles of the Owen bill.

Attacks Interlocking Directorates.

He insisted that less than eight regional banks would leave the country without adequate protection in case of panic, because of the inability of remote country banks to get money quickly from the reserve banks. The senator attacked interlocking directorates and large combinations of banks with power to deny or restrict credit for worthy enterprises.

Senator Shafroth criticized what he termed the central bank tendency in the Hitchcock amendments.

"France, Germany, Belgium, Holland and England," he said, "have central banks, but they are within a few hours' travel of all parts of the territory they serve. With but four regional banks in this country the southern banker would have to go 1,000 or 1,500 miles to secure accommodation. The situation would obtain in all parts of the country."

The machine gun platoon was to reinforce Troop D, Thirtieth cavalry, at the international bridge. Troop C being stationed at the El Paso foundry. Troop L, Thirtieth cavalry, commanded by Captain W. H. Clephton, en route from Nora, N. M., was to be stationed at the El Paso smelter.

(From a Staff Correspondent.)
 DES MOINES, Ia., Nov. 25.—(Special Telegram.)—Judge Smith McPherson of the federal court today notified the attorney general at Washington of the death at Excelsior Springs of Frank Clark, United States marshal for the southern Iowa district, and asked for instructions. He was urged immediately to make an appointment of a temporary marshal, but declined to do so unless instructed from Washington. He announced he would prefer the president make the appointment at once.

Assessor to Tax Shares.

Shellenberger Case Presented to Jury; Confession to Stand

AUBURN, Neb., Nov. 25.—(Special Telegram.)—The taking of evidence in the case of the state against Fuller Shellenberger commenced this morning. In the opening statement to the jury counsel for defense attempted to tell about the alleged confession of Shellenberger of having been associated with Ed Neal in the murder of the Jones family in Douglas county over twenty years ago, but the same was excluded by the court at that time upon the objection by counsel for the state.

The state proceeded to show the murder of Julian Bahaud and surrounding circumstances. The chief witness was S. A. Grubb, sheriff from Burlington, Kan., where Shellenberger suffered a sunstroke and believing he was about to die made a confession to Grubb and later to Sheriff Jones of Nemaha county, Nebraska. Sheriff Jones upon being called to the stand related in detail the story of the murder as given him in the confession of Shellenberger and the part he played in it.

The testimony of Sheriff Jones also showed that one Frank Gibbs struck the killing Shellenberger remained outside the door on watch for passerby. It was also shown that the old man Julian was dead when Shellenberger helped carry him to the bed where he was found, and that Kopt cut his hand while opening the tin box.

T. J. Mahoney, who was county attorney at the time of the Jones murder in Douglas county, testified in regard to Shellenberger's confession and that he was discharged at that time.

R. C. Smith, clerk of the district court for Douglas county, and Henry D. Hayes, United States deputy marshal, who was chief of detectives at the time of the Jones murder, were called to corroborate the testimony of Mahoney. This testimony was taken on behalf of the defendant in the absence of the jury, and it was determined to be admissible, and will be read to them as a deposition.

Henry Lavigne, a farmer residing southeast of Julian and who employed Shellenberger as a farm hand at the time of the murder, was called to the stand and testified to the absence of Shellenberger on the evening of the murder, but that he was at work next morning. His testimony was corroborative of Shellenberger's confession as related by Sheriff Jones. The court house was filled to overflowing.

The state will rest early tomorrow. It is not expected that the defense will take much time with its case.

EAGLE CAPTURED ALIVE BY MASON CITY HUNTERS

MAON CITY, Ia., Nov. 25.—(Special.)—Benny Daily and J. Marston were fortunate enough to capture a big American eagle. They were in the vicinity of Fort Le and were hunting rabbits. They heard a flutter in the underbrush and discovered the big bird. The brush was so dense that the big bird found it impossible to use his wings. The two men made an attack and were quite badly bitten and scratched, but were able to secure the bird without injuring it in the least. The handsome specimen will be presented to the Eagle lodge of this city.

THEN and NOW

HOW FAMILIAR to most of us is the custom of never entirely emptying our bottle or pitcher of milk or cream. WHY? Because under the old obsolete methods of handling milk and cream we were taught that all milk—good as well as bad, must have dirt or sediment in the bottom.

HOW DIFFERENT are the methods of the up-to-date, scientific milk dealers—the last drop of milk in the bottom of the bottle as good as the first—no sediment.

DIRT and SEDIMENT mean FILTH, many bacteria and disease germs. Therefore, to be safe, you should buy the cleanest milk in the city—ALAMITO PASTEURIZED MILK, without sediment and disease bacteria.

Your Kidneys Are to Blame

Thousands of men and women are unwell and the result of the kidneys failing to filter the blood properly. The dangerous feature of kidney disease consists in its subtle and elusive character, and so insidious are its ravages that many victims do not suspect its existence until the advanced stages have been reached. This is not strange when we consider that the complicated and delicate structure of the kidneys is poorly supplied with sensitive nerves. As the function of the kidneys is to remove impurities, they are very susceptible to disease, and any disorder affecting them is dangerous, as it causes impure matter to be retained in the blood and affects the whole system. By restoring the kidneys and liver to health and activity, Warner's Safe Kidney and Liver Remedy enables these organs to properly perform their functions and free the blood from urinary and biliary poisons. The experience of thirty-six years has demonstrated the fact that it acts specifically upon the kidneys and liver in such a manner that it establishes a healthy condition of these vital organs and it has therefore become a standard remedy for kidney and liver diseases.

As sold by all druggists, or we will send you a free sample if you address Warner's Safe Remedies Co., Dept. 522, Rochester, N. Y.
