THE tango continues in popularity in Omaha, and even the grandfathers and grandmothers are now taking lessons. No social or business affair, no matter how important, is allowed to interfere with the dancing lessons.

But Chicago is ahead of us for enthusiasm. Many innovations start in Chicago, and the latest is a special train from Chicago to New Orleans, with a special car arranged for tangoing. This special is to take the Chicago guests to the Mardi Gras in February. There will be compartment cars and one baggage car is to be converted into an up-to-date ball room. It seems to me unless they have rubber soles it is going to be both strenuous and dangerous.

If the Tango special proves successful and popular, we are wondering if the next luxury on the trains de luxe going across the continent will be the "Tango Limited."

TO GRADE NEW ADDITIONS

Real Estate Exchange to Ask Ordinance from City Council.

MAKE LOTS MORE VALUABLE

Report Says that it is a Protection the Buyer on the Installation of His Purchase.

The city council is to be approached by the Real Estate exchange with a recommendation that ordinances be passed providing that the city shall accept newly platted additions only after the streets and alleys have been brought to a grade approved by the city. The report of the city planning and public committees of the Real Estate exchange acting jointly was adopted at the meeting of the board of directors of the exchange at the home of George T. Morton. It recommended that something be done to make the lots in new plats more valuable to the city in general and to the purchaser by providing these precautions. It stated that most of the people who buy lots on newly platted ground on the monthly payment plan do not understand the grading system in the cities because they are a class of buyers that do not have the discrimination that a cash buyer is likely to have. It stated that it is unfair to the purchaser to sell them lots on a plan where the grading is all to be done in the future, no one knowing just here and how.

The city planning committee was delegated to confer with the city commission with regard to working out a comprehensive scheme of grading future mistakes in platting of new additions that will afterward be spoiled by the grading that must be done on them when the time comes.

Walking Sticks and Monocles Are Now Being Worn Here

Swagger sticks for women and large ivory and gold cigarette holders for men are among the latest offerings of holiday gift goods in Omaha stores. Several local firms have put such goods in stock recently and say they have sold a few to the ultra-fashionables. Monocles and cigarette cases for women are also offered, but dealers predict that none of these goods will be used generally till next season.

The monocle fad has struck the Central High school and the upper grade schools with full force, according to dealers in cheaper grades of jewelry. Hundreds of the English lenses have been sold to public school pupils, who wear them just as a joke. Teachers say they would oppose their use during school hours, as the practice would interfere with study, but that very few of the freak glasses have appeared in school rooms.

Rheumatism

A Home Cure Given by One Who Had It

In the spring of 1912 I was attacked by Malarial and Inflammatory Rheumatism. I suffered so badly that I had to quit my work and could not get on my feet. I tried many remedies, but none did me any good. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number of my friends who were similarly afflicted and even bedridden with Rheumatism, and it effected a cure in every case.

Not Many Farmers Among Immigrants During Last Year

The Burlington industrial department has just concluded the compilation of figures on immigration to the United States during the year ending June 30 last. The compilation takes into consideration all of the ports of entry on both coasts and along the British northwest and Canadian lines. It shows that during the year the number of foreigners who came to the United States to reside aggregated 1,187,000.

In the number of immigrants, the Italians lead, with 274,000. Poles are next, numbering 174,000. There were 101,000 Hebrews and 51,000 Russians, the remainder of the 1,187,000 coming from thirty or forty different countries.

Of the foreigners who came the facts and figures relative to their destination indicate that they stopped in the large cities and the most of them in the east, for New York got 236,000; Pennsylvania, 182,000; Massachusetts, 101,000; Illinois, 107,000; and New Jersey, 81,000.

That but a comparatively small number of the foreigners came with the intention of taking up agricultural pursuits is indicated by the small number who came to Nebraska and Iowa. The number of immigrants booked to Iowa was 5,600 and to Nebraska 6,366.

SOME TAXPAYERS HAVE REAL OCCASION FOR THANKS

Thanksgiving for taxes, which will not be collected because of the tornado, is being offered by a number of Omaha people. Through the kindness of Deputi assessors many families whose homes were touched by the tornado were not canvassed and reported for county personal taxes, although they did not suffer total losses from the windstorm and were really subject to pay at least a part of their former assessment. Some citizens, who suffered only a partial loss, received no November card notice of county personal taxes due. For this leniency on the part of county employees thanksgiving has a real and personal meaning for the lucky ones.

Bail Reduction and Delayed Trial Refused Brantley

A petition to reduce the bond of Dr. E. D. Brantley, held at the county jail pending trial on a charge of using the mails to defraud, from \$5,000 to \$2,000 was denied by Judge Page Morris when it was presented in the United States district court by Arthur F. Mullen, attorney for the defendant. A motion for a postponement of Brantley's trial, which will begin December 8, was also denied.

Brantley was named in a joint indictment returned by the September grand jury against him, X. Y. Wittman and the woman who posed as Wittman's wife. The alleged swindling was in connection with the operations of the Electro-Oxygen company, said to have been headed by Wittman, and which had offices here last spring.

We want small advertising accounts

Some firms have the notion that we only want the accounts of large advertisers. They are mistaken. Some also think that spending from \$25 to \$75 a month for advertising will not bring results. We can point out Bee advertisers who have made a success with such appropriations.

We take good care of our big advertisers. Most of them, however, have competent advertising managers and work out their own problems.

We give special attention to small advertisers. We have men competent to make their plans and write copy and designers and engravers, all in our own establishment.

Let us show you what can be done with a small appropriation.

The advertising of Drexel Shoe Co., Beaton Drug Co., Alamito Dairy, Drescher Bros., Pantorium and Kimball Laundry have made a success within above figures. If they can do it, so can you.
