

CORROBORATES THE DEFENSE

Witnesses Again Tell of Gard's Interest in Bromes and Taylor.

FOREMAN OF JURY ON STAND

Hamilton Tells of Efforts of Juror Who Held Out for Taylor to Assist in Bringing Over to the Others.

Witnesses on the stand in the contempt hearing before Judge Sears of the district court Friday corroborated testimony introduced by the defense Wednesday, impeaching the veracity of Wesley Gard, whose evidence is intended to bring about a new trial of Cadet Taylor's libel suit against The Bee, and telling of Gard's interest in Bromes & Bromes, lawyers, and in a verdict for Taylor.

Harold Hamilton, foreman of the jury which heard the evidence in the libel case, who has known H. C. Bromes, the lawyer, for years, testified that Gard, the juror who held out for nine hours for a verdict for Taylor, asked him if he didn't know Bromes, sought his aid in "bringing over" the other jurors to Taylor, and told him it would be worth \$500 to him if a verdict for \$5,000 for Taylor was returned.

Hamilton, who is proprietor of the Wellington hotel, 1515 Yarnam street, testified that he had been singled out by Gard for conversations practically every day of the libel trial. He said he in turn told Gard that if he had a serious case in court he would want Bromes to be his lawyer. Hamilton became acquainted with Bromes, he said, while conducting a hotel in the Black Hills. Bromes was attorney for Cadet Taylor in the suit against The Bee and in an affidavit prepared in Bromes' office Gard charges that Charles Belangee, a barber, offered him money to vote for "The Bee Publishing company."

Knew Bromes Well.

"Mr. Bromes knows you well," was Gard's expression, according to the testimony. Hamilton was on the witness stand an hour and was questioned in great detail by Judge Baker, attorney for Belangee, and County Attorney Magney. He said Gard told him he could see no possibility of a verdict for The Bee; that he had confidence in Bromes and that if the verdict was for Taylor he didn't care for his job with the street railway company.

Gard's story about what he said was an offer by Hamilton to take him "down to Mr. Nash" to get him a job was dealt with by Hamilton. He testified this conversation did not occur in the jury room, as Gard said, but before the case went to the jury; that Gard said he intended to try to get a better job than the one he had had for nine years; that Hamilton told him he should get influential men whom he might know to intercede for him; that Gard asked if Hamilton knew "Mr. Nash," and that Hamilton answered that he had a slight acquaintance with Mr. Nash. Gard, on the stand, had testified that Hamilton talked of his own and Gard's children and went and said, "What will become of them?" When asked about this, Hamilton said: "It has been twenty-six years to the best of my recollection since I went and that was when my father died."

Used Word Barn.

It developed that Hamilton and Robert Sweeney did the swearing in the jury room which Gard said was intended to terrify him. Hamilton, whose language and manner on the stand were polite and polished, testified that when it looked as though he would have to stay in the jury room all night, he used the word "darn." Sweeney, who is 69 years old and has a large white mustache, said he guessed he "did about all the swearing" and that he said "damn" more than once.

Sweeney said that Gard had talked with him but little during the progress of the trial, but that he had seen and overheard him talking to other jurors. He said he used a swear word when Gard talked about bribery in the jury

Hooray! Blood Free of Impurities

Eczema Gone! Acne, Tetter, Rash, Pimples, Carbuncles, Boils—Banished!

It is certainly remarkable how quickly the action of S. S. S., the famous blood purifier, shows itself in the skin. There is one ingredient in S. S. S. which peculiarly stimulates cellular or glandular activity to select from the blood, or from the fine network of blood vessels in the skin, those elements which it requires for regeneration.

Thus pimples, acne, eczema, lupus, or any other blood condition that attacks the skin or seeks an outlet through the skin is met with the antidotal effect of S. S. S.

This is why skin troubles vanish so readily and why they do not return. Under the influence of S. S. S. this fine network of blood vessels in the skin is constantly selected from the blood the nutrition required for healthy tissue, and the cause of disease is just as constantly being removed, scattered and rendered harmless.

TAKES MONEY FOR BIG WARS

Without Loans Nations Must Quit Battles, Says Bryant.

INTERFERENCE WOULD AID FEW. World Peace Mover Points Out that Mexican Intervention Would Make Money for Some Americans.

"To loan Japan a single dollar to go to war with the United States would be equivalent to giving it that dollar, and financiers do not conduct their business that way." This was a statement made by Albert G. Bryant of the World Peace Foundation in his address on the peace movement at the Commercial club at noon. He pointed out that Japan and Russia very conveniently stopped fighting the moment the other powers would negotiate no further war loans with them.

Touching the Mexican situation, he declared if intervention should ever take place, he hoped that when an American soldier went down there he would know all the facts and know just who he was fighting for. He spoke of a sensational Chicago newspaper in which a few days ago appeared an article saying that the European nations were going to force the United States to intervene in the Mexican situation. "Also," he said, "that paper published a map of Mexico with a bracketing array of cannons pointing their noses over the border at the United States. Now, the man who directed the publication of that article and the printing of that picture owns \$3,000,000 worth of property in Mexico. And he knows that the moment the American soldiers should go into Mexico that property would be worth \$20 per acre where it was worth \$2 or \$3 now. And if a man ever shoulders a gun to cross the Rio Grande into Mexico I want him to know these things before he goes."

The speaker outlined the peace program, saying that it calls for a conference of the brightest minds of all nations to draft an international code that shall govern the nations as the statutes of a state govern a state. He would have the code enforced by a strong and efficient system of international police.

BURLINGTON ESTIMATES NEBRASKA'S CORN CROP

To the Burlington home-seeking department of the students of agriculture of the University of Nebraska have sent a compilation of figures on the corn crop of the state during last season. The figures compiled by the agricultural experts show an aggregate of 90,000,000 bushels of corn raised in Nebraska during 1912. Of this the portion of the state south of the Platte raised 22,386,000 and the section north 67,614,000 bushels. The corn south of the Platte is figured out at 5.7 and that north 19 bushels per acre.

More Troops Are to Be Moved to the Mexican Border

Uncle Sam is taking steps looking toward the movement to the Mexican border of the few remaining regiments and companies now stationed at the central and western posts.

The government is now inviting bids for the movement of soldiers and equipment from Fort Logan H. Hoot, Russell and Logan to El Paso, Tex. Bids provide for assembling at Fort Riley and the movement from there on to El Paso, Army officers, while they will not venture an opinion as to what the latest plan means, don't hesitate to say that it begins to look as if the government intended to be prepared in the event it should become necessary to have a brush with Mexico.
