

GRAIN AND PRODUCE MARKET

Argentine Wheat Reports Have Dampening Effect on Pit.

MUCH STEADIER CORN FEELING

Unfavorable Weather Throughout the Yellow Corn Belt Makes December Option Hold Up Its Head.

One of the best authorities on crop conditions and crop promise in the southern hemisphere estimates that the Argentine exportable surplus of 10,000,000 bushels raised in Argentina this year. The estimate on the amount of wheat Argentina will be made in 1914 is 10,000,000 bushels, or about 100,000,000 bushels less than the estimate for 1913.

The volume of business in wheat was moderate yesterday. The market was quiet on the part of speculators with profits to secure them without further advance. The losses would have been smaller had the report come from Argentina of unfavorable weather, coupled with lighter world shipments than expected, and of reports from the United States of improved cash demand there for choice grades of wheat. Kansas City reported a decrease of 100,000 bushels in wheat for the week for the week and the opinion was ventured that the Kansas shipments will continue small, as that state only raised 7,000,000 bushels this year, according to Secretary Coburn. It was reported that buyers here and sellers at Chicago were in a state of uncertainty which has existed in the corn belt for several days, with a promise of more of it, caused a state of feeling for the week, which was a shade better, while the deferred months were a trifle lower. The highest prices for the week were for the December contracts, which were held by shorts who were buyers.

Cash was unchanged to 1c lower. Cash corn was unchanged to 1c lower. Cash oats were 1/2c lower. Clearances of wheat and flour were 60,000 bu. and 10,000 bu., respectively. At Liverpool, the market was quiet and corn 3/4c lower. Primary wheat receipts were 1,841,000 bu. and shipments of 1,841,000 bu. last year. Primary corn receipts were 47,000 bu. and shipments of 47,000 bu. against receipts of 75,000 bu. and shipments of 75,000 bu. last year.

Primary wheat receipts were 1,841,000 bu. and shipments of 1,841,000 bu. last year. Primary corn receipts were 47,000 bu. and shipments of 47,000 bu. against receipts of 75,000 bu. and shipments of 75,000 bu. last year.

OMAHA GENERAL MARKET.

BUTTER—No. 1, 1-lb. cartons, 30c; No. 1, 5-lb. tubs, 21c. PRODUCE—Butter, 10c; cheese, 10c; eggs, 10c.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Nov. 29.—Clearing weather in Argentina, much desired for the harvest, had been reported, and the price of wheat, the market closed heavy, 1/2c to 3/4c under last night. Corn advanced 1/4c to 1/2c, and oats 1/4c to 1/2c. In provisions the outcome varied from 1/2c to 1c decline to advance.

Although there is a prospect that wheat deliveries here Monday will be light, many small holders appeared anxious to unload, and the price for doing so was found not only in the improved harvest conditions for Argentina, but also in the fact that the new crop was being freely offered in Europe. Besides continued moisture over the winter crop in the United States was regarded as highly favorable to growth. Despite large shipments from Lake Superior, the stock at western terminal ports were said to be of unusual bulk for a time so near the close of navigation. In this connection a great deal of interest was taken in the fact that one of the largest grain companies here confirmed having leased the grain elevator at Duluth, Minn., Harbor, Ontario. The lease was said to be the first step toward the invasion of the Duluth market by the Canadian scale by the grain in those of the United States.

It suffered from a selling drive by alert bears selling on the circumstance that larger lots were trying to let go of their holdings, and the market was all of an early advance, due to unsettled weather, was wiped out and there was a decided further decline. Liquidating sales by long bearers next week. The big store of grain and oil at the terminal, however, discouraged the bulls. Realizing, hedging and short selling combined to make a weak market. A strong bearish current at the yards. Packers reported the fresh meat trade poor.

London, Nov. 29.—Wool.

LONDON, Nov. 29.—Wool.—There were 3,778 bales offered at the wool market today. Competition was active and prices advanced. American and Australian light wools. Next week 65,000 bales will be offered.

NEW YORK STOCK MARKET

Continues to Move Listlessly, with Small Business Volume.

SLIGHT SCALING DOWN SEEN

Only Movements of Importance Among Specialties—Goodrich Preferred Most conspicuous.

NEW YORK, Nov. 29.—Conditions were virtually unchanged today in the stock market, which continued to move listlessly with small business volume. Representative stocks barely moved, although there was a slight scaling down of prices, which gave the market an eastward drift. The only movements of importance were among specialties, the number of which were few. The most conspicuous was Goodrich preferred, which fell five points to 75, a new low record. Subsequently it recovered and closed at 80. The common stock dropped nearly two points to 13, also a new low record. Earlier in the year the preferred stock sold at 100 and the common at 85. The pronounced weakness of these shares gave rise to rumors that the dividend on the preferred might be reduced, but the rumor was denied authoritatively. The Can issue, Rumely and various other industrials were heavy in the railroad and Missouri Pacific was weakest, equaling its low record of the year at 24.

The week's exceptionally heavy outward movement of currency to Canada, and the Pacific coast was chiefly responsible for the poor showing made in the bank statements. Predictions of a cash shortage in the latter part of the year, and the loss of \$20,000,000 were realized, the amount reaching nearly \$10,000,000. Loans were cut down, and the United States banks deposits of nearly \$20,000,000 did not reduce reserve requirements sufficiently to prevent the wiping out of the surplus. The result was a sharp decline in the bank statements, and the loss of \$20,000,000 was realized, the amount reaching nearly \$10,000,000. Loans were cut down, and the United States banks deposits of nearly \$20,000,000 did not reduce reserve requirements sufficiently to prevent the wiping out of the surplus.

Trade reviews showed retrenchment and conservatism in business. Canadian Pacific reported a decline in earnings for October of \$51,000, but Rock Island showed a decline of \$23,000. Bonds were quiet. Total sales, par value, \$24,000,000. United States bonds were unchanged on call on the week.

London Stock Market.

LONDON, Nov. 29.—American securities opened steady and a fraction higher, but later eased off under realizing and closed 1/4c to 1/2c below parity.

CHICAGO LIVE STOCK MARKET

Cattle Steady—Hogs Strong to Five Cents Higher.
