

Bee's Contest for Free Panama Trips Growing Warmer

A "Same-Day Service" on Fog-Soaked Clothes

The Dismal, Draggly feel that YOU get, and the Wobbly, Unkempt, Unpressed Appearance your clothes take on after a rainy or foggy spell is immediately dispelled by OUR service.

Don't permit yourself to feel uncomfortable for a minute. If your clothes are looking all the worse because of the damp weather, send them to us and we will clean 'em, press 'em and have 'em back to you the SAME DAY you send 'em to us. (We pay express charges one way on out-of-town shipments amounting to \$3 or over.)

Getting the Habit!

The contestants and their friends are getting the habit of saving

Kimball Laundry Receipts

It's a mighty good habit both for the chances of winning a trip to the Exposition at San Francisco and for the life of the clothes which are sent here. The best possible means known to modern laundry systems are employed by us to safeguard our work.

PANAMA EXPOSITION TO HAVE MANY TRANSPLANTED TREES

The work of transplanting trees from the nurseries to the Panama-Pacific International exposition grounds has been commenced. The first to be planted were some acacias, pines and cypress, which were put in the large grassy park on the esplanade of the Marine, abreast of the Palace of Mines and Metallurgy. The work of transplanting will be prosecuted actively.

Everybody Wants Concessions in 1915

More than 5,000 applications have been received for amusement and other concessions at the Panama-Pacific exposition in 1915. One hundred accepted to date involve a total expenditure of about \$7,000,000. More than 7,000 people will be employed in the concessions district, and the total amount to be invested in amusements in 1915 will probably aggregate \$12,000,000. Among the most important concessions will be "The Grand Canyon of the Colorado," a working model of the Panama canal; naval submarines in operation; "Creation," based on the first chapter of Genesis; "Toyland," a reproduction of the famous city of Nuremberg, Germany; "Fire and Sword," or the fall of Adrianople; an ice palace; "Forty-Niners' Camp," "Mohammed's Mountain," a Chinese city, and others.

Notes of the Panama Exposition. The many colored prisms that will be used in the novel and striking schemes of night illumination of the Panama-Pacific exhibit palaces are of a fine cut glass, made in Austria by a process not followed elsewhere. The prisms, known as Jewels, are patiently tooled by hand in the homes of the artisans. The road systems of the Panama-Pacific International exposition will form a part of an artistic color scheme. A material that will be widely used will be the "red rock" indigenous to California, the rich tint of which will lessen the glare and add to the warmth and color of the grounds.

The yacht harbor on the waterfront of the Panama-Pacific International exposition is about five acres in area and has a fine and convenient docking facilities that coastwise steamers and other craft, some times six or seven at a time, use it daily, discharging building material.

An imitation of the famous Travertine marble, from which the palaces of the Roman emperors were built, is being used to make the statuary and the covering of the exhibit palaces at the Panama-Pacific International exposition. The composition is a gypsum, raiment and of unglazing color; in tint it is a faint ivory yellow and is as smooth and hard as marble. The exposition sculptors and their assistants have formed a social club, called the Travertine club, since they are the first sculptors to use the material for this purpose.
