Revenue and Outgo.

It is just ten years since Nebraska revised its revenue laws with a view to the more equitable distribution of tax burdens. In that time the tremendous improvement worked by that reform in our tax system has come to be accepted as a matter of course, while attention has been challenged to evils and abuses, both old and new, that call for further correction. It is not unreasonable that our revenue laws should have a thorough overhauling once in ten or a dozen years to make them accord with changing conditions. Regarded from that point the increasing discussion of problems of taxation are timely and appropriate. The movement of tax reform, however, should not stop there, but after embracing the collection of the revenue, it should also look to its expenditure. The income and outgo of the state, and its various subdivisions are complementary; improvement of the tax system strikes only half the problem.

#### Phoebe Couzins.

Thirty years ago Phoebe Couzins was one of the bright rising stars in the feminine firmament. She ranked among the leaders in the suffrage movement and was looked to eventually to take the place of Susan B. Anthony or Elizabeth Cady Stanton. In the great battle for the suffrage amendment then submitted in Nebrasks, Miss Couzins took a leading part on the platform, and won laurels and the accisim of her sisters though the cause was lost. The strange effects of the mutations of time find striking illustration in her case; for when she later became convinced of the futility of "votes for women," and let her voice be heard in protest, The ben, herself, was the first her former associates converted their praise into condemnation. The death of Miss Couzins, almost in want, recalls her brilliant, but sad, career, her remarkable intellectual talents, and more remarkable patience in her closing years of physical suffering.

Another thing I would like to vent my spleen on, and it is this: The frat usiness at the state university. I was up to the "Holy city" a few days ago and met some fellows that belonged to the frats and some that did not belong and my humble judgment is that the frat organizations as they are conducted in the state university are a disgrace to the state and the university.
