Agricultural Bureau Raises Average of Wheat Yield for Year.

PUT OUT TOO MANY SHORTS Corn Bears Are Facing a Condition

of Market that Will Make Them Cover at a Substantial Loss.

OMAHA, May 17, 1918.

According to advices from the agriculture bureau at Washington, a par of nineteen bushels per acre will be used in making up the June crop report compared with a par of 18.1 for May. A par of 18 bushels on acreage of 30,923,000 will indicate a winter wheat crop of 688,521,000 bushels, provided the condition is as high as that of the report which was issued this month. There has been very little wheat killed from any cause and the abandoned acreage is small. The present condition can hardly be surpassed present condition can hardly be surpassed and, as an old time cash handler put it resterday, a big spring wheat crop, such as was raised in list, together with the prespective where wheat crop, would be against the farmers of the United States instead of in their favor. An overproduction of any grain means much production of any grain means much lower prices and conditions favoring the

As was put by Charles E. Lewis, the dinneapolis grain man, yesterday, two-hirds of the wheat crop in the north-west the coming season would place the nerket conditions in the hands of farmers, and that the growers would be entitled to secure at least fair prices. Mr. Lewis said that an over-production in the northwest, with the hig crop promise in the southwest, would cause general said prenounced price setbacks in the entitle would.

and pronounced price setbacks in the entire world.

May wheat was particularly strong yesterday and it showed a gain of one cent for the day. This strength was the result of considerable affecting was the result of considerable affectings on the part of shorts and the fact that the offerings were held lightly made it necessary for those wanting that option to bid up for it. Cash wheat was he lower.

Conditions in the corn market showed that bears have put out more short corn than they are able to take care of. These conditions will, force them to cover at losses and it will doubtless make them more cautious on the selling side. While the cash sales yesterday were moderate at 185.00 hushels, there were indications of a renewal of eastern demand, as the grain which went forward at the opening of navigation has been fairly well absorbed and holders in the country are not inclined to sell their cash corn on any decline.

any decline.

Cash corn was light lower.

May outs were quite strong yesterday secause of small offerings, coupled with moderate demand. There was a big rade in outs, with a seneral rush to buy all options, which gave them an unasy feeling.

Cash outs were wichanged.

Clearances: Wheat and flour equal to 188,000 bushels; corn, 27,000 bushels; outs, 4,000 bushels; outs, 4,000 bushels.

1008.00 bushels; corn, 27,000 bushels; oata, 34,000 bushels.
Liverpool close: Wheat, 34,004 d lower; corn, 3d figher.

Primity wheat receipts were 464,000 bushels and shipments of 202,000 bushels and shipments of 58,000 bushels and shipments of 58,000 bushels hast year.

Primary corn receipts were 37,000 bushels and shipments 313,000 bushels and shipments of 400,000 bushels and shipments of 400,000 bushels last year.

Primary oats receipts were 480,000 bushels and shipments 651,000 bushels, against receipts of 400,000 bushels last year.

Features of the Trading and Closing

CHICAGO, May II.—Signs that power-ul interests were taking the best offer-ness on every dip caused by weak cables ave the wheat market today a decided

gave the wheat market today a decided rally.

The close was steady at prices varying from 4c under last night to \$c. Trading last night left corn off to a like amount, unchanged to \$c. Tigher and provisions with a gain of \$\frac{1}{2}\cdot to logithe.\$ Speculators, who had been figuring that some of the wheat at present in Chicago would be available for delivery on July contracts, believe that unless there is a general advance in new crop prices every bushel of old wheat here will be advanced to a considerable premium uver July or be entirely sold by July I. Definite settlement of the controversy that has lumpered exports to Great Britain tended further to discourage the wheat bears, who carly in the session seemed to have the whip hand owing to ideal weather in both winter and spring and winter crop territory.

The settlement was by agreement on neven-day drafts instead of sight. Beaboard clearances of wheat and flour today squalled 1,038,030 bushels: primary receipts of wheat were \$64,000 bushels; a year ago. 25,050 bushels.

Corn traders had the parrowest market of the week. Doubt as to the truth of talk of large receipts soon from the west prevented airy material sathacks. Shorts in oals covered and so wiped out the beartsh influence of showers in Illinois and Indians.

Provision prices were pushed higher. Actual transactions, though, were few.

NEW YORK STOCK MARKET Effects of Day's Trading on Quoted

Values is Slight. MOVEMENTS ARE IRREGULAR

Bank Statement Pully Bears Out Predictions of Substantial Gain in Cash-Exchanges and Deposits Small,

NEW YORK. May 17.—The effect of to-day's trading on quoted values of stocks was slight. Speculative interest was one from the market and the volume of buriness was barely sufficient to preserve the semblance of life in the dealing. The narrow movements of the leading stocks were irregular, with a lower tendency. After opening at a small decline, prices moved above yesterday's close, but later caused off again on the appearance of some selling orders. eased off again on the appearance of some selling orders.

A few stocks broke away from the list and moved wildly. Canadian Pacific was again under pressure and broke nearly 3 points. There was further pronounced weakness among the Rock Island and the St. Louis & San Francisco securities. No authoritative explanation was offered; of the weakness of these securities, declines among which ran from 1/2 to nearly 3 points. St. Louis & San Francisco common and accord preferred, Denver & Rio Grande oreferred, Baitimore & Ohio preferred and Scaboard preferred made new low records for the year.

Predictions of a substantial gain in cash by the banks as a result of the week's operations were fully borne out by the bank statement. Actual cash gain amounted to approximately \$4,000,000.

Exchanges and deposits were small and \$5,776,000 was added to the surplus reserve.

Mercantile agencies in their weekly reviews reported the continuance of a fairly good volume of general business with some conservatism in buying for the future influenced by prospective tariff

future influenced by prospective tarms changes.

The bond market held firm in view of the condition of special issues. Total sales, par value, \$730,000.

United States 2s and Panama 2s adadvanced 4s and United States 2s registered declined on call on the week.

Number of sales and leading quotations on stocks were as follows:

Cotton Goods Review.

NEW YORK, May 17.—The price movement in cotion goods is irregular, some cloths working to a lower basis preparatory to attracting the attention of jobbers, who are flow to place late business, and others working to a higher level after considerable contract business has been booked by converters and manufacturers of garments. The stocks of goods are unisutally low in first hands and the slow accumulations at mill centers account in a large part for the persistent maintenance of values in several directions.

Evaporated Apples and Dried Fruits NEW TORK, May R.—EVAPORATED APPLES—Market steadier; fancy. 546

STOCKERS AND FEEDERS.

STOCKERS AND FEEDERS.

MOGS—A fair sized supply showed up this morning, but the demand was lively from the outset and values registered an advance of fully 5 cents. The demand was not limited to any one grade of stuff; in fact, it seemed as though the inquiry was more eager on the close than at any other time. Shippers bought rather freely, some good lights selling as high as \$8.40. The bulk of the sales landed at \$8.2568.35, with \$8.30 the most popular price. Practically everything had been sold before \$0 clock.

The trade has been in fairly satisfactory shape all week. Owing to the sharp drop on Monday the net advance amounts to no more than a big nickel, but with the exception of the one day values have gone steadily upward. The demand has been extra good all week, and when the generous receipts are taken into consideration, the strong tone to the trade is still more noticeable. While the bulk is just about a nickel higher than last Saturday, tops are a flat dime higher. This is due largely to the improvement in the shipping demand.

Today's receipts totaled about 102 cars, or \$.764 head, bringing the total for the week up to 58,305. This is over \$.000 head larger than a week ago and more than 1.500 heavier than the corresponding week of Harding, who left Donohue, Ia., where he had been working, about two weeks ago to come to Davenport to testify in a "free love colony" case. Sixty Dollars Sent demand of conscience caused Arthur E. Anderson of Scuttle, Wash., to return \$60 to the Minneapolis postoffice, which he

week up to 68,306. This is over 8,000 larger than a week ago and more 1,500 heavier than the corresponding ek ago and more than n year mgo.

were largely on the fed Mexican order. For comparison it might be interesting to note that the majority of the Mexican grades, a week ago moved around \$8.50, while such kinds are now selling at a range of \$8.0093.50. A range of \$1.0093.50 strike Situation in Cincinanti Betook most of the shorn lambs last Friday as compared with a spread of \$8.0093.40 yand Control of Mayor.

yesterday.

As usual at this time of the year comparatively few muttons of any kind appeared among the receipts and buyers are not particularly anxious for anything in that line at current values. The few sales made during the week, however, included the decline noted above.

Refuses to Send Troops. NEW YORK, May 17 .- DRY GOODS-COLUMBUS, May 17 .- In a rebuilding quiet. Woolens and worsteds are pur-chased from hand to mouth. Production telegram to Mayor Hunt of Cincinnati, Governor Cox shortly after noon today at mill centers is being curtailed and this is having a material effect in limiting accumulations of merchandise. Yarns refused to call out the militia to quell disturbances to the Cincinnati street car strike. The telegram was in answer to a request made to the governor by the Cin-Witness in Davenport cinnati mayor that troops be ordered to

the scene. The governor declared that troops would not be called until the local authorities had exhausted their own resources. "In view of your having placed no policemen on the cars, we don't believe the statesubpoens for "one Frank Harding" to ment made that you have exhausted your resources, predicated on the facts.' said the governor's telegram. Mayor Hunt had wired the governor

earlier in the day: "There is an imperative need for troops. We have exhausted our resources." Governor Cox closed his telegram to the Cincinnati mayor by stating that when it had been demonstrated that the

Cincinnati authorities have exhausted

their strength in keeping order there will

be no temporizing on his part.

AGOOD INVESTM

Subject to prior sale, we are offering the small portion of our \$175,000 issue of first mortgage 6% gold bonds in denominations of \$100, \$500 and \$1,000, with one-half the amount of bonds subscribed to be given free in Common Stock. These bonds are certified to by the Commerce Trust Company of Kansas City, Mo. We are only capitalized at \$200,000, and the stock which we are giving free should be worth above par on completion of our plant. We have 1,520 acres of sait rights leased for 99 years, and guarantee a vein of 280 feet thick of rock salt under the entire acreage. The most modern plant in the world for mining and manufacturing lump, crushed rock, table and barrel sait is now under construction by the company at the junction of the Frigon and Missouri Pacific Railways, with Santa Fe connection at Lyons, Kansas. The demand for salt is not affected by fashions or seasons. Our bond and stock issues are small and not inflated. We believe our property to be worth fully a million dollars, thus making the security ample and our offering a high class investment. We have some of the most conservative bankers and business men in the west now associated with us. We are making and shipping approximately 500 barrels daily of barrel and table sait. The profits, if you will investigate, are highly satisfactory. Experienced men are in charge of every department in this company and high class references can be furnished for its officers. Every element of chance has been eliminated and we are offering you a certainty-not a prospect. Whether you are a large or small investor, send for complete details. Address the
