The Public Library

Just because the city authorities are contemplating the removal of the fire engine house from one corner to the next, bringing it half a block nearer to the public library, it is proposed to abandon the beautiful library building as if its usefulness were outlived. We confess that we would prefer to have the fire engine house a little farther away from the library, although many other possible neighbors might be more objectionable, and the pearness of the firemen has some compensating bles in the library against both fire

OMAHA, May 17.-To The Editor of The Bee: It is to be regretted that the in-fluential men of this city do not publicly voice approval of the attitude of those members of the charter committee who are trying to protect the people from crankism. The men on the committee who are standing firmly in opposition to the proposal to incorporate the principle of the initiative and referendum into the new charter are entitled to a lot more credit than they are receiving. There are a number of half-baked statesmen in this town who are trying to make of it, politically, a fools' paradise.

To be brief, let me cite the latest example of the supreme folly of the referendum system. I refer to the action of Attorney W. H. Boyd can lose more the late legislature on the question of umbrellas than any man in Cleveland. proposed removal of the state university Time after time he blossoms forth, buildings from the downtown site out to equipped with a highly ornate and ex- the state farm on the edge of Lincoln. ecedingly expensive umbrella and by the For months every member of the legistime evening comes there is nothing left lature had opportunities to view both sites; to talk to all the college men, to One rainy day last week Boyd appeared city officials, and to prominent citizens; incongruities uncovered at the same ond baseman and captain, to Peoria for at a downtown cafe for his luncheon and to hear arguments in committee and on ber that at 25 cents a thousand time. He placed the utterly impossible for voters at the baifor the pure-election registration If this is the moving idea behind Tony H. Lunia and Alma Brandt, Cari umbrella on the floor and planted both lot box to pass on the question of unibook; that is, if you vote in Omaha, the railroading of the bill, our demoJ. Erickson and Oka M. Hallburg, all of feet firmly upon it, to the hilarlous deversity location without having first peronally surveyed both sides. The legished his luncheon, he walked away and islature asks the voters to do an impossible thing. It will be exactly like a jury finding a verdict without having had an opportunity to hear the testimony. The melanchely feature of the case is that representatives of the people can in this way avoid their duty, and by resorting to a bunglesome process of effecting legislation, escape the censure which is so richly deserved.

J. B. HAYNES.

The Loan Shark Bill. OMAHA, May 18.-To the Editor of The Bee: Ever since the passage of the socalled "lean shark bill" by the legislature the loan men and pawnbrokerseighty-five in number-have been sitting up nights to evolve a scheme under which they can still do business and remain immune from the new law

Pailing in this, they decided to do the next best thing, namely, to pool together a large sum of money to employ one of the very best law firms in Omaha to fight the constitutionality of the new law. It is very evident that these loan men mean to leave no stone unturned, when we stop to consider that one of the members of this law firm has so distinguished himself as a constitutional lawyer that he has been appointed assistant to the attorney general of the United States.

Now, Mr. Loan Man, what do you desire to accomplish by having this law declared unconstitutional? If you have been conducting your business in conformity with the law as it was, you can now charge 2 per cent additional per year together with \$i inspection fee under the law just passed. Were you conducting your business

within the law prior to the passage of the new law? If so, you are benefited and have no cause for complaint. But you do complain and but for two reasons. namely, the new law provides that you must keep an accurate record of all loaus rower a card on which shall be written in link or typewritten or printed in English the name of the person, firm of corporation making such a loan, the smount of the loan, the amount of interest charged, the amount of expense charged and the time for which such charge is made; the date when the loan is made and the date when payable; and shall also give the borrower a receipt for each payment of principal or interest or any other charge made on the loan, and teries. Vancouver, Wash, is obliged to if any payment consists of principal and double up in the old one, late arrivals interest or any other charge, such a recelpt shall specify the amount of each.

The loan offices and pawnbrokers of the city of Omaha and those of the state of Nebruska refuse to give the borrower a receipt showing the amount paid on A cloud of gnats visited Washington the principal and the amount paid on the item. Anyone doing business with a loan shark knows very well that they seldom receive a receipt showing the amount paid on their loans; how much of the payment consisted of principal and the

amount received on the interest. Under the law as it existed before the assage of the bill in question the only penalty the loan sharks were subjected to was the forfeiture of their entire in-Feople who hesitated about picking flouts the pleadings of the apostic of for every business man who deserves cocktail," a liquid confection warranted terest. This risk they were willing to to do the business without the victim take, because the risk was so small in comparison to their chance of succeeding

in their charge of from 100 to 200 per cent | floor with the child. That was what ir-Interest. Under the law as it exists today the loan men charging a greater rate of interest than I per cent a mouth and a larger fee than \$1 for inspection is subected to forfeiture of his license; forfelture of interest; forfeiture of his principal, and in addition thereto, a fine of not less than \$50 nor more than \$500, or be imprisoned in the county fall not less than sixty days or not more than six nonths, or both such fine and imprisonent. As can be plainly seen, the object of this law is not to injure the loan men who are endeavoring to conduct their business within the law, but it is to put out of business the men who deliberately violate the law at every turn. The only purpose that these men can have in pool-

ality of the law as it stands today is in order that they may continue robbing the poor people of their hard earned dollars As in all other laws in which a reformation of evil practice is effected, it does not meet with the approval of the men whose unlawful business is being curbed. However, as in the most of these laws of reformation, when the loan men are finally whipped into line and required to observe the spirit and the letter of the law, they will be compelled to admit Its merit, for it not only protects the borrower, but the honest loaner as well. EDWARD SIMON,

ing together to attack the constitution-

#### TODAY.

If you have a gift to give, Just a simple little flower. Given in some darksome hour Has a wondrous magic power Has a wondrous magic power To cheer the heart.

If you have a smile to give, Give it now!

It may banish every trace
Of worry from a tired face,
And bring contentment in the place
Of discontent.

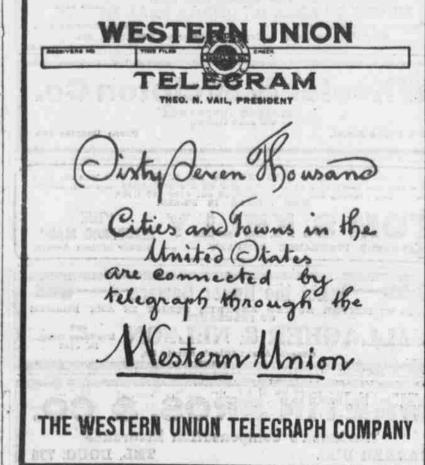

If you've loving words to speak,
Say them now!
While the ears are quick to hear
Words of comfort, words of cheer;
Speak them loudly! Never fear

If you've a kindly deed to do,
Do it now!
While a friend can understand
And rejoice. Don't stay the hand
Until the last grains of life's sand
Are running low.

Each one has but one life to live. Live it now!

Scatter love along the way,
Right and left, and day by day,
That blessings in the future may
Bloom for you.

-DAVID J. RITCHIE.

## Intelligible Answers to Questions

To the layman railroad business is technical. He does not understand its complications; he resents the "red tape"; tariffs, time tables, classifications and operation are puzzles. When imparting information to patrons Great Western employes never assume superiority, display impatience, or answer questions in technical terms.

Use the Great Western to St. Paul and Minneapolis. Night train leaves Omaha 8:10 p. m. and lands you in the Twin Cities when the new day begins. St. Paul 7:36 a. m.; Minneapolis 8:05 a. m. arrives St. Paul 7:20 p. m., Minneapolis 7:56 p. m. Pastest day service.
