WILSON IS URGED TO VETO SUNDRY CIVIL APPROPRIATION BILL

National Association of Manufacturers Object to the Clayton Amendment.

CONVENTION IS UNANIMOUS Prevents Use of Fund to Prosecute Labor Organizations.

KIRBY ROASTS LABOR UNIONS Head of Manufacturers Makes Annual Address.

LAWMAKERS CALLED COWARDS Says Federation Has Failed to Clear Itself of Status of Violence—Clayton Amendment is Denounced.

DETROIT, Mich., May 20.—The National Association of Manufacturers, assembled in convention here this afternoon, unanimously adopted and forwarded to President Wilson resolutions urging him to veto the sundry civil appropriation bill which has passed congress containing a provision preventing the use of public funds appropriated to enforce the Sherman act, for the prosecution of labor and agricultural organizations violating that statute.

The resolution was introduced by James Emery of Washington, general counsel for the Manufacturers' association. After Mr. Emery had assailed the bill for three-quarters of an hour the resolution was immediately adopted and telegraphed to Washington.

Kirby Roasts Labor Unions. Charging that organized labor has failed to clear itself of the "stains which violence and lawlessness have cast upon it," John Kirby, Jr., of Dayton, O., president of the association, in his annual report today, dwelt at length on present industrial and legislative tendencies and their effects upon manufacturers and employers. He referred in detail to the treatment of great corporations and the railroads and the attitude of manufacturers toward the tariff. He said in part:

"Some of the most momentous events of recent years that have transpired in the field of American industry is the tragedy of Los Angeles and the drama of Indianapolis. As a reward to the principal accomplices in this controversy, they have one after another, through the power of the invincible 'inner circle' of the American Federation of Labor, been re-elected to their respective office. Point to me one single labor leader or department who has arisen and indignantly demanded that such type of leadership be forever barred from the administration of union affairs.

Alleges Discrimination. "During recent years we have witnessed the prosecution and conviction of many business men under the Sherman anti-trust law for seeking to protect their business against ruthless competition and dominant methods of the labor trust. If they have violated the law, we have no complaint to offer for the penalties which they may be called upon to pay, but we do protest against the free and unobscured manner in which the labor trust defiantly continues to violate the same law.

"We are justified in our condemnation of representatives and senators in congress, who in the name of political expediency, stoop so low in the scale of public duty as to vote for such legislation as the Clayton anti-trust and company laws, passed in the lower house of the sixty-second congress, and which only escaped passage in the senate by a hair's breadth.

Lawmakers Called Cowards. "There are men now acting in the capacity of representatives who, under the cowardly pretense of political expediency, have been willing to violate their oaths of office for a cheap price offered by the leaders of an organized gang of dynamiters who, with their entire affiliated membership, represent less than 2 per cent of the population of the country.

"And should we not gaze with amazement at such a display of cowardice?"

Inauguration of Menocal Marks New Era in Cuba's History

HAVANA, May 20.—With the inauguration today of General Maecio G. Menocal as president in succession to President Jose Miguel Gomez and of Dr. Enrique Jose Varona as vice president the Cuban republic enters on a new phase of its existence in a spirit of high hopes for the preservation of peace and the establishment of the prosperity of the island.

President Menocal, on taking office, contents himself with the declaration that he will devote all his energies to giving the country a clean business administration which will foster the industries of the island and develop its splendid resources, which will welcome foreign capital and immigration and maintain friendly relations with all nations, especially with the United States, to which Cuba is so closely linked by bonds of mutual affection and interest.

General Menocal was born in 1866, at Jaquero Grande, Matanzas province. His family soon removed to the United States and he was educated in the military college of Washington and then at Cornell university. He graduated from Cornell as a civil engineer.

On leaving Ithaca he went with his uncle, Aniceto G. Menocal, chief of the engineering staff which made the survey of the Nicaragua canal, and worked with him. He returned to Cuba as an engineer for a French company. At Santa Cruz he joined the revolutionary forces as private and rose rapidly until he became general of division.

His military record was brilliant; he rendered great service to the Americans at the time of the Spanish evacuation, and General Ludlow, civil governor of Havana province, appointed him chief of police of Havana, a position requiring at that time great tact and ability. He later managed the Chaparral sugar estate up to a few weeks before his inauguration.

Harvester Combine Holds School for Its Witnesses

CHICAGO, May 20.—What Edwin P. Grosvenor, representing the government, called a "witnesses' mass meeting" was uncovered in the Harvester combine today hearing before a special examining board. The discovery came in the cross-examination of C. J. Passage, an implement dealer of Smithville, Ill. According to the government representative of late he has found difficulty in persuading dealers to tell what percentage of the implements they handle are made by the International Harvester company.

"Some one here had a talk with you about what you would testify here today," Grosvenor asked Passage. "No; not exactly," replied Passage. "What do you mean by that?" "Well, not to me personally. There was a meeting of witnesses this morning and one harvester attorney, T. J. Doyle of Lincoln, Neb., talked to us."

Senator Newlands addressed the senate at length on his tariff program proposed at the opening of the extra session which would provide for a gradual reduction of the tariff and for an investigation into the wisdom of creating a tariff advisory commission.

WOOD'S NAME MENTIONED Bundles of "Jute" Left at Shops of Tailor and Cobbler and in St. Mary's Cemetery. Witness Says.

BOSTON, May 20.—An attempt to prove that representatives of capital entered into a compact to discredit organized labor was made by the superior court today, where President William M. Wood of the American Woolen company, Frederick E. Attoaux and Dennis J. Collins are on trial. The defendants are charged specifically with conspiracy to "plant" dynamite at Lawrence at the time of the textile strike of 1912.

Collins testified as a witness for the prosecution. Collins said that on January 19, 1912, he met John J. Breen, the Lawrence undertaker, who was convicted of actually "planting" the explosives in a saloon in Boston. In the course of their conversation Breen asked if he would like to go to Lawrence that night. "I told him I would go if I could help him any," Collins said. Breen continued: "We shall probably meet some folks and you had better carry this bundle to keep your end up." At the same time handing the witness five \$5 bills, the witness said, agreed to give him more money the following day.

Collins said that after leaving the saloon they met two men. One of the men, described by the witness as Mr. Rice, gave Breen a package weighing about forty pounds, which they carried to Breen's house in Lawrence and opened. It contained sticks which felt "cold."

"He asked me if I knew President Wood of the American Woolen company. I told him I did not and then he said that I would see the joke in the papers next day."
