News of Signing of Land Bill is Received Quietly.

FRIENDLY SOLUTION EXPECTED

Secretary of American Embassy Calls on Baron Makino and Outlines Position of the United States.

TOKIO, May 26.-The news that the California alien land ownership bill had been signed by Governor Johnson was received here with regret, although it had been discounted in official and nonofficial circles. It was hoped up to the last moment, however, that Washington's intervention would prove successful. The newspapers published extra editions with the announcement that the bill had

The efforts of the Japanese government are concentrated at present in pacifying public opinion, but the task is regarded in many quarters as a more difficult one than at the time of the California school controversy.

Since the death of the old Japanese emperor the authority of the government has steadily diminished, and the spirit of democracy is augmenting throughout the empire.

Arthur Bailly-Blanchard, secretary of the United States embassy, visited Baron Mikado, the Japanese foreign minister, today and reiterated the determination of the United States government to exert an effort in order to find a friendly and satisfactory solution of the question. He emphasized the fact that it was a Californian and not an American question and thanked the Japanese government for its friendliness and for its efforts to restrain the excitable public opinion of Japan.

May Find Solution. It is generally believed nere that Washington will find a solution of the problem, but the more conservative elements in Japan are now rehearing the public agitation for equal treatment of the Japanese. They declare that the racial issue, which it is contended is involved, and the steady recurrence of anti-Japaness bills in California should receive 'basic curative treatment.'

A prominent official said today: "The Japanese feel that their national honor is involved. The present question will be solved peaceably, but what is needed to assure the permanence of our traditional friendship is a change of heart in some Americans toward the Japanese."

Would Take Hight from States. WASHINGTON, May 30.-Representative Barthoid of Missouri announced today that he purposes to introduce next Friday a resolution to empower congress to legislate exclusively on all questions affecting the rights of aliens residing in the United States. The purpose of the measure would be to prevent individual states from passing laws which might cause friction with foreign countries. Lack of federal control, he said, affecting the ability of the government to carry out a treaty in all its integrity was a palpable defect.
