CHICAGO, May 20.—Abundance of mois-ture in the Dakotas and Minnesota took the snap out of buying power today in the wheat pit. Although steady at the close the market was ½c to ½60½c under last night. Corn was steady to 1-16c up, oats was down 560½c and provisions strung out from 10c decine to a gain of a shade. Selling of wheat was an influential kind and developed considerable volume on all the swells. The best support was early and held chiefly as basis of un-favorable crop bales from Europe. A material reduction in the world's avail-able supply total furnished some tem-porary additional help to the bull side.
