The entire line of Hudnut preparations, so well known to discriminating women is carried by us. Hudnut's Violet Sec Toilet Water spe-cially priced at, bottle 75c

VICE BILL FOUND ILLEGAL

Measure Does Not Carry Signature of the Speaker.
LITTLE USE FOR IT SO FAR
 Officials of Des Moines Set Forth Principles They Will Demand in Granting Street Rail-way Franchise.
 (From a Staff Correspondent.)
DES MOINES, May 24.—(Special Tele-gram.)—An interesting fact was made public today by clerks who ready for the work of getting copy ready for the new code supplement to the effect that the law passed four years ago providing for application of the injunction method of closing vice districts was never signed by the speaker of the house as required by law.
 If the law had ever been attacked in court and this fact developed it is probable the courts would have declared the law ineffective, but there has been so little use for the law that it was never questioned. Other blunders of legislators have been found, but nothing quite as bad as this one.
Street Railway Franchise.
 Mayor Hanna, who engaged in drawing a tentative form for a franchise for the street car company today announced that three of the main features which the city will insist upon are: Six fares for a quarter; forty fares for a dollar for school children, and an unlimited right of the city to purchase the entire plant. It is understood the company will accept these provisions.
Workmen Compensation Law Plans.
 According to reports received by the state auditor a number of companies are preparing to take advantage of the new Iowa law which provides for compensation for accidents to workmen on a new scale and to organization associations under which the employers and the employes may take care of this business. The impression seems to be that any sort of an association can be formed by voluntary agreement between the workmen and manufacturers and that under the new law it will not be necessary to observe the insurance laws of the state. There is great activity in this line now and indications that when the law goes into effect July a great many will be ready to take care of it.
State and the Keokuk Dam.
 It is now believed that the state of Iowa is in position to have tested in the federal courts the question of the right of the state to regulate the operations of the water power company which is constructing the big dam at Keokuk. By amendments to the case which was brought by the pipe line company seek-ing to present raising the water level in the Mississippi river, the issue is raised as to whether or not the power company ever had any right to go upon the prop-erty of the state and to construct the dam. It is claimed that the company never secured permission in any way from Iowa to go ahead with the dam.
Bill on First Degree Murder.
 The supreme court of Iowa refused to interfere with Judge Maxwell in the return of Grand Jury No. 3484 on

Gravity, who is under indictment for murder in the first degree. The claim was made that since first degree murder is not bailable in Iowa the court had no right to fix the amount in which he would be admitted to bail. But the supreme court held that it was within the discretion of the court to decide whether or not it was a case of murder in the first degree or something else and to fix bail.
Bankers of Iowa Meet.
 D. L. Heinsheimer of Glenwood, a veter-an Iowa banker, is likely to be the next president of the Iowa Bankers' associ-ation, which meets here next week. The program includes discussions of the new law as to trust companies, good roads, taxation, better agriculture and kindred subjects. The governor of the state and the president of the state college are on the program. The association will also make a trip to Ames to visit the state college.
No Innovation on Certificates.
 The conference of county superinten-dents of schools decided that there should be no innovations on the form certifi-cates issued to teachers. An effort was made to have included thereon a blank line for a marking under the head of "general fitness" or "professional spirit," but most of the superintendents believed an effort to make a marking of that kind would cause trouble and it was voted down. The state department was re-quested to issue new certificates to teach-ers whenever their grades had been raised by new examinations.
New Des Moines Federal Building.
 Des Moines architects have recommended to the authorities at Washington that the proposed new federal court building, in this city be located on the river bank on the east side of the river, immediately facing the United States post office, which is on the west side of the river. This will make a fine addition to the civic center for Des Moines, as the city hall and public library and the coliseum are also on the river bank, and two big concrete bridges have been built and parks established. There is no doubt that the site will be accepted and the court houses erected.

Convicted of White Slavery.
 Herbert Robinson was found guilty of being a white slaver, this morning in federal court. The jury made a return just before noon after deliberating on his case over night. Robinson is charged with having traveled from one state to another with his alleged wife, Dollie Robinson, for immoral purposes. He will be sentenced Friday by Judge Smith McPherson.

SUES COMPANY FOR DRIVING HIM INSANE AND TO MURDER

CHICAGO, May 24.—Although his two sisters and an infant brother had been murdered by his father, John Meutch testified today in his father's behalf that a street car accident had caused his par-ent to become insane. William H. Meutch, the father, is suing the street railway company for \$3,000 because he charges the accident to him caused him to murder his own children while he was out of his mind.
 Miller has a brother living at Idaho Falls, Idaho. Smith's home was at Lolin, Tex., and Brock lived at Molina, Ill. Brock had just re-enlisted in the navy and had arranged to leave tomorrow on a four-month tour through the world with his mother and sisters in Illinois.

Annual May Pole Dance at Brownell Hall

TWO KILLED BY EXPLOSION

Third Dying as Result of Accident on Torpedo Destroyer.
DURING A SPEED TEST
 Engines Turning Two Hundred Revolutions a Minute and Craft Travelling Twenty-Five and Half Knots an Hour.
 SAN DIEGO, Cal., May 24.—Richard Curtis Smith, oiler, and H. F. Beck, chief machinist's mate, are dead and Alma Miller, oiler, who risked his life in an attempt to save Beck, is in a dying condition tonight as the result of an explosion on the United States torpedo boat destroyer Stewart today. The accident occurred twenty-eight miles off port during a speed concert, when a steam pipe in the engine room blew out. The engines were turning 200 revolutions a minute and the destroyer was rushing through the water at the rate of twenty-five and one-half knots an hour. The Stewart is the fastest of the flotilla.
 Miller has a brother living at Idaho Falls, Idaho. Smith's home was at Lolin, Tex., and Brock lived at Molina, Ill. Brock had just re-enlisted in the navy and had arranged to leave tomorrow on a four-month tour through the world with his mother and sisters in Illinois.

Commencement at Florence High School

The Florence High school held its graduation exercises in the Poniauth building Thursday evening. With the class motto, "We Will Find a Path or Make One," as their future aim, the class of 1912 received their diplomas. The hall was decorated in the class colors, blue and white, interspersed with many bouquets of cut flowers. Seated on the stage were Superintendent J. F. McLane, principal; Miss Julia Kriel and Miss Bertha Henderson, together with the five grad-uates, Misses Florence Harris, Elizabeth Johansen, Fay Pratt, Naomi Lowe and Mr. Mark Lowe. The program was played by Miss Isabel Cole, after which Rev. James B. Butler delivered the invocation. Superintendent A. H. Waterhouse of the Fremont city schools delivered the address of the evening. Other musical numbers on the program were a vocal solo by Miss Henderson, duet by Miss Kriel and Miss Henderson. The graduates were then presented with their diplomas by Superintendent McLane.
McGraw Likes Bodinet.
 High Baller of the Red Sox looks good to Manager McGraw. "Collins, Hall and the others aren't such great stars," says John I.

SEES CHURCH ON TOBAGGAN

"Distressing Loss of Membership." Says Report at Atlanta.
GOLF LINKS EMPTY THE PEWS
 White Slave Traffic Extends Into Sabbath Schools and Christian Endeavor Societies, is Charge.
 ATLANTA, Ga., May 24.—An arraign-ment of the "tendencies of the times" was contained in the report of the com-mittee on membership presented today before the northern Presbyterian assem-bly. The report deplored the "distressing loss of membership in many synods of the church."
 Nearly 4,000 churches during the last ecclesiastical year failed to secure a new member through confession of faith, ac-cording to the report. Other features brought out were that some of the most intelligent and influential church mem-bers spend the Sabbath on the golf links instead of attending church.
 The number and boldness of the white slave traffic has become appalling, even attending, the report declared, into Sabbath schools and Christian Endeavor societies.
 The report stated that a total of 46,000 new members through confession of faith were enrolled during the last year by the church.
 W. H. Houston of Columbia, O., secretary of the permanent committee on vacancy and supply, declared that the problem of securing pastors was one of the most distressing in every non-Epis-copal church.
 At the close of today's proceedings the general assembly of the Northern Pres-byterian church adjourned to meet May 21, 1914, at the Fourth Presbyterian church of Chicago.
BIG CROWD ATTENDS NORTHWEST TRACK MEET.
 HUSBON, S. D., May 24.—Today's pre-liminary in the Minnesota-North and South Dakota track and field meet were witnessed by a large crowd. Summaries:
 100-yard dash: Curran, Carlston, won; Appswill, University of South Dakota, second; Knox, South Dakota State college, third. Time, 6:10.4.
 200-yard dashes: Inley, South Dakota, university, won; Anderson, Hamline, second; Quigley, University of South Dakota, third. Time, 6:35.4.
 400-yard dash: Chittick, University of North Dakota, won; Mead, University of South Dakota, second; Herman, Hamline, third. Time, 6:56.4.
 100-yard low hurdles: Hamilton, Carl-iston, first; Shaska, Vermillion, second; Anderson, Hamline, third. Time, 6:23.4.
 200-yard dash: Hamilton, Carliston, won. Time, 6:54.

TELLS OF FOUR BIG EPOCHS

Present Century the Great History Making Period.
MANY THINGS ACCOMPLISHED
 Rev. Frank Crane Details Events of the Past in His Lecture on the Renaissance at First Methodist Church.
 "There are only four great epochs in the world's history in which things were done that were worth while," said Rev. Frank Crane in his lecture on the "Renaissance" at the First Methodist church last night. "The average person when he comes to think of world history is somewhat bewildered, but he need not be, for if he will study the events of the four great centuries he will have a good working knowledge of the world's history."
 The speaker classed the present cen-tury, especially in America, as the fourth of the great epochs. He designated the first great century as that in Greece between 500 and 400 B. C.; the next as that in Rome between 50 B. C. and 50 A. D.; the third in Florence, Italy, between 1450 and 1600 A. D., and the fourth what he called the American period, between 1850 and the present time and what is to fol-low in the next forty or fifty years.
 The first epoch, he said, encompassed all of the glory of Greece, while the second represented all the grandeur of Rome, in fact the period that includes the two great opposing figures, Jesus Christ and Julius Caesar.
 The third period is that of the renaissance, in which Florence was the center of all art from which radiated all the art and learning for a time to spread over the world. It came about through the fall of Constantinople. When that city fell into the hands of the Turks the scholars fled from it for safety.
 Rev. Mr. Crane described how they snatched at classics, at the works of sci-ence and of art and carried them away from the doomed city, taking them to Florence.
 The speaker described the almost stag-gering immorality and the general un-thinkable corruption of the people of this period, and even of many of the men with the greatest artistic abilities and tastes, the master of which class was Lorenzo Medici. He then took up as a contrast the few great clean character, Dante and Michael Angelo. "In Italy," he said, "the renaissance manifested itself in art; in Europe with thought and religion; in Spain with temporal activi-ties, such as explorations and conquests."
A. C. BUELL IS OFFICER OF FUEL ASSOCIATION
 CHICAGO, May 24.—Robert Collett of Springfield, Mo., was elected president of the International Railway Fuel associ-ation at the final session of the convention today. Other officers chosen were: A. C. Buell of Omaha and D. B. Sebastian of Chicago, vice presidents, and C. G. Hall of Chicago, secretary-treasurer. The executive committee will select the next meeting place.
