Strehlow Apartments Have the Best Possible Service

K. Robinson's well stocked grocery at the corner of Sherman avenue and Yates street is built to conform to the appearance of the apartments, and serves most of the tenants with their grocery needs. According to Mr. Robinson, every effort is being made by him to please his patrons and to eventually have all the trade from the apartments.

Located in close proximity to the Strehlow terrace is the Cady studio, where many of the tenants have their photographic work done. It will be remembered that Mr. Cady won the photographic sweepstakes at Grand Island last year, and his reputation for high class work brings patrons to him from every section of the city.

The tenants need not go down town for their drug needs, for located only one block from the apartments is the Fregger Drug company, where everything in this line can be secured.

Electrically operated washing machines, electric lights, electric irons, electric table conveniences, such as percolators, toasters, heating pads, electric fans, electric reading lamps, etc., are illustrative of the extensive use of electricity in these apartments.

Ninety per cent of the tenants avail themselves of the regular service of the Omaha Ice and Cold Storage company and fill their refrigerators with the pure, distilled water ice of this company.

Jacob Schmid & Son conduct a high grade butcher shop near the apartments, where the tenants may buy everything they desire in the meat line.

The John Hussie Hardware company furnished all the hardware used in the construction of all three of the apartments. The contract ran into many hundreds of dollars.

The M. A. Disbrow company and the

Omaha Planing Mill company furnished all the mill work for the Strehlow Terrace apartments. Both these concerns do a large business in Omaha.

Those tenants who do not care to use the large laundry rooms provided for their washing purposes, have availed themselves of the excellent "family wash" service of the Kimball laundry.

Needless to say the telephone plays an important part in the ordering of supplies, etc.

The attractive face brick used in these apartments probably do more than any other one feature to beautify them.

Frits Hansen, the plastering contractor, received the contract for this class of work on the apartments.

MAN WHO DESIGNED, BUILT AND OWNS STREHLOW TERRACE.

ROBERT C. STREHLOW.

The Laundry Question Solved

To the Tenants of the Strehlow Terrace Apartments:
Here is Direct Evidence from One of You

WHY NOT YOU?

Kimball Laundry Co.,
City.
Omaha, Nebraska, May 20, 1913.

Gentlemen—
Permit me to say that I found my answer to the vexing laundry question in your "family wash" service.

I had experimented with the ordinary methods of accomplishing my laundry work; namely, hiring of help to come in; sending it out to private homes, etc., but found no complete satisfaction until I tried your way.

Your prices and your service are practically without fault and I am delighted with our business relations.

The Roland Apt. 12. Very truly yours,
Mrs. S. T. Resnik.

TO THE HOUSEWIFE:

We have arranged for an Educational Campaign on the Laundry Question which will interest every housewife. WATCH FOR IT.
