

OFFER BRIBE TO THE STATE

Lincoln Preparing to Make Proposition Concerning University.

PROMOTERS NOT CONFIDENT

Experiences with Local Voters Not Such as to Warrant Hope that Plan Can Be Carried Out.

(From a Staff Correspondent) LINCOLN, June 1.—(Special.)—Lincoln people are preparing to offer to the people of Nebraska the bribe turned down by the legislature in connection with the purchase of property to retain the University of Nebraska on the downtown campus.

It had been hoped that when the proposition came up, said a gentleman this morning, "that the people of the state would have been given a chance to vote upon the matter fairly without any other inducement than their own idea of which was best for the university of the future, but the people of Lincoln are so afraid to trust the people out in the state that they now propose to offer an inducement which will, they hope, throw the balance in favor of the downtown site. They have been lobbying to the financial side of the proposition from the selfish standpoint so much themselves that they think that the people out in the state will prefer to keep the university where the merchants of the city can have a chance at the dollars in the pockets of the students."

Can Lincoln Make Good? The proposition which is being considered, according to a Lincoln paper, is to guarantee to the voter that the six blocks to be purchased shall not cost the state over \$200,000. As the blocks will cost not less than \$200,000, it would mean that the city of Lincoln would have to furnish about \$200,000. They make this offer to the people of the state, but the question which will have to be considered is the ability of the people of Lincoln to make good on the proposition.

Some who would like to pull the stunt off admit that the amount would have to be raised by a special levy and that there is a question whether they could guarantee to come across, for any tax payer of the city could get out an injunction restraining the collection of the tax, and they are fearful that all of the people of the city are not as patriotic as they should be. In fact they point with considerable disgust to the proposition recently brought to what they considered a successful termination of paving Seventeenth street direct to the fair grounds as a help to the state at large, which has been stopped by several injunction suits by property owners along the way who don't want to be taxed to help people out in the state.

The committee selected by the legislature to fix up a proposition will meet in Lincoln on Monday, June 3, and it will probably take most of the week to complete the deal. The committee consists of Senator Reynolds of Dawes county, Representative Mockett of Lancaster county and Regents Coupland and Allen.

Duket Treatment Experiment. Dr. E. A. Carr, one of the secretaries of the State Board of Health returned from Kearney last night where he witnessed Dr. Duket apply his tuberculosis cure to about twenty patients in the tubercular hospital at that place. Dr. Duket was accompanied by former United States Senator Lorimer, who is backing Dr. Duket in his efforts to make good with his new discovery.

The manner of this treatment is given by Dr. Carr as follows: The remedy is injected into the blood stream of one of the larger blood vessels in the arm. In most cases three treatments are given, there being an interval of about three weeks between the injections. It, however, depends to some extent on the condition of the patient.

Senator Lorimer and Dr. Robertson returned to Chicago today, but Dr. Duket will remain to give his attention to several patients who went to Kearney from other parts of the state to take the treatment.

New Police Department. Lincoln starts out today under a new police department. Chief James Malone took hold this morning and as a result all members of the police force, except four or five, are seeking other jobs.

It is expected that some new ideas regarding the regulation of the city will be put in force that will be unique to say the least. One already provides that the police patrol shall not speed up in answering a call unless the emergency requires that a quick trip be made. In returning to the station they shall take an ordinary pace and attract as little attention as possible. Whether the same rules will apply to the fire department has not yet been given out.

It is said that when a policeman desires to arrest a man who is fracturing the peace he will step up to him, tip his hat and say, "I beg your pardon, sir, but I would like to take you to the station in our personally conducted car, if you have no objections." No rough stuff will be allowed unless the situation demands it.

James Brown, formerly a reporter on the Lincoln Star, has been appointed assistant city attorney, his duties being to prosecute cases in police court.

Blame it on Rome. Some ball supporters in Detroit have about reconciled themselves to the feeling that the "Rays" are completely out of the running. This year they have not got an even chance of getting into the first division and must fight to escape the pit of oblivion. The blame on the Rays is attached by some to the other failure of Sam Crawford to hit with any degree of consistency.

Page Morrison's "Setting Dog"

BILLY, THE "SETTING DOG," OWNED BY PAGE MORRISON OF COUNCIL BLUFFS.

Billy is a black spaniel 3 years old. Three years ago his strange love for little chickens was disclosed when he became almost delirious at the sight of a bunch of chicks that had been brought into the house after being hatched on a cold April day. It was naturally supposed that the dog wanted to "mouth" the chickens and he was scolded and punished, but all that summer he looked with longing eyes, but never dared to disobey. It was noted that he was always on the best of terms with mother hen, and in the following April when another brood came off he was permitted under strict guard to touch them with his nose. Affection was then disclosed to be the motive that impelled him and all restraint was removed. Billy has been the constant guardian of the brood. When they were tiny little things he "nooded" them back to the mother whenever they got ten feet away. Every night he was their faithful guard. In fair or foul weather he slept with his nose at the threshold of the coop. This spring when the old hen was again given a setting of eggs the dog never left her side longer than a moment. At dawn one morning he aroused his master by furious scratching and barking at the kitchen door. When Mr. Morrison appeared the dog seized his clothing and pulled him toward the coop, where the hen was on the nest dead from the debility of age. The dog watched the burial in the lot near by. The eggs were left to chill in the nest, but when Mrs. Morrison passed an hour after she was astonished to see the dog had taken the place of the dead hen. Nearly a week after eleven of the sixteen eggs hatched. Billy never leaves his brood. The sounds he uses to call them cannot be expressed in words. It is neither a bark, a whine nor a yelp. It's a gurgling attempt to "chuck." The chicks understand it, especially when he is scratching for worms, and he can dig more worms in a minute than a hen can in an hour. The dog has been named Billy in honor of Alderman W. A. Stone of Council Bluffs.

RIOTERS IN BLUFFS TO FACE GRAND JURY (Continued from Page One) apartments and, assisted by County Attorney Capell of Pottawattamie county, began the discharge of the duty before them. Throughout the whole day there was a string of witnesses coming and going from the jury room. It is predicted that at least a dozen indictments will be returned within the next few days. The sheriff's office, police department and many citizens who were witnesses of the mob violence were engaged in collecting evidence to be submitted.

Four Arrests Made. Four arrests of the rioters have been made and three men have been given a preliminary hearing and held under heavy bond to await further investigation. William Waugh, J. Jackson and Austin Hummer, all young men, were arraigned in police court yesterday morning and after

Henry Newman, a tramp carpenter, who says he is from Michigan, was arrested at Lake Manawa late Friday night and lodged in the county jail on the charge of being a member and worker in the mob. Newman was boasting among the crowds at the park that he took part in the attacks upon "dagos" and buildings. He repeatedly declared that he "caved in five ribs of one dago." He was shunted around until he came into the presence of Deputy Sheriff Leuch, where he again made the boast and was proceeding to tell of his other mob violence when the officer invited him to accompany him to the county jail. The fellow then declared he had been simply lying and that he had nothing to do with the mob. But his boasts coincided with many of the real acts of the mobsters and his face also had a familiar look to Leuch and his plea of entire innocence was not taken.

Workers Have Fled. It is being gradually learned that the sets of lawlessness, especially in relation to the attacks upon the helpless Italians and Greeks who were found working in the railroad yards, have been greatly underestimated by the newspapers. Declarations of the men who committed the assaults have helped to locate many victims, some of whom have been seriously injured. Many of the frightened men fled to the hills and did not venture out of the woods until yesterday. All have disappeared from the Northwestern yards, but few are working in other yards.
