INFLUENCE EXERTED BY THE PRESIDENT IS REGARDED AS UNDUE

NEITHER SEES ANY LOBBYISTS

Delaware Man Says He Sold All His Stock in the Powder Companies When He Was Elected to the Senate.

WASHINGTON, June 6.—Senator Townsend told the lobby committee today he believed the nearest approach to undue influence was the "influence exerted by the president by the use and powers of the party secret caucus."

"I am convinced," he said, "that some senators will vote in favor of the tariff bill and against amendments they believe in because of the fear of antagonizing what is known as the power and influence of the administration."

Senator Townsend added he believed the lobby investigating committee had not tried to find what influence President Wilson had exerted on senators. The committee unanimously decided in view of the serious statement made touching the executive "that any senator who has heretofore testified could be recalled and asked as to any influence President Wilson had exerted with him."

Real Lobby in Colorado.

Further evidence of organized efforts of anti-free sugar forces to bring pressure to bear upon western democratic senators and congressmen to align them against President Wilson's free sugar plan were given the senate lobby committee today by Senator Thomas of Colorado, a member of the finance committee.

He produced hundreds of telegrams and scores of documents, letters, pamphlets and newspaper clippings which he believed showed an organized attempt to manufacture public sentiment in Colorado which would affect the action of its senators and representatives. He gave the names of many Colorado towns from which scores of similar telegrams and letters had come, and said he had been informed by some of the signers that they were practically forced to attach their names because of financial obligations to persons directing the movement.

The investigating committee showed a disposition to go to the bottom of some newspaper articles that Senator Thomas furnished and learn what forces were at work circulating news on the sugar fight. Senator Thomas said he knew the best sugar interests long had maintained headquarters at Washington. The campaign (Continued on Page Two.)

New York Sleuths Are in Partnership With Criminals

NEW YORK, June 6.—Scathing arraignment of the detective bureau of the New York police department and a charge that a partnership exists between some detectives and criminals are contained in the third section of the current report of police conditions submitted to the board of aldermen today. A brisk fight over the report's adoption was expected.

"Benjamin Levy," says the report, "who had never been convicted of a crime, testified that at the request of officials in the detective bureau he had often induced criminals to commit burglaries in order that they might be arrested. He was strongly corroborated by reputable citizens, including an official of an insurance company, a merchant and others."

Levy testified that in one case Deputy Commissioner Dougherty in charge of the detective bureau gave him money with which to purchase burglary tools and after he succeeded in the burglary paid him \$75 for his services. City vouchers for these amounts in Levy's favor were found in the comptroller's office.

French Club Woman Criticizes Methods of British Sisters

PARIS, June 6.—Mrs. Jules Seifried, wife of a former French cabinet minister and president of the French National Association of Women, is strongly opposed to the tactics adopted by the militant suffragettes. In an interview published here today she refers to the derby incident, when Miss Emily Wilding Davidson threw herself in front of the "big horse" in the name of freedom for women.

"Many of the delegates to the International College of Women, now in session in Paris, look upon such manifestations with intense disapproval," says Mrs. Seifried. "The militant suffragettes are behaving as though they were insane. Their impudent and dangerous demonstrations hurt the cause of womanhood."

American Refugees Are Enroute for Home

WASHINGTON, June 6.—The steamer Mexican, chartered by the American Red Cross is due at Vera Cruz, Mexico, today and will leave for Galveston in a day or two with about 300 American refugees. JAPAN RAISES NEW POINT IN PROTEST

Note Says Alien Act Violates Fourteenth Amendment to the U. S. Constitution.

DISCRIMINATION IS ALLEGED

States Required to Grant Equal Protection to All Persons.

QUESTION POLITICAL ONE

ACT CONFLICTS WITH TREATY

Contention Made that Right to Own Houses Carries with It the Ownership of Real Estate, as Well.

TOKYO, June 6.—The rejoinder of Japan to the United States note on the subject of the California alien land ownership legislation reiterates that the land bill passed by the California legislature violated the spirit of the Japanese-American treaty by discriminating against a friendly power.

It points out that even if the question is an economic one, it enters the domain of international relations and therefore becomes a political question.

The note says the California land legislation violates article 1 of the Japanese-American treaty of 1911, which authorizes subjects or citizens of the contracting parties to own or lease houses which are inseparable parts of real estate.

It also declares that the new bill violates the fourteenth amendment to the United States constitution, requiring states to grant equal protection under its laws to all persons within its jurisdiction.

PATERSON, N. J., June 6.—Alexander Scott, editor of the Weekly Issue, a paper that has been supporting the cause of the silk mill strikers, was sentenced today to serve an indeterminate prison term of not less than a year nor more than fifteen years and to pay a fine of \$250 for "inciting hostility against the government." Scott announced that he would appeal and arrangements were made for his release on bail. Sentencing of the thirty-eight men and women convicted yesterday of unlawful assemblies was deferred today. It is probable that they will not be sentenced until toward the end of the present term of court.

Senate Seeks More Information on the Print Paper Subject

WASHINGTON, June 6.—Seeking more light on the print paper question, the senate finance sub-committee considering the wood pulp and paper schedule of the Underwood tariff bill, conferred today with John Norris of New York, chairman of the committee on paper of the American Publishers' association.

Print paper costing not more than 34 cents a pound was put on the free list in the Underwood bill, but representatives of the paper manufacturers appearing before the senate sub-committee, urged a countervailing duty because of Canadian restrictions on pulp woods. The sub-committee has not yet acted on that proposal. Senators Johnson of Maine, Hoke Smith of Georgia and Hughes of New Jersey, constitute the committee.

Marshall Field Company Does Not Employ Married Men Who Cannot Earn More Than Twelve Dollars a Week

CHICAGO, June 6.—Fifty witnesses, including bankers and large employers, were scheduled to testify when the Illinois vice and minimum wage commission began a two days' session here today. The commission desires light on the relation of low wages of the heads of families to immorality among women.

At previous sessions fragmentary testimony indicated that inadequate wages received by fathers has more to do with vice than small wages paid to their daughters.

The workers in a chloery factory went on a strike some time ago. Last evening one of them mistook a man who had continued at work and in the fight which followed the striker was stabbed and killed. The striker's comrades later gathered in the great crowd and demanded that the nonstriker be handed over to them. Their request was refused and they threatened to demolish the factory.

CENTRAL PACIFIC WILL BE DOUBLED-TRACKED

SAN FRANCISCO, June 6.—Double-tracking part of the company's lines in Nevada, under the Southern Pacific company \$1,500,000, according to a statement filed today with the State Railroad commission. The company sought permission yesterday to issue \$2,000,000 in 5 per cent two-year notes for improvement purposes. About \$10,000,000 will be expended in California and Nevada, according to the statement. The commissioners were told when the statement was presented that the company saw no need of segregating expenditures, "because of underlying ownership." This was taken to indicate the intention of the company to proceed with contemplated improvements on the Central Pacific, held under lease, without fear of loss through the dissolution of the Southern Pacific-Union Pacific merger.

Repeated delays in execution of the sentence after Green pleaded guilty recently moved a committee of 100 women, all prominent in official or social life, to petition the court here to act with more expedition.
