Some profiress was made toward a recovery in the early ression, but the effect of this movement was nullified by a severe break shortly before the close. Canadian Pacific was the particular point of weakness, falling nearly 5 points from its high price of the day to the lowest figure since 1911. Steel sold below 50 for the first time since 1959. Union Pacific dropped to 1874, and a number of other new jow records were made with virtually the entire active list selling below yesterday's close. Bear selling was perhaps the principal factor in the break, which was a disap-SOUTH OMAHA, June 31, 1913. OMAHA, June 11, 1913. This belief was strengthened by more cheerful reports from London and the rise in American stocks there, followed by a material up-turn at the opening here. A further fav-orable factor was the absence of Euro-pean liquidation, which has been dragging heavily on this market recently. Lon-don trading here was much smaller, be-ing estimated at about 10,000 shares, di-vided between Eurohases and sales. Less importance was attached to the Minne-sota rate case decision as a market fac-tor and there was some disposition to emprasize the points in the decision, over-364,645 The following table shows the range of prices for hogs at South Omaha for the last few days, with comparisons: St. Louis Live Stock Market. larinda

Features of the Trading and Closing Prices on Board of Trade. CHICAGO, June 11.-Important enlarge-ment of investment demand, based to some extent upon the possibility of a dry weather scare in the spring crop belt led to a decided upturn today in wheat. The market closed stready at a net ad-vance of %c to 1%c. Corn gained %0 %o to 1%291%c, and oats, %c to %0%c. In provisions, the outcome was the same as last night to 12%c up. The dear in wheat broadened from the start. Besides the lack of rain north-west, there was buillish encouragement in the early cheerfulness regarding stocks and because of hints of renewed export inquiry. Aggressive leadership, too, counted a good deal in driving shorts to cover and forcing prices higher. Persistent buying of September wheat for one of the largest houses on change attracted considerable attention. Less notice was taken of the fact that July delivery was simultaneously being un-loaded by the same concern. At no time was any decided tendency to react ap-parent. Late dealings were influenced by distaches showing that the need of rain extends far beyond the Canadian line. Seaboard clearances of wheat and flour equaled 52,000 bushels, a year ago, 25,000 bushels. Corn finished at the highest level of the season. Lightness of stocks here and damage reports from central Illinois formed the chief incentive to buyers. Most of the strength of oats was de-rived from wheat and corn. Trisions from an advance with grain and hogs. The close was unsettled. olumbus, O..... 18 oulsville, Ky... 22 Indianapolis occurred throughout the corn and wheat region during the last twenty-four hours. Light frosts occurred at three stations in the Columbus district; at one station each in the Indianapolis and St. Louis districts. No appreciable precipitation occurred in any district.
