(From a Staff Correspondent.) LINCOLN, June 15 .- (Special.)-"I note by Lincoln papers this morning." said Senator Reynolds, a member of the committee selected to prepare a plan for university extension. "that Mr. Mockett and Rev. Alexander Corky of Wayne. is going to prepare a plan for submitting the question of university removal from the Lincoln standpoint. I am glad of it, for ever since this thing started we have never been able to see any figures prepared by anti-removal experts which could be considered reliable, or which would throw any light on the proposition of cost of removal to the farm in comparison with extension on the downtown Inmpus."

Senator Reynolds was one of the leaders in the senate in favor of extension of the university on the state farm, and prepared a statement which was published in The Bee during the session that went to show that the state would save over game.050 by moving the university to the tarm. Representative Mockett questioned the reliability of the statement, and was urged by Senator Reynolds and others to prepare a statement which could be submited to the legislature in connection with the one prepared by Benator Revnolds, but he aidestepped the proposition and up to the present time has never shown any signs of wanting to submit any statement

#### Put it Out Plainly.
