Coffee Market.

NEW YORK, June 14.—COFFEE—Futures opened steady, but at a decline of 28 to 38 points in response to a sensational break at Havre and rumors of financial troubles in Brazil. Offerings were comparatively light at the start and private cables from Santos reporting an improved situation there were followed by a rally of 435 points from the lowest. But the market became very unsettled in late tradings. Reports of a lower cost and freight market and easier local spot situation doubtless contributed to the renewed weakness with the market closing steady but at a net loss of 21 to 36 points. Sales, 193.750. July, 2.20: September, 3.47c. October, 2.31c. December, 3.25c. January, 2.32c.; March, 2.48c.; May, 7.5c. Spot coffee easy; Rio 7s. Pac. Santos 4s, 173c. Mild coffse, quiet. Cordova, 146.17c nominal.

NEW YORK, June is —Jobbers are buying their full requirements of domestic
cottons in a very careful way and are
supplying but a small portion of normal
needs. Few operators are providing any
goods to be held, and the absence of
speculation of any character gives the
market an unusual appearance of hesitancy. The combined influence of tight
money and tariff uncertainties is apparently the controlling force in the situation. The strong feature of the market
is that stocks in first and second hands
are unusually low, and the apot sales
are frequent enough to keep prices steady. Dry Goods Review.
