Wager who has been appointed assistant to industrial commissioner King of the Missouri Pacific, will assume the duties of the new position July 1 and will leave the entire west as his field of operation. His duties will be to look after industries seeking locations in the central west and induce them to locate on the lines of the Missouri Pacific.

Seek Information of Business of the Smelting Works

Frutless attempts to elicit information about the business transacted by the Omaha plant of the American Smelting and Refining company, a \$100,000,000 corporation, from Manager W. T. Page, marked the session of the county board of equalization. The members succeeded in getting one fact from him and a promise to return this afternoon with more data. Mr. Page said \$20,000,000 worth of gold, silver, copper, lead and other ores were through the local smelter each year. He insisted that this must not be called the amount of business done, because the charges for handling all this ore were only a small percentage of the total value. He declined to give any details about the corporation's income or assets. "On some days," he said, "we make almost nothing and on others we make a good round profit."

The board wants to know how much money is due the corporation on book accounts and how much its yearly income is. In reply to one question Mr. Page said: "I don't think you need to know the private details of our business." "We are requiring it of other foreign corporations," replied Deputy County Attorney Hafke, "and we can't make an exception in this case."

The corporation this year returned a valuation to the assessor of \$600,000 on personal property, including \$100,000 on improvements on its ground rented from the Union Pacific railroad, but County Assessor Cummings raised it \$100,000. The board is considering a further raise.

GOVERNMENT OFFICIAL TO TALK TO MANUFACTURERS

George W. Doonan, commercial agent of the federal Department of Commerce, who will speak before the joint meeting of the Omaha Manufacturers' association and the Nebraska Manufacturers' association at the Commercial club this evening, arrived in Omaha yesterday morning. He will tell the manufacturers of the government's work in extending the trade of the American manufacturer and the trade territory, especially in South America. The development of foreign markets for American manufacturers is being made now more than it ever has before, he says. He will show the manufacturers statistics on the sale of American goods abroad and tell them how they can extend their own trade abroad through the government's daily consular reports and other bulletins sent out by the Department of Commerce.

DANDRUFF SCALED AND SHOWED PLAINLY

Children's Heads Broke Out with Thick Yellow Scales, Would Bleed, Hair Came Out, Cuticura Soap and Ointment Cured in 2 Months.

1006 Kemper Lane, Cincinnati, Ohio.—"The children's heads broke out with a thick yellow scale and when I would wash their heads the scales came off and their heads would bleed. It would itch and the hair just seemed dead and did not grow and came out gradually. There was dandruff which scaled and showed plainly. I used Cuticura and it did not do any good. I used another medicine and it was good. I then used Cuticura Soap and Ointment. I first washed their heads good with Cuticura Soap and when dry I used Cuticura Ointment two times a day. I noticed there was relief in just a short while. In two months their heads were completely cured. Their heads look fine and their hair is growing slowly now." (Signed) Mrs. Blanche Collins, June 15, 1912.

Not only are Cuticura Soap and Ointment most valuable in the treatment of eczema and other distressing eruptions of skin and scalp, but no other medicine does so much for psoriasis, blackheads, red, rough and itchy skin, itching, scaly sores, dry, thin and falling hair, nor do it so economically. Sold throughout the world. Liberal sample of each mailed free, with 25-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston." 50¢ Tins—Send name and address to Cuticura Soap Shaving Stick, 25c. Sample free.

PICK OUT IDENTIFICATONS

Voters Registering Are Sized Up for Prominent Feature.

IS ALL A MATTER OF RECORD

No Matter What the "Earmark" Is, It is All in the New Election Law that It Must Be Described.

How a voter may register from a vacant lot in this city with the full consent of Election Commissioner Moorhead, was made evident by a decision of his today.

The commissioner ruled that if a man's house was blown away by the tornado and he, in good faith, intended to build another home and reside there soon, he might register from that address. The point arose when Charles L. Hopper, whose home at 1915 Corby street was damaged by the storm, and who is living elsewhere while it is being repaired, registered.

About 300 voters registered Wednesday. The clerks say there was about an equal number of republicans and democrats with but few affiliated with any other party.

Voters, who have little peculiarities of appearance, which they fondly imagine nobody else notices, get small satisfaction out of the matter-of-fact descriptions of their persons recorded on the blanks in the election commissioner's office. A man may only admit to himself that he is becomingly portly, but his weight goes on the books for all to see. If he has what he thinks are only a few light colored hairs, he is set down as having gray hair. If he has a peculiar nose or ears, he no longer can flatter himself that no one notices it, for it is a mark of identification and is a matter of record.

Elmer E. Ridgway, former candidate for election commissioner, for instance, will be identified in the future by his "long, red eyebrows" and the fact that he "always wears a smile."

Charles E. Fanning's 300 pounds stand against his name on the records, and Charles E. Comp is described as having freckled hands and as being "totally deaf, or nearly so."

Butler Says City Hall Needs to Have Carpenter on the Job

City Commissioner Butler of the department of finances and accounts, will ask the city commission to create the office of city carpenter and employ the man at the city hall.

"It's costing too much to keep the building in repair," said Butler. "The building is going to rack and we're paying out all kinds of money to try and keep it in shape."

"We need a man on the job all the time and we'd save money by paying him a salary instead of hiring somebody to do all these little odd jobs of repair work."

Parrot and Cows Are Real Disturbers

Here is a man who wants to know why cows should be let loose in a metropolitan city. He declares and affirms that for several days the lowing of kine in his neighborhood has disturbed his sleep and offended his esthetic temperament. His name is J. B. Servin and he resides at Thirty-eighth and Hamilton streets. The city commissioner asked Police Commissioner Ryder to have the cows arrested, but Ryder instructed a health official to investigate.

Another citizen wished to know if people living in a thickly populated district could with impunity put their parrot on the front porch shortly after daylight.

"This parrot has caused me more sleepless hours than my financial worries," said the citizen. "The only time I got any relief was when the parrot had the measles and was kept in the house. Now he's put out every morning and wakes the whole neighborhood with his fool talk."

BELLEVUE OPENS ITS SUMMER SCHOOL SESSION

The summer session of Bellevue college opened Tuesday with an address by Rev. Dr. Alexander Corkey. The address was given in the church auditorium and dealt with the subject of thought control. Dr. Corkey left in the evening for Lincoln where he is booked for a series of addresses at the state Sunday school convention.

Rabbi Cohn of Omaha and Rev. Theodore Morning, D. D., of Independence, Ia., are among those who have engaged rooms for the summer in Fontenelle Hall.

A number of high school students from the surrounding towns have enrolled in the summer session of the college. Rev. Robert Baskerville of Primrose, Neb.; Mrs. Hansell of Albert Lea, Minn., and Mrs. Baskerville, senior, of Princeton, N. J. are visiting the Baskerville brothers. Mrs. Baskerville, senior, and Mrs. Hansell will remain for the summer. The latter, who is a member of the Albert Lea college faculty, will chaperone the young ladies of the summer school.

Mrs. Albert Phelps of Washington, and her daughter have been guests at the home of Dr. Phelps during the commencement season. They leave Friday for Iowa. Mrs. Phelps' son, Marshall, has been a student in the college during the past year.

Prof. Oscar Schmiedel is spending the vacation in Bellevue. Mr. W. J. Freeman and sister, Mrs. Braden, are leaving for an extended trip to the Pacific coast.

President Stookey expects to attend the National Educational association which meets in Salt Lake City, July 5 to 9.

NO LETUP OF THE HIGH TEMPERATURE IS IN SIGHT

No immediate relief from the present warm weather is in sight for Omaha, according to L. A. Welsh, local weather forecaster. He says warm weather prevails over the country east of the mountains and that the temperatures are continually climbing. In the last twenty-four hours there has not been a drop of rain in Nebraska, or at least from government station in the state.

Country Club Will Stage Golf Contest With Eastern Teams

Directors of the Omaha country club have taken a lively interest in the Pacific Northwest tour of the golf team specially selected for the contests in the largest western cities. Omaha was left out of this tour, but by persistent seal the Country club has finally dated the best golf match ever planned for Omaha to take place on the Country club grounds Monday, June 30.

The itinerary of the team started at St. Paul June 5 and included matches at Minneapolis, Butte, Spokane, Seattle, Victoria, Tacoma, Portland, Salt Lake, Colorado City and Kansas City and this all-star aggregation has won overwhelming victories. The best talent of the Country club will contest in this event and the match will excite the most intense interest in local golf circles. The committee in charge have not completed all the entertainment plans, but will announce the details shortly.

The selected team golfing the Pacific Northwest is as follows: Charles (Chick) Evans, captain. Warren K. Wood, Homewood club, Chicago. D. E. Sawyer, Wheaton club, Chicago. Carl Devol, Riverside club, Chicago. Fraser Hale, Skokie club, Chicago. Howard Lee, Country club, Detroit. Phillip Stanton, Kent club, Grand Rapids.

The announcement is predicted that "Chick" Evans will be pitted against the Country club professional, George Simpson, making the best golf contest ever drawn in Omaha.

FREIGHT AGENTS TALK OVER ALFALFA RATES

Freight agents of the railroads operating out into Nebraska held a meeting yesterday in an effort to line up rates on alfalfa meal. When this is done they will appear before the state railway commission and ask that body to take notice.

Alfalfa meal rates are out of line, say railroad men, because the commission has made an exceedingly low rate to be applied to the products of the mills at Albin and Kearney, when shipped to Missouri river points. The rates are so low that when applied to shipments destined for points east of the Missouri, the sum of the locals are far less than the through rate from either Albin or Kearney. The contention is that this is in direct violation of all rulings of the Interstate Commerce commission.

Yoder to Lecture at Summer School

W. A. Yoder, county superintendent of schools, will deliver a course of lectures on school administration in the summer school of the University of Omaha in the course for superintendents, principals and teachers. Arrangements have been made so that teachers who take this course will have a higher grade of certificates and arrangements have also been made for issuing state certificates.

State Superintendent Delzell will also lecture at the school, as will also Miss Kate McHugh, principal of the Omaha High school, and E. U. Graff, superintendent of the city schools.

CASTELLAR SCHOOL HAS GRADUATING EXERCISES

Dr. E. Holovtchnir, president of the Board of Education, presented diplomas to a large eighth B class at the Castellar school Wednesday evening. The audience room, which seats 500, was full to overflowing to see these future high school students take their first formal step in that direction.

The class gave a play, which its teacher, Miss Sanborn, arranged as a finish of the work in literature done during the year.

Each child has made a handsome booklet of pictures of Grecian stories.

For The Children's Sake

Mothers everywhere are realizing the special cleansing, healing virtues of Pasteurine as a safe Antiseptic for childish troubles. Little teeth to cleanse—little gums to soothe—little cuts and bruises to heal! For all these purposes there is nothing quite so good as

PASTEURINE (Antiseptic Liquid)

Pasteurine is the perfect antiseptic. It prevents infection. It really protects. Pasteurine is deodorant. It sweetens and purifies. Pasteurine is a natural healing agent. Pasteurine is comforting. It cools and soothes. Pasteurine is delicately fragrant, delightful to use. Try Pasteurine!

"Makes Good Health a Habit" Every household should have a supply of Pasteurine always on hand; 10c, 25c and \$1.00—the bottle in the seen wrapper—all leading drug stores. If your dealer can't supply you, send 10c (no post charge) for large trial bottle and literature.

NEW YORK DEPARTMENT STORE STOCK BOUGHT

Choice Lots from J. L. Kesner Co., 6th Ave. and 22d St., Secured by Brandeis Stores.

A \$500,000 AUCTION SALE

Immense lots of high class merchandise from one of the most famous department stores of New York City will be offered to the people of Omaha all next week at just about one-half the price the goods sold for in New York.

Such an opportunity of buying the real New York merchandise of the genuine New York style character from one of the great stores of the city at a fraction of the real value of the goods, could scarcely happen again. It is due to the determination of Brandeis' stores to bring the finest lots of this stock to Omaha that this wonderful offer is made possible.

The J. L. Kesner company conducted one of New York's immense department stores on Sixth Avenue between Twenty-second and Twenty-third streets.

The stock embraced everything for the home. The goods were all of desirable class, the qualities are thoroughly dependable and the styles meet the most exacting requirements of fashion. It was one of the newest and best stocks in New York.

After a series of reverses the stock and fixtures of the J. L. Kesner store were sold at public auction by order of the United States district court. This sale was advertised throughout the nation as the \$500,000 auction sale and was considered the largest sale of its kind ever held in New York City.

Buyers from every prominent retail center in the United States assembled to bid on the Kesner stock.

The Brandeis firm was represented by experienced merchandise men who secured many of the choicest lots of new merchandise from the stock at the most extraordinary bargains.

The goods are now here in Omaha being prepared for the sale Monday. It will be a bargain occasion of magnitude. The show windows in Brandeis' stores are now filled with merchandise from this stock. This sale will be remembered for years.

Girls May Not Wear Flowers at the H. S. Graduation Friday

High school seniors will hold their commencement exercises this evening at the Boyd theater. A class of 215 will receive diplomas from the Omaha High school. This includes about a dozen of the two-year students graduating from the Commercial High school. The commissioned officers of the school regiment will don their uniforms and in full dress receive their military diplomas. Forty-one officers will be presented with sheepskins.

It has been decided that absolutely no flowers will be received over the foot lights commencement night. No flowers will be allowed to be sent to the seniors at all. Besides this, no senior girl will be permitted to wear flowers during the exercises and while on the stage, not even a small corsage. Miss Taylor will remove any flowers that are worn to these exercises through ignorance of this ruling.

FIRST ALFALFA CUTTING WITHOUT DROP OF RAIN

The first cutting of Nebraska alfalfa has been made and is now secure in the stack without having been wet by a drop of rain, being in the most perfect condition.

Relative to Nebraska alfalfa, John E. Utz, general agent of the Rock Island, has made some figures to show that it is one of the most important crops of the state. From information obtained from mill men and others, Mr. Utz finds that this year Nebraska farmers are growing an even 1,000,000 acres of alfalfa. The first cutting has averaged two tons per acre, worth \$8 per ton in the stack, \$16,000,000. The second cutting will be about one and one-half tons per acre, worth \$12,000,000, and the third, one ton per acre, \$5,000,000, a grand total for the year of \$33,000,000.

Valuable Beauty Hints for Summer Months

(Marty's Health Journal) Avoid greasy creams, face powders and cosmetics. An inexpensive and simple way to free the skin of blackheads, pimples, fine lines, oiliness, moth patches and sallowness and make it soft and velvety with a pink and white tone is to use the easily made and applied lotion composed of four ounces of aprunax dissolved in one-half pint hot water to which is added two teaspoonful of glycerine. Apply with palms of hands and rub gently until dry, when it seems part of the skin.

No need to spend money at the hair-dresser's if you use canthrox shampoo, which is simple, effective and inexpensive. You only need dissolve a teaspoonful of canthrox in a cup of hot water and use in the usual way. It creates an abundant, thick, cleansing lather which exhilarates the scalp and, after a thorough rinsing, the hair dries quickly and evenly, the scalp is clean and pliant, while the roots are stimulated to healthy action, which results in rich, glossy, soft, fluffy hair, easy to care for and a joy to its possessor.—Advertisement.
