WASHINGTON, July 2.-David Lamar, Wall street operator and one time con fidant of Russell Sage, James R. Keene and other financiers, amazed the senate lobby committee today by smilingly and frankly testifying that it was he who impersonated Representatives Palmer and Riordan in telephone conversations with Lewis Cass Ledyard, Paul D. Cravath, Chairman Robert S. Lovett of the Union Pacific board and other prominent financlers, telling them that Edward Lauterbach, a New York lawyer, could do a great deal for them in Washington. Lamar also astonished the committee

by making a detailed charge that the Union Pacific railroad's books had been forged in 1903 on an item covering \$32,000,laid the foundations of 'gigantic for-When Lamar had finished Paul D.

Lamar amused, entertained and astounded the committe as he freely testified as to his own impersonation of congressmen over the telephone. He did it all, he said, to impress the financiers with the abilities of his friend, Edward Lauterbach, but he denied there was ever any mention that Lauterbach should profit by legal fees.

Denounces Dissolution Plan. Lamar diverted from his narative to denounce the Union Pacific merger plan recently approved by the federal court at St. Paul, agreed to by Attorney General McReynolds and approved by Presdent Wilson. The exchange of Southern Pacific and Baltimore & Ohio stock, he characterized as a farce and added that Mr. McRaynolds had been "derellet in his

Story of Alleged Forgery. Lamar's statement today before the senate lobby committee regarding the alleged forgery of the \$82,000,000 on the Union Pacific railroad books in 1902 was

substantially as follows: "In the summer sometime of 1901, some body, forged the bonds of the Union Pasific railroad company to the tune of 182,000,000. Who it was I don't know. As a consequence, the men connected with he company immediately thereafter got \$2,000,000 in cash as the proceeds of that forgery and that \$82,000,000 was the fulcrum through which all these giant monopolles and conspiracies were fastened on the lines of railroads serving the territory from the Rocky mountains to the guif of Mexico and from the Pacific ocean to the Missouri river and

"I defy them all to do their worst, Their efforts to injure me with honest people will be abortive. I shall go forword without fear. I never did a thing in my life of which I am ashamed.

"Sufficient to say," said the governor, in conclusion, "that I knew this Hopkins woman years ago. I was a friend of her family in their distress, but I deny emphatically that I ever agreed to marry her; that I ever wronged her; that I ever lived with her, or that I ever held her out to be my wife."

Roosevelt Makes Plea for Big Navy

NEWPORT, R. I., July 2-Theodore Roosevelt addressed a gathering of Rhode Island leaders of the National Progressive party here today on patriotism and national honor, and made a plea for the maintenance of adequate navastrength. Congressmen who vote against two battleships a year, he said, were "ou a level with men who voted against fortifying Hawaii and our stations in the West Indies. These men are unfit to represent the American people, and they by their actions invite national disaster and humiliation."

He characterized as wicked any sdvocation of arbitration where national honor and interests are concerned, and said that to enforce the Monroe doctrine, to retain Panama, Alaska and our insular possesions, to determine what allens and on what terms they shall come to this country demanded the power to "back

up our words with deeds." "We have the right to insist on the Monroe doctrine; we have the right to insist that we, and we alone, are to decide as to what immigrants shall come to our shores and as to whether these immigrants shall become citizens or own land; these and other similar rights are not merely rights but duties; we should show the utmost courtesy and consideration for the feelings of others in insisting upon them; and we should also realize that it will in the long run be idle to inaist upon them unless we are ready to back up our words with our deeds, and that to do this it is necessary to keep our navy of adequate alse and at th

The course from St. Joseph, Mich., is about fifty-eight miles in length. Villas, following the steamer route, was compelled to shift the levels of his flight because of air currents. He faced a west wind at the start, the breeze fading to a calm as he neared Chicago.

Although 50,000 people lined Michigan avenue on the lake front and several thousand more were in the Grant park stadium, few saw the landing of the first aviator to cross Lake Michigan. He volplaced into the yacht harbor off Grant park and then skimmed the machine the shore under its own power.

This great camp of peace at the end of fifty years has its sad moments as well as its joys. Everywhere veterans of both the accomplished and the lost causes are to be seen in each other's embraces, in many instances with tears streaming down their faces, recounting reminiscences of days that were bitter and when it was brother against brother, son against father.

Some of these veterans have not seen their comrades since they were boys together, fighting elbow-to-slbow through the long, hot days of bivouseking together on the evenings when the events of the day were gone over in low, tense volces, realizing that the dawn of a tomorrow's sun would bring on another engagement, and, then, maybe, some would fall to respond to roll call and the answer 'dead" or "missing" would tell its own There is no feeling among the thousands who are here; brother is not arraigned against brother, as in that faroff day when the north and the south were striving for the mastery and the ominion over this magnificent empire Never before has the spirit of forgiveness and forgetfulness been so triumphant as
