TUKEY'S TEAM WINS MATCH

Commercial Club Committeemen Disput on the Links.

LOSING SIDE BUYS DINNER

Business Men Prove They Are Skilled with the Sticks and Put Up Next Exhibition of Warm Weather Pastime.

Since a year ago when the executive committeemen of the Commercial club made their first real plunge into the game of golf they have learned much and are studying it with a determination that has proved yesterday that they have been a good deal better than a correspondence school. In fact, one of the best matches from a standpoint of interest and enthusiasm that has ever been played on the Field club course was played yesterday by the directors and members of the executive committee of the Commercial club. Also, a number of amateur scores were in good. The two bodies of men had shuffled together and divided into teams with Harry A. Tukey as captain of one, and T. L. Davis as captain of the other. Tukey's team won with 25 points against 21 made by Davis' team. It was up to the Davis team to pay for the dinner of the Tukey team and they did it without a murmur. Moreover, they did it with burials. There was more of that than there was food and drink. At the dinner the players surrendered to what good descriptive writers call "perfect abandon." They even went so far as to attempt to auction off some of the prizes that had been awarded.

BURKET KEEPS STICK. H. K. Burket sneaked away from the clubhouse when the price of an approaching club went up and looked like it was "going." He came back only on the understanding that the club was to remain his. It had been offered as a prize for the auction was that the club was for a right-handed player while Burket is a southpaw. By proving that his teammates, E. S. Barber, also was left-handed, Burket was allowed to keep the award. He had won it in a blind bogey with a score of 32.

C. M. Wilhelm won the propher cup in a blind bogey with a score of 38. T. C. Byrne was the other prize winner. Getting a pretty little loving cup for his ability in putting.

TUKEY AND DAVIS, the captains of the teams, broke even with no points. Commissioner Guild and J. J. McVann, manager of the traffic bureau of the Commercial club, also came out even in their match with a no-point score. E. V. Parish, in the third office of the club's business triumvirate, the publicity bureau, defeated Nelson Uptide, 1 point against no points.

Results of the match follow: TUKEY'S TEAM: H. A. Tukey (C.), 0; J. A. Kennedy, 0; C. H. Pickett, 0; C. E. Williams, 0; J. E. Brady, 0; T. A. Fry, 0; E. Buckingham, 0; D. H. LONDON'S SIZE IS APPALLING

Population Greater Than All England in Reign of Edward III.

From the statistical point of view, London's size is almost appalling. The population of all England in the reign of Edward III, when the victories at Crecy and Poitiers raised England to the position of paramount military power in the modern world, was scarcely 2,000,000. The population of greater London today is 7,500,000, and it is spread out over an area of 700 square miles. London proper, or the administrative county of London, has an area of 113 square miles and a population of about 5,000,000. It contains 8,000 streets, more than 3,000 miles long; 600,000 buildings, including 1,500 churches, 4,000 public houses, 1,700 coffee houses and 600 hotels and inns. London is said to number among its citizens more Scotchmen than there are in Aberdeen, more Irishmen than in Dublin, more Jews than in Palestine and more Roman Catholics than in Rome. There are 15,000 Americans resident in the city and more than 300,000 pass through it every year. The city, the old city of London, and the east end, or that part of London east of the Temple, form the commercial quarter. The west end is the quarter that spends money, makes laws and regulates the fashions. This is the part best known to tourists. Here are situated the palaces and mansions, the clubs, museums, picture galleries, theaters, hotels, barracks, government offices and principal buildings, joined together by broad, handsome streets and wide parks and open spaces. Across the Thames, on its right bank, "the Surrey side," lies the ancient borough of Southwark, known from time immemorial as "the borough," situated to the west by Lambeth and Battersea, and the three forming the principal industrial and factory district of the city. And below Southwark, stretching toward the mouth of the river, lie the several constituent municipalities of Bermondsey, Rotherhithe, Deptford, Greenwich and Woolwich, all crammed with trade—Pall Mall Gazette.

Resting the Face to Restore Contour

One of the first indications of advancing age is the loss of the delicate coloring of the skin and the appearance of shallow folds about the face and neck which soon become more pronounced if neglected. The application of a certain jelly harness substance known as parafied plastoid jelly, two or three times a week, helps wonderfully to overcome this condition. Spread the jelly over the entire face and allow it to harden into a mask. There's a "lightning" feeling which causes one instinctively to look into the mirror. Then it is noticed that healthy pink flush is creeping into the face. It is natural color, induced by increased capillary circulation. The blood brought to the surface by this means, nourishes and strengthens the weakened tissue, stimulates the "burning up" and resting of the muscles tend to train them to assume their former solidity. Many drooplets are made by spreading parafied plastoid jelly in large collapsible tubes to meet the increasing demand for it as a "face rest." The jelly should be kept on for a half to one hour, then washed off.—Beauty and Health.—Advertisement.

MAONEY SAYS WILL PROSECUTE

Where Machine Gives Something in Return May Not Fall Under the Law—Lepotich Again in Tots.

Slot machines in South Omaha which can be considered gambling devices are to be put out of business by County Attorney Magney. F. C. Caldwell, constable, has complained to the county attorney that a large number of these machines are being operated in South Omaha and Mr. Magney told him that if he would secure adequate evidence persons who operate them would be prosecuted. Representations have been made to the county attorney that many of the machines cannot be considered gambling devices because their patrons always secure something for their money. Mr. Magney believes those do not violate the law.

Once more the Thirtieth street tax over which there has been so much litigation and worry has arisen like Banquo's ghost to disturb the serenity of the city council. A number of the city council, with representatives of the Jetter Brew company and T. J. O'Neil, went on a junketing trip over Thirtieth street yesterday afternoon with a view to equalizing the paving tax on that thoroughfare.

According to the city attorney's office there is not and can not be any question of equalizing the tax which was tested and approved in all the courts of this state. The supreme court has passed finally on the matter and ratified the judgment of the lower court which found for the city as against those who appealed from the payment of the tax. For the city council to interfere at this stage of the game would be to lay themselves open to suit on their official bonds, it is said.

"There is nothing to do but collect the tax and that can be done by selling the abutting property of delinquent tax payers," said a city official yesterday evening in the city hall.

It is understood that efforts have been made for three weeks to get the council to take action on equalizing a tax that has been assessed, equalized, tested in court, ratified and ordered to be collected. It is not likely that this council any more than any other will interfere with the rulings of the supreme court which has upheld the Thirtieth street tax.

Spring Time Is Blood-Cleaning Time

Wonderful How Quickly Your Entire System Weakens When the Blood is Cleansed. If you are down with rheumatism; if you sneeze, feel chilled, are choked with catarrh, have a cough, or your skin is pimply and irritated with rash, eczema, or any other blood disorder, just remember that almost all the ills of life come from impure blood. And you can easily give your blood a good, thorough cleansing, a bath, by using S. S. S. There is no need for anyone to be dependent upon the illness of blood impurities. No matter how badly they attack the system, or how unskillfully becomes the skin, just remember there is one ingredient in S. S. S. that so stimulates the cellular tissues throughout the body that each part selects its own essential nutrient from the blood. This means that all decay, all breaking down of the tissues, is checked and repair work begins. S. S. S. has such a specific influence on all local cells as to preserve their mutual welfare and afford a proper relative assistance to each other. More attention is being given to constructive medicine than ever before and S. S. S. is the highest achievement in this line. For many years people relied upon mercury, iodide of potash, arsenic, "physic," cathartics and "drugs" as remedies for blood sickness, but now the pure, vegetable S. S. S. is their safeguard. You can get S. S. S. in any drug store, but insist upon having it. And you should take no chance by permitting anyone to recommend a substitute. And if your blood condition hints that you would like to consult a specialist freely and confidentially, address the Medical Dept., The Swift Specific Company, 137 Swift Bldg., Atlanta, Ga.
