## BULGARIAN TROOPS SUFFER HEAVILY IN MACEDONIAN BATTLE

Loss of Life Appalling, but Casualties Among Serbs Believed Not So Great.

### CONTRADICTORY CLAIMS MADE

Defeat of Greek Army Announced by Their Enemies.

### WAR CORRESPONDENTS TO SCENE

Number Leave for Servian Headquarters Near Istip.

### RUMANIAN ARMY MOBILIZED

Work Will Be Completed Thursday or Friday and Troops Immediately Will Cross Danube into Bulgaria.

LONDON, July 7.—The Belgrade correspondent of the Daily Telegraph says the losses of both Serbians and Bulgarians are heartbreaking. There is reason to believe the Bulgarians suffered most, because throughout they hurled themselves on the Servian positions in close formation with bayonet readiness and the sacrifices such primitive methods entailed. "Thus," adds the correspondent, "throughout the sixty miles' front there has been for a whole week a series of desperate night attacks with the bayonet resulting in great slaughter."

The correspondent asserts that Istip has been burned, but not occupied by either side, owing to its being surrounded by marshes.

A dispatch from Sofia to the Central News Agency says official messages received from the front report the occupation of Nigita to the west of Lake Tshyros by Bulgarian troops, who have also captured other strategic points from the Greeks. General Ivanoff, commander of the Bulgarians, by a surprise attack, dispersed a large part of the Greek army numbering 80,000 men, under the personal command of King Constantine.

The Vienna correspondent of the Daily Mail learns that Austria has arranged a bargain between Bulgaria and Rumania, whereby Bulgaria will get Saloniki in return for territorial concessions in Rumania. An Odessa dispatch to the Mail says:

"As a precautionary measure the garrisons in southern and southwestern Russia are being mobilized with a view to eventualities arising out of the Belian war."

### Greeks Announce Victory.

SALONIKI, July 7.—Part of the Greek right wing has driven the Bulgarians across the River Struma and is now marching on the town of Serres, according to official reports from the Greek headquarters.

BELOGRADE, Servia, July 7.—A number of war correspondents have left for the Servian headquarters at Utekup. The commander of the Servian troops announces that the newspaper men will be allowed to go to the front.

### Rumanian Army Mobilized.

VIENNA, July 7.—The mobilization of the Rumanian army will be completed Thursday or Friday, according to dispatches from Bucharest. The Rumanian troops are expected to cross the Danube into Bulgaria immediately, and, as a result of this step it is assumed that Bulgaria will be compelled either to agree to the Rumanian demands and permit Rumania to occupy the territory it desires or to engage in war.

### Greek Casualties Ten Thousand.

ATHENS, Greece, July 7.—The Greek casualties since the beginning of fighting against the Bulgarians total 10,000 killed and wounded according to official reports.

After the battle for possession of Kilaah, the right wing of the Greek army forced the Bulgarians to return across the river Struma. The Greek left wing after severe fighting occupied the heights to the south of Lake Dolran and then pursued the retreating Bulgarian army toward Strumitsa capturing twelve field guns and inflicting severe losses.

### ST. LOUIS HOTELS ENGAGE NEGRO WAITERS BY CONTRACT

ST. LOUIS, Mo., July 7.—Negro waiters were today seen in the fashionable hotels and cafes here for the first time since 1906. They have received contracts from the Hotel and Restaurant Keepers' association calling for at least five months' work. In some of the restaurants guests had to help themselves during the Sunday rush.

Labor leaders announce that the bartenders of hotel bars will walk out tomorrow in a continuation of the fight of the union's against hotels.

### RAND GOLD MINERS RESUME THEIR WORK

JOHANNESBURG, July 7.—Most of the gold miners who participated in the general strike last week, which led to the killing and wounding of a large number of rioters, resumed work today. Those still out object to the terms of settlement. They demand that the government penalize those who were dependent on the men killed or wounded. Quiet prevails everywhere.

### The Weather.

## WATER PRESSURE TOO WEAK

Water Board Tries to Lay Blame Onto the Valve.

### IS FOUND TO BE ALL RIGHT

Fire Engine at South Omaha Has No Trouble to Pull It Nor an Engineer to Operate It at Packing House Fire.

Lack of sufficient water pressure at the fire in the Morris Packing plant is given by many as a reason for the loss being as large it was. So persistent were these rumors that representatives of the Water board were soon on hand to see what the trouble really was. These tried to make the excuse that the water valves were not entirely turned on, but Superintendent Fire Shepard said that he had personally inspected these and found them all right.

South Omaha has a fire engine, but it was of little use at the fire. In the first place there was no team to haul it. After an extra team had been sent to bring the engine to the fire, it was found that there was no engineer to run it. Emil Novak had been assigned, but was reduced to the rank of fireman a couple of weeks ago, and no one had been named in his place. This problem was finally solved when Ed Simpson, an engineer of one of the Omaha companies, and John Haney, a packing house engineer, were pressed into service.

## Organized Militancy Among Suffragists Broken Up by Law

LONDON, July 7.—Organized militancy among the suffragettes has been broken up, according to the Daily Mail, which publishes a review of the six months of "terrorism" and compares it with the order of things since the recent passage of the "cat and mouse law." The Mail, which opposed the law when it was first proposed, gives it credit for having broken up militant conspiracy.

The law now requires that when a suffragette who has been sentenced to prison falls ill through a hunger strike, she shall be released only long enough to recover her strength and then be returned to jail to continue her sentence. Mrs. Emmaline Pankhurst, who is recovering from her latest hunger strike, is not likely to be arrested again, it is said, unless she tries to participate in a militant campaign. She has already been returned three times to Holloway jail in connection with her last sentence.

The Mail, claiming to have made a special inquiry into the status of militancy, declares that the organization is reduced to a few disabled leaders with their former army of followers scattered and the organization as a whole crippled financially. Subscriptions to militant cause have been greatly checked by the official warning that subscribers are liable to prosecution. The sporadic suffragette's crimes are attributed to a few isolated fanatics.

## Aviator Spilled Into Lake Michigan When Plane Dips

CHICAGO, July 7.—Flying at the rate of fifty miles an hour today, Glenn Martin's hydroaeroplane dipped too close to the surface of the lake and was overturned. Martin and his assistant, Charles H. Day, clung to the overturned craft until rescued by the life saving crew, which also recovered the machine. Neither airman was hurt, nor was the machine badly damaged.

Martin is one of the entrants in the flying boat cruise to Detroit, scheduled to take place tomorrow, and is still hopeful of being able to take part.

Poor condition of the lake just outside the breakwater delayed the start of the ten-mile race until late in the day and made it probable that few would try it, since two of the five laps of the event must be covered on the surface of the water.

Seven machines will start in the race to Detroit if Martin's is repaired. The other aviators expected to make the trip are Janus, Cooke, Havens, Johnson, Vilas and Francis.

### Passenger Strikes

Auto at Crossing; Two Women Killed

Two women are dead and a woman and a man seriously hurt as the result of a crossing accident at 5:30 o'clock yesterday afternoon, one mile south of Wall-hill, on the Burlington railway.

An automobile containing William Den-shaw, his wife and two daughters was struck by passenger train No. 26, en route to Sioux City. Mrs. Denshaw and her daughter, Ethel, aged 25, were instantly killed and Mr. Denshaw and daughter, Hazel, seriously injured, the latter suffering a fractured skull. The family had been visiting relatives at Lyons and were en route from there to Sioux City to take a train for their home at Lake Park, Ia.

### Mrs. J. B. Weaver

Dead at Age of 81

(From a Staff Correspondent.)  
DEER MOINES, July 7.—(Special Telegram.)—Mrs. James B. Weaver, widow of the late General Weaver, died here today at the home of her daughter at the age of 81. Her husband died about a year ago. Mrs. Weaver was one of the early champions of woman suffrage in this state and had been prominent in temperance and church work.

### Governor Clark

is Resting Well

DEER MOINES, July 7.—Governor George W. Clark was reported at noon to be resting easily at the Methodist hospital, with indications favorable for his continued improvement.

## LOSS HEAVY AS GUTS OF PLANT

Flames Originating in Cattle and Sheep Killing Department Cause \$200,000 Damage.

### STARTS IN THE FEED DROP

Passes Unnoticed, as Force of Men Employed Not Working.

### SPREADS TO BRINE CHAMBER

Papers and Money Removed from Offices Ahead of Blaze.

### WATER PRESSURE IS WEAK

Departments Get Fire Under Control in South and East Wings, Containing It to North Floors.

Fire, that originated in the cattle and sheep killing department, caused damage estimated to be not less than \$200,000 by General Manager Culver, to the Morris & Co. packing plant in South Omaha, yesterday.

The blaze started in the feed-drop of the elevator on the sixth-floor, on which the beef killing department is located. As the large force of men employed in this department were not at work, the blaze passed unnoticed until it had spread into a large flame enveloping the whole floor and the floor beneath it, where the beef is kept in storage. Before firemen could reach the scene and stretch their lines, the brine chamber on the fourth floor became included in the fire area.

By this time the fire had progressed from the northwest corner across the north side of the building and was rapidly cutting its way south and eastward to the direction of the general offices. All of the papers and documents in the office were immediately moved and A. Koch, assistant cashier of the company, removed \$10,000 in specie from the safes and deposited in the Union Stock Yards National bank. The fire departments, however, got the fire under control in the south and east wings and kept the blaze entirely in the north floors.

### Water Pressure Weak.

The entire South Omaha fire force, under Chief John McHale, the private companies of Morris, Swift and Armour, under Chief Horn, and Omaha companies 3 and 19 and truck No. 3, under Chief Simpson, of Omaha combined efforts and, although considerably handicapped by weak pressure, were performing commendably in retaining the fire in the north building.

Because of lacking a team, the South Omaha steamer was not brought to the scene until Councilman Jay Williams complained at the tardiness and had, and of

(Continued on Page Two.)

## Sullivan Repeats Charges Against Frisco Officials

WASHINGTON, July 7.—Eugene J. Sullivan of San Francisco, president of the Sierra Blue Lake Water and Power company, before the house public lands committee today made the charges of "chicanery" suppression of a report and political bias of engineers in the interest of Hetch Hetchy project for supplying San Francisco with water.

Contending that there was a supply of 25,000,000 gallons daily available from the Mokelumne river, a tributary of the San Joaquin sufficient for San Francisco's needs for a century, Mr. Sullivan charged that a "coterie of political engineers deceived Mayor Phelan, the army advisory board and the public lands commission" and that C. E. Grunsky, an engineer, and former City Engineer Manson made "false reports."

Representative Decker of Missouri joined with Chairman Norris in trying to get from the witnesses the exact nature of the falsifications he charged, but he rested upon the general assertion and asked time to make citations from documents.

Sullivan charged that a report by Assistant City Engineer Bartel was "suppressed" by City Engineer Manson by failing to furnish it to the army board.

### High School Senior

Stabbed by Two Men

COLUMBUS, Neb., July 7.—(Special Telegram.)—Jake Glor, Jr., was the victim of a stabbing affray here last night and John and Lewis Criss, his alleged assailants, are in jail, the former here and the latter at Grand Island. The trouble started over a girl. Glor was stabbed eight times in the back and four times in his hands and face. His condition is serious, but he is expected to recover. Glor is a senior in the Columbus High school.

### Four Are Fatally

Burned by Blaze

PEORIA, Ill., July 7.—Fire broke out in the Clarke & Co. distillery, one of the largest in the world, this afternoon. Four men employed in watch house No. 1 were fatally burned as the result of an explosion caused by the bursting of an incandescent light bulb over a mixing tube. Hospital physicians say their chances for recovery are slight.

### Twister Wrecks

Base Ball Stand

BEAVER CITY, Neb., July 7.—(Special Telegram.)—Late last evening a small twister passed through the north part of town. The grand stand at the ball park was wrecked and the power house at the water works lost part of its roof. Small buildings were moved from their foundations and trees twisted off. No rain accompanied the storm. Earlier in the day the temperature reached 101.

Let the Cleaning Expert Tell Us How

Drawn for The Bee by Powell.

## TO HARMONIZE INTERESTS

Such Said to Be Task of B. L. Winchell for Union Pacific.

### APPOINTMENT IS A SURPRISE

Is Well Known to Some Omaha Men, Having at One Time Been Chief Under J. E. Ut of the Rock Island.

The appointment of B. L. Winchell as director of traffic of the Union Pacific came as a complete surprise to officials of this company, as well as to other railroad men of the city. The vacancy had existed since Mr. Spence went to the Southern Pacific several weeks ago, and, while no promises had been made, it was believed that Judge Lovell and the members of the executive board would give the place to some local man.

Union Pacific men refuse to discuss the appointment. Those of other roads say that it is one of those things that cannot be explained, or accounted for. It is known that Winchell is a diplomat, or at least that is what railroad men say, and that the head management of the Union Pacific felt the necessity of having a man at the head of the traffic department who would be able to do some harmonizing, as well as going after and getting the big things.

Within the last year or so, Union Pacific has secured practically a controlling interest in the Baltimore & Ohio and the Alton. The interests in these corporations all have to be harmonized and it is said that Winchell is the man who can do it.

Two men in Omaha who are personally acquainted with Mr. Winchell both declare that while he is one of the brightest and most thorough railroad men in the country, he is one of the most genial.

Winchell and John Ut, general agent of the Rock Island, have been personal friends for more than thirty years. Thirty years ago, when Ut was general agent of the old Atchison & Lincoln, with headquarters at Atchison, Winchell was his clerk.

Gerrit Fort, passenger traffic manager of the Union Pacific, has known Winchell for nearly thirty years. Twenty-six years ago Fort was a rate clerk with the New York Central and Winchell occupied a similar position with the Port Scott, Kansas City & Memphis road. They frequently met at rate meetings.

### Two Tabor Stores

Damaged by Fire

TABOR, Ia., July 7.—(Special.)—A fire loss of several thousand dollars was sustained here early this morning by the Farmers' department store and John Harbours' dry goods and millinery store. Both are in the big brick block known generally as the Harbours block, but owned by Farmers' Department Store association. As the fire started in a pile of boxes and coal oil barrels just outside the rear of the building just after an electric rain storm, it is thought it was started from lightning. A barrel of oil exploded, thereby giving the alarm to those nearby. The fire spread through a basement window to the interior of the building, burning a hole in the stairway and landing, but was extinguished by firemen before going further. Both stocks and building were insured.

### Two Men Burn Under

Tons of Molten Metal

OLNEY, Ill., July 7.—A huge tank containing molten metal burst at the Olney bottle company's plant yesterday and Aaron Steffy and James Moore, foremen, were burned to death. Steffy's body was incinerated beneath many tons of glass. Moore died three hours later.

### The National Capital

Monday, July 7, 1913.

The Senate. Lobby investigation resumed. Democratic caucus considered unit rule. The House. Not in session; recess Wednesday. Club hands committee held hearing on Hatch-hatch water project.

## Little Girl Defies Burglar with Gun; Saves Stolen Gems

BEAVER CITY, Neb., July 7.—(Special Telegram.)—Irene Keely, eleven years, last night defied a burglar, who was threatening her with a revolver in a canyon on her father's farm, where he had hidden the loot stolen from her home, and recovered all the jewelry taken by the man. She gave the alarm, but posse of neighbors was unable to find him. W. W. Kelly, the girl's father, and the family were away yesterday afternoon and during their absence a tramp ransacked the house. After returning home Mr. Keely sent his daughter on horseback to drive the cows to the barn.

When she saw a package in a small canyon the little girl dismounted to get it. She was confronted by the man, and he covered her with a revolver. The minding her to drop the package. The little girl screened herself behind the horse and made her escape, clinging to the package.

The bundle contained a watch and all the family jewelry.

### Ralph Craig's Body

Taken from Lake

KEARNEY, Neb., July 7.—(Special Telegram.)—The body of Ralph Craig, 8 years old, was recovered from Lake Kearney this afternoon after the lake had been dragged nearly all day. The lad left home yesterday evening with a group of older boys to go swimming. When he did not come home a search was made and clothes were found at the lake. It is not known whether he fell in or whether he got beyond his depth.

### WAVE OF CRIME SWEEPS OVER JOHNSON COUNTY

IOWA CITY, Ia., July 7.—(Special.)—A wave of crime has swept over Johnson county since July 4 and various offenses, from joy-riding to attempted murder have kept the local officials busy with arrests and preliminary hearings.

William Moyer, a local barber, broke into the ticket office at Morse on July 4, was arrested there, and sent to the Solon jail in charge of Special Officer H. P. Myers of the Rock Island. While being searched by Myers in the solitary confinement cell he attacked the officer, striking him over the head with a heavy water pitcher. Myers, although partly stunned, saved his life by drawing his revolver and firing repeatedly at the desperado.

A passenger train on the Elmira branch of the Rock Island was wrecked at Elmira last evening through running into an open switch. No one was injured, as the train was moving slowly. Rock Island officials are sure that the switch was opened either by vandals or by train-wreckers, and are hunting determinedly for the culprits.

Richard Stretthorn tore down a big flag at Sioux Falls, and departed for Cedar Rapids with it. He was arrested and brought back here for hearing before Justice J. H. Heering.

I. P. Penckpaugh, an aged man of North Branch, was knocked into the ditch by unknown joy riders near Iowa City, and lay there for several hours, unconscious, before being found by neighboring farmers.

Prescott first denied that he did the shooting, but there were no signs of reticence in the transaction that when brought before Justice Ralph Stanbery he admitted his guilt, but expressed no regret.

## CLEANERS OPEN CONVENTION

Big Display of Apparatus Shown at the Auditorium.

### DAHLMAN WELCOMES VISITORS

Were Taken to the Den Last Night in Special Cars to See the Ak-Sar-Bee Initiatory Ceremony.

Manufacturers and jobbers of apparatus used for cleaning and dyeing clothes were at work early getting their exhibits in shape at the Auditorium for the opening of the national convention of cleaners and dyers in the afternoon. The first meeting began at 3 o'clock with an address of welcome by Mayor Dahlman.

The Auditorium is nearly filled with samples and working models of things used by cleaners and dyers. Washbasins, dyes, soaps, steam presses and all sorts of modern machinery used in that line are on display.

Nearly 200 delegates have already registered for the convention at the Auditorium. President C. V. Higby, president of the Nebraska Cleaners and Dyers association, and W. H. Morgans of St. Louis, president of the national organization, were among the first on the grounds.

Higby gave the proceedings into the hands of Morgans yesterday and the St. Louisian will preside at the sessions. The cleaners and dyers have no great problems to solve at the present convention, so no quarrels, no mixing politics or campaigning are expected.

### Union Pacific

Decree Entered

SALT LAKE CITY, July 7.—The decree of the United States circuit court judges, sitting as the district court of Utah, dissolving the Union Pacific-Southern Pacific merger, was entered of record in the United States district court here today. The way is now open for the trustees appointed by the court to carry out the disposition of the \$125,000,000 Southern Pacific stock owned by the Union Pacific Railroad company. The decree was entered at a special session of the district court.

### MRS. LOUIS PRESCOTT

DIES OF HER WOUNDS

MASON CITY, Ia., July 8.—(Special.)—Louis Prescott is a murderer without showing any evidence of regret or remorse. Mrs. Cora Prescott, who was his wife until December, last, when by a decree from the courts they were separated, died at the Phillips hospital at Clear Lake at 6 o'clock Sunday morning from gunshot wounds inflicted from a revolver in the hands of her former husband.

Prescott has given no reason for shooting her and has expressed no signs of regret over what he did, neither are there any signs of insanity. He had been drinking, but was not drunk at the time he did the shooting, and in killing his wife he came very near ending the life of M. M. Bradley and his daughter, Miss Vera, who were sitting on the porch of the Bradley cottage, when Prescott opened fire from one side of the porch. He slipped up from behind the house, unnoticed. Mrs. Prescott secured her divorce on the grounds of cruel and inhuman treatment, after living with him for twenty-six years. She was 43 years of age and reared two daughters. She was highly connected in this city and was a woman of high ideals and was greatly esteemed.

Prescott first denied that he did the shooting, but there were no signs of reticence in the transaction that when brought before Justice Ralph Stanbery he admitted his guilt, but expressed no regret.

They brim over with helpful suggestions. They tell you of the old and new things that you must have to get the best out of your outing. For example, the other day a woman read for the first time about a rubber lined exercise toilet case for traveling. The price was insignificant. She immediately bought two. Never knew about them before; wouldn't do without one NOW!

No, don't worry. Follow the advertisements in THE BEE.

## KUHN CORPORATIONS OF PITTSBURGH IN FINANCIAL STRAITS

First-Second National Bank Controlled by Brothers is Closed by Comptroller.

DEPOSITS THIRTY MILLIONS

Last Report Shows Deficiency in the Legal Reserve.

RECEIVER FOR WATER COMBINE

Corporation Controlling Forty Plants is Also Involved.

OTHER CORPORATIONS AFFECTED

Kuhn Brothers Are Also Heavily Interested in Irrigation and Traction Corporations in Pennsylvania and Other States.

PITTSBURGH, Pa., July 7.—A series of financial difficulties occupied the Pittsburgh district today. The First-Second National bank, one of the largest banks in the country, failed to open its doors. Within a short time the First National Bank of McKeesport, Pa., an adjoining city, closed and during the afternoon receivers were appointed for the American Water Works and Guarantee company, one of the largest companies of its kind in the United States, and for the banking house of J. S. and W. S. Kuhn, incorporated. Also during the day a run was made on the Pittsburgh Bank for Savings, another large institution.

The troubles were due to financial difficulties confronting the Kuhn interests of this city. It is said the embarrassment is only temporary and that there is no immediate cause for alarm.

Heavy investments in water works propositions, coal and oil lands and interurban railway companies, together with the financing of a skyscraper bank and office building, are given as some of the causes leading up to the day's suspensions.

The trouble first made its appearance in the First-Second National bank. It is said the government has been investigating conditions for the last month, or since June 4, last, when the last statement was made. An alleged deficiency of \$1,160,000 in the legal reserve of the bank and the subsequent examination brought matters to a climax.

A several months' persons crowded about the First-Second National bank at noon. A squad of police was necessary to keep the great crowd moving.

Kuhn Brothers Control. W. S. Kuhn and J. S. Kuhn own the controlling interests in both banks and their closing led to persistent reports that a receiver would be asked for the American Water Works and Guarantee company, the largest concern of its kind in the country, with which the Kuhns are prominently identified. This concern controls over forty water works plants in the United States.

Differences between the officials of the First-Second bank and the Treasury department over the character of the banks assets are said to have led to the order closing its doors. No details of difficulties had been announced by the Treasury department.

The First-Second National bank is a recent consolidation of the First and Second National banks of Pittsburgh and has deposits of more than \$3,000,000.

The suspension of the institution precipitated a run on the Pittsburgh Bank for Savings, of which J. S. Kuhn is president.

Receiver for Water Combine. Attorneys this afternoon appeared before Judge C. P. Orr in the federal court and asked for receivers for the American Water Works and Guarantee company and also for the First of J. S. and W. S. Kuhn, incorporated. For the former they were appointed: J. S. Kuhn, W. S. Kuhn, J. H. Purdy, general manager of the company, and Samuel Bailey, Jr., a bank official of this city.

For the Kuhn company was appointed J. K. Duff, who is treasurer of the company. Bonds of \$50,000 were ordered filed for each receiver.

J. S. and W. S. Kuhn, incorporated bankers, known as the Kuhn interests, are incorporated in Delaware with a capital

(Continued on Page Two.)

## Why Bother About It?

Why bother about going away? Why worry and get wrinkles over the getting ready, the buying?

Why start on your vacation mentally and physically "Done up"?

Let THE BEE help you! It's easy—very easy. Just run your eager eyes up and down the advertising columns of THE BEE and you will find a world of suggestions about going away vacation methods.

They brim over with helpful suggestions. They tell you of the old and new things that you must have to get the best out of your outing. For example, the other day a woman read for the first time about a rubber lined exercise toilet case for traveling. The price was insignificant. She immediately bought two. Never knew about them before; wouldn't do without one NOW!

No, don't
