# GRAIN AND PRODUCE MARKET

Price Declines in Wheat Are in Evidence at Grain Centers.

### CORN UNDER HEAVY PRESSURE

Professional Tenders Believe that Yellow Cereal is a Little Out of Line in Price and Work for Advance.

The average professional in wheat was inver known to stand up and play himself in a position to face the actual grain, if a loophole for his escape could possibly be found. This fact was clearly demonstrated vertexity when the indemonstrated yesterday when the is creased receipts of new wheat where re ported from the Chicago inspection office ported from the Chicago inspection office as well as from southwesters points. Twenty cars of new wheat were resolved in Chicago yesterday and lie cars cars were estimated for today. Price declines were in evidence at all markets and had not exporters purchased \$60,000 bushels of old wheat for shipment to the seaboard, which checked the declining market, an unitsual price break would possibly have been among the features of the session. The news of the taking of this round lot of wheat changed a weak situation into a strong one and caused reactions and advances from the bottom.

The month of Juty report was bearish in

caused reactions and advances from the bottom.

The month of July report was bearish in itself, and attracted a great deal of attention not only in the Chicago pit, but also in the smaller markets of the world. Although Missouri is a small wheat state, the figures show that conditions in the southwest are even better than most ardent bears have dared to believe. The political situation abroad, while atracting some attention in the markets of the old world, has failed to influence values in Chicago. It is expected that the liberal shipment of wheat to Liverpool and the increase in stocks there would cause more or less pressure from France and the increased call for cargoes. Cash wheap was 43½c higher.

Corn was under pressure from the leading professionais in the trade, who believe that with present conditions the price of this grain is out of line. There were many efforts made on the part of the larger holders of options to force the price upward, with the intention of unloading part of their grain on any advance that might be fairly well sustained, but in this they were mistaken, as conditions failed to hold any upturn. Cash corn unchanged to 1c higher.

The country was a liberal seller of odial yesterday. Cash oats were unchanged to 1c lower.

CALVES,  The trade opened out very slow this morning, with packers doing practically nothing. Shippers bought quite a number of loads of best lights early and prices that were strong to 5 cents higher, but their purchases were of the best quality and were picked up here and there a load at a time. When packers finally made their first bids they showed a tendency to hold prices fown and if anything the figures offered looked a little lower than vestorday's average market. Sellers, however, held on for steady prices, and as they refused to cut loose at the buyers' prices, the killers finally raised their hands and when bids reached a steady basis, salesmen began to cash their strings. Bulk of the packer droves were put up in the same notches as yesterday, but along towards the last end of the trade, values slumped off a little and the close of the market marked the low point of the day. Summing up the whole trade, prices range from steady to 5 cents higher. Bulk of cales landed at \$2.7505.90, and some choice lights reached \$2.50, just a nickel higher than yesterday's best figure. Movement was rather slow at all times, and at 10.20 there were still quite a number of bunches unsold.

rear. LAUTERBACH ON THE STAND

Pleads He Was Innocent Victim and "Vicarious Sacrifice."

PUT ON GRILL IN EARNEST

Under Searching Fire of Questions, New York Attorney Admits Most of Pacis Alleged by Lewis Cans Ledyard.

WASHINGTON, July 8.—The strange tale of Wall street operations, begun to the senate's lobby committee last week by David Lamar, had another chapter Lamar's associate in many undertakings, pleaded that he had been the innocent victim and "vicarious accrifice" in negotlations that have involved the Morgan firm, the steel interests, New York attorneys, members of congress and men of

lesser prominence.

Lauterbach had already testified before the committee. But since his former appearance Lamar had fold his unexpected story, involving himself and Lauterbach in the preliminaries of the steel trust investigation and an extraordinary effort to restore Lauterbach to the good graces of the Morgan firm; and Lewis Cass Ledyard had added his sworn statement that Lauterbach had represented himself as the emissary of Speaker Clark, Senator Stone and democratic, leaders in an effort to effect a "reconciliation" with the Morgan-steel interests and shut off investigation or opposition in congress.

Says He is Victim. Lauterbach, long prominent in legal. dreies in New York, sat all day under a searching fire of questions from senators on the lobby committee. He admitted, voluntarily or under the deman't. of his questioners, most of the facts alleged by Ledyard, but he declared that, throughout the negotiations between Lamar and himself and between himself and members or representatives of the Morgan firm, he had been the innocent victim of those who had concealed facts or made misrepresentations to him. Throughout the entire proceeding

declared there was no thought of re-ward on his part. He raised himself in the witness chair and shouted "No" with vehement emphasis when Senator Reed suggested that there had been et-

bales.

Wool Market.

Wool Market.

BOSTON, July 8.—WOOL—Increased business marked the Boston wood market during the week. The transfers totalled more than 1,500,000 pounds, including territories, fleeces and Texas wools. Low prices have kept the market down on all grades except medium fleeces.

Of general interest has been the disposal of about 300,000 pounds of two of two of two of the earlier shorn Montan clip at a clean basis of about 50c. Further sales of Ulah and New Mexican wools have been made on the basis of 67600c for half-bloods and fine medium, while three-eighths and quarters are quoted at 6566c clean. Some new unwashed delaine fleece has been sold at Ec.
