## COMMISSION TO TEST POWER

May Compel Railroad to Operate Trains Over Another Line.

CLASS FREIGHT RATES LOWERED

Fen Nebraska Civil Engineers Apply for Jobs in Making Physical Valuation of Country's Ballways.

(From a Staff Correspondent.)
LINCOLN, July 12-(Special.)-The right of the railway commission to compel one railroad of the state to operate trains over another company's lines may be brought up in this state, according to word given out at the rallway commission offices today. It has been suggested by southeast Nebraska residents that the Missouri Pacific should operate a morn ing train each day between Talmage and Hickman on its own lines and between Bickman and Lincoln over the Burling-A return train in the evening is likewise suggested as a completion of the

The question has never arisen in the state before. The commissioners believe off hand that they have the poweer to take such a step and that the courts would uphold them in so doing. The matter may be taken up by the commisioners without waiting for a complain

A general lowering of class freight rates on a score or more of articles in this state has just been effected by the State Railway commission through the authorization of a new clasification schedule. Cedar fence posts have been reduced from third to fourth class freight davenports and sofa beds have been given a distinctive classification and

to take second class ratings. In the past shipped at second class rates.

separate classifications which will allow from \$100 to \$50 per annum. first and class rates or one and a half Mication of these articles.
